Ed called the meeting to order at 3:30.

Engineer Dave Eckman discussed the Center Road Improvement Project. Many of the Center Road abutters were in attendance. He reviewed potential tree removal, drainage, guardrails and also discussed arrangements for on-site appointments. Some residents offered their property for storing equipment or material.

The Board asked if Dave had adequate fabric included in the bid. He said that at this point in the project, changes can be made so the Board suggested adding more fabric to the project. Harold also suggested using gray culverts instead of the black ones that Dave proposed since they are stronger.

Start date of the project will be at the end of the school year and substantial completion date will be August 15, 2018. Bids are due next Monday, 2/26/18.
