Bidders who are successful in making purchases will be contacted following the sale to make payment and delivery arrangements.

Welcome Fellow Producers!

Linda and I along with our family would like to welcome you all to our 15th Annual Montana Angus Female Bonanza. We are very excited about this year's offering. In the sale there are 2,963 total bred heifers of which 1,630 are AI bred to Connealy Countdown, and 1,333 head are pasture bred to low birth weight Vermilion Ranch bulls, a high percentage of which are Countdown sons. Countdown is, no question, as good of a heifer bull as we have ever used at Vermilion. His calves come early in gestation, they are very consistent and the most importantly, they continue to grow! You will like them at weaning. The bred heifers in this sale are as high a quality as we have ever offered with a high percentage sired by top Vermilion bulls. They were the front end of the 14,000 head we started with.

A real feature in the offering are the 2,420 two-four year-old cows, of which 2,301 are two coming three year-olds. We have 343 of those two coming three year-olds AI bred to Connealy Spur and the rest are all bred to high performing Vermilion Angus bulls. We are also offering 119 three coming four year-olds that are all bred to high performing Vermilion Angus bulls. All of these cows weaned a fancy set of calves and bred back with a 94% pregnancy rate. Most of them were bred to Connealy Spur, SAV Privilege, VR Playmaker, and Countdown sons. They are the real Montana Angus Female Bonanza Kind!

Our entire family has been very blessed to have the opportunity to grow up not only in the purebred

industry, but we have been involved in the feeding and merchandising of feeder cattle and replacement type cattle for many years.

Our philosophy and our PROGRAM from the very beginning has been to breed high quality Angus females to top quality Angus bulls that are bred alike, that have some look, performance, and maternal momma cows behind them. Over the years we have come to believe if we were going to be successful not only in breeding cattle but also in merchandising and feeding cattle, our cattle must reflect this philosophy. We're proud that this offering of females represents our program in every way!

All of the females have been ultrasound preg tested by Dr. Ralph Miller, the best in the business. This will be the largest volume of high quality Angus females in America to sell that have been sexed and sorted into short day calving groups. There are two huge advantages to buying sexed females in tight calving groups: Number One, you have a very uniform calf crop and Number Two, and most importantly, your breed-up on these females the following year should be substantially higher than a set of females that calve for 60 days.

There are so many people that Linda and I along with our family would like to thank that makes this sale and program happen. We sure want to thank all of our brothers, sisters, nieces, and nephews, the entire Kading family, and everyone at Vermilion for their support, sweat, long hours, and hard work they have given us. Also, we couldn't operate without Merrill and Kathleen Ostrum along with Terrill Ostrum and all their crew. Then there is Ralph and Candace Miller and J.D. Vuckonich at the White Sulphur Unit as well as Juanita, Turk, and Jenny Stovall and their entire crew at Stovall Ranches. Also, Race King and their entire crew at LaCense Ranch along with Matt Nimmo and the entire crew at Nimmo Ranch. All of these folks put their heart and soul into making the Montana Angus Female Bonanza sale successful year in and year out.

As always, we stand behind these females 100%! If you have problems, let us know and we will make it right! Thanks so much for your interest. We truly are proud of this set of females.

*Sincerely,
Joe, Linda & Family*

Lot: 1

77 Angus Bred Heifers

Tags: Orange 1-342

Tabs: Blue

Carrying: Bull Calves

Calve: Feb 1-5

SPUR is a big-time performance HERD bull! His calves are big volume, well muscled with lots of shape and great eye appeal. Spur's EPD's are second to none and he has sired the high selling sire groups in each of the last two Vermilion Ranch sales. His daughters have proven themselves at the Vermilion to be outstanding mother cows weaning big calves and also have beautiful udders, teat placement and size! He is one of the most complete Angus bulls in the breed.

COUNTDOWN has proved himself as one of the elite calving ease bulls of the Angus breed. His calves come light, early, and have a whole lot of "get up and go" at birth. They are very uniform in their kind and makeup and best of all, they have a lot of grow and performance in them. No question, **COUNTDOWN** is the best calving ease bull we have ever used at the Vermilion Ranch.
