Confidentiality

It is recognized that most of the transactions relating to the company's purchases are confidential, especially with regard to our suppliers and competitors.

It is considered unethical and illegal, as well as damaging to the company's competitive position, and a breach of trust, to allow company proprietary information about one supplier's quotation to pass to another supplier. Discussing proprietary information in telephone calls and conversing with other buyers within hearing of suppliers in other offices are some examples of behavior that can allow proprietary information to pass to others inappropriately. These types of situations should be avoided.

Passage of pricing, technologic or strategic information from an employee of the company to an employee of a competitor is not only unethical, but is likely to be in violation of one or more of the various antitrust laws and should be scrupulously avoided.

All files within Purchasing are to be maintained in an up-to-date and confidential manner. Access to these files and any other documentation found within this department shall be restricted.

Proprietary information requires protection of the name, composition, process of manufacture, or rights to unique or exclusive information which has marketable value and is upheld by patent, copyright, or non-disclosure agreements. Extreme care and good judgment should be used if confidential information is communicated verbally. Such information should be shared only on a "need to know" basis. If the purchasing professional is unclear regarding disclosure requirements, corporate counsel should be consulted.
