

**REMINDER:**  
**RELAXATION IS OFTEN  
DELIVERED BY RAIL**  
(remember to breathe)

The massive heart of the locomotive comes to life, sending a gentle tug through the entire train. Moving through the Rocky Mountains' most picturesque region, you gasp as you see a bighorn sheep gazing stoically from his granite perch. While the train hugs the side of a cliff, river rapids raging below, you take in the majestic views through full-length glass domed windows. Then your gourmet meal appears, prepared by a world-renowned chef. Captivated by the surrounding wilderness, and calmed by the hypnotic rhythm of the wheels below, you wonder if you'll ever travel any other way.
