Salary

\$22.06 - \$35.29 Hourly

\$45,876 - \$73,401 Annually

This position is a Pay Band ED

Posting Details

The New Mexico Public Regulation Commission Pipeline Safety Bureau:

- Enforces federal and state pipeline safety regulations in order to provide for the safe operation of natural gas and hazardous liquid facilities;
- investigates intrastate pipeline incidents and accidents that take place in New Mexico;
- enforces the State Excavation Damage Prevention Law; and
- is responsible for licensing crude oil, natural gas, and oil and gas product pipelines.

Why does the job exist?

This position ensures all safety aspects of the intrastate transport of natural gas and hazardous liquids by pipeline and pipeline facilities with a goal of ultimate safety and responsibility for both interstate and intrastate facilities by conducting periodic inspections and necessary investigations. The incumbent may also serve as a subject matter expert for interpreting federal regulations and guiding inspection staff.

How does it get done?

- Conduct inspections of all natural gas and hazardous liquid pipeline systems to determine compliance
- Conduct investigations of all natural gas and hazardous liquid pipeline incidents and accidents
- Frequently travel in and out of state for inspections and training purposes
- Prepare technical reports for inspections/investigations conducted
- Maintain and update all pipeline safety docket and inspection forms as required
- Track violations cited for corrective action until cases are closed
- Manage inspection plans and intervals

Who are the customers?

- Intrastate Pipeline Operators
- Members of the public
- PRC Pipeline Safety Staff
- Federal and State Governments

Ideal Candidate

- Experience conducting DOT (192/195) compliance inspections
- Experience complying with or implementing DOT regulations on behalf of a pipeline operator
- Ability to work with stringent deadlines
- Knowledge of engineering principles, safety regulations and sound pipeline design and construction
- Ability to prepare very detailed and technical reports and letters
- Ability to communicate (written and verbal) at a professional level.

Minimum Qualification

High School Diploma or equivalent and six (6) years of relevant experience. Substitutions Apply. See Substitution Table below.

Substitution Table
