

Logan ("Handsome Boy") Rafatti

Sebring, Florida

Email: candcrafatti@aol.com

Profile: Tall, dark, and handsome young Scottish Terrier with five years of experience with issues such as proper Scottie feeding and selection of treats, grooming, recreational activities, hunting, canine health care, and how to train your human family. Very capable writer (with assistance of my human Mom... I dictate, and she obediently types).

Qualifications and Experience

- Long, quality pedigree showing lineage from purebred Scottish Terriers. Many champions in pedigree.
- Considerable personal experience with issues relevant to the current generation of Scottish Terriers. (You name it; I know *all* about it!)
- Very photogenic.
- Up to date on all vaccinations.
- Travel very well. (I sit quietly on my seat in the van and *don't* get carsick.)
- Went to "earth dog trials" once. (*Don't* ask how I did- it's a little embarrassing!)
- Graduate, Petco basic and intermediate dog obedience classes.
- Game leader, Petco puppy socialization classes.

Skills

- Hunting vermin of all types and sizes (including mice, snakes, lizards, rabbits, birds and any other creatures that dare to venture into my territory), and ridding my human parents of unnecessary items of clutter (dog beds, furniture, papers, jewelry, etc.).
- Guarding my home and property and alerting to intruders (*broadly* defined).
- Lounging and maximizing relaxation time in the most comfortable locations- especially on the back of the couch and on Mom and Dad's big bed.
- Proficient in performing two tricks- sit up and beg, and "high five".
- Story-telling. (For examples, see the STCTB newsletters.)
- Alpha dog who enjoys leading the pack (when my Scottie mother and father, grandmother, aunts, nieces, and sister are not around to spoil the fun).
- Strong computer skills with use of Microsoft software suite (including PowerPoint and Publisher), Internet and email, and creation of newsletters and flyers. (I let my human Mom assist- it makes her feel useful and she is a faster typist than I am.)

Credentials

- AKC registered.
- Neutered and microchipped.
- Annually- receive a "clean bill of health" from the dog doctor.
