#### Independent Auditor's Report

March 12, 2004

To the Board of Directors

Bexar-Medina-Atascosa Counties Water Control
and Improvement District No. 1

Natalia, Texas

I have audited the accompanying general purpose financial statements of the Bexar-Medina-Atascosa Counties Water Control and Improvement District No. 1 (the District) as of and for the year ended December 31, 2003. These general purpose financial statements are the responsibility of the District's management. My responsibility is to express an opinion on these general purpose financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

As more fully discussed in note 5 to the financial statements, the District has not determined the quantity and value of land acquired for operation and expansion of the irrigation system since the District's creation in 1925. The District's records do not permit the application of alternative procedures regarding the value of such land at the time of acquisition.

In my opinion, except for the omission of the information discussed in the preceding paragraph and as discussed in note 5, the general purpose financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of the Bexar-Medina-Atascosa Counties Water Control and Improvement District No. 1 as of December 31, 2003, and the results of its operations and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

My audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The supplementary information listed in the table of contents is presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the Bexar-Medina-Atascosa Counties Water Control and Improvement District No. 1. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in my opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

GREGORY R. SEIBERT

**CERTIFIED PUBLIC ACCOUNTANT**

## NOTES TO FINANCIAL STATEMENTS December 31, 2003

#### Note 1 - Summary of Significant Accounting Policies

The Bexar-Madina-Atascosa Water Control and Improvement District No. 1 (the District) was organized as a municipal corporation under the Water Improvement District laws of Texas, Section 52, Article III, Texas Constitution; Chapter 2, Title 128, Article 7622 and subsequent, Revised Statutes of Texas of 1925; and Chapter 87 of the general laws passed by the Thirty-fifth Legislature at the regular session in 1917. The District currently operates under Article XVI, Section 59 of the Texas Constitution, Chapters 49, 50 and 51 of the Texas Water Code, and other applicable general laws of the State. The District was reorganized as a municipal corporation or Irrigation District on February 8, 1925. The District provides irrigation water to a three county area in south-central Texas. The District is under full control of a seven member Board of Directors. Board members are elected by the landowners of the District to serve a four year term.

Reporting Entity - The District, for financial purposes, includes all of the funds and account groups relevant to its operations.

Generally accepted accounting principles require that the financial statements of the District include those of separately administered organizations for which the District is financially accountable. Financial accountability is determined on the basis of budget adoption, taxing authority, funding and appointment of the respective governing board.

Based on the foregoing criteria, there were no component units required to be included in these financial statements.

Fund Accounting - The accounts of the District are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund or account group are summarized by providing a separate set of self-balancing accounts that include its assets, liabilities, fund equity, revenues, and expenditures or expenses. The following funds and groups of accounts are used by the District:

#### **Proprietary Fund Types:**

Proprietary funds use the economic resources measurement focus. The accounting objectives are determination of net income, financial position, and cash flows. All assets and liabilities associated with a proprietary fund's activities are included on its balance sheet. Proprietary fund equity is segregated into contributed capital and retained earnings.

<u>Basis of Accounting</u> - The accrual basis of accounting is used in proprietary fund types. The accrual basis of accounting recognizes revenue when earned. Expenses are recorded when incurred.

<u>Budgets and Budgetary Accounting</u> - An annual operating budget is adopted by the Board of Directors as a management tool and to meet contractual obligations. Monthly budget reports are prepared for the Board to maintain proper budgetary control.

It is the District's policy to prepare the annual budget on the cash basis of accounting.

## NOTES TO FINANCIAL STATEMENTS December 31, 2003

#### Note 1 - Summary of Significant Accounting Policies (continued)

<u>Cash and Cash Equivalents</u> - For purposes of the statement of cash flows, all highly liquid investments with a maturity of three months or less are considered to be cash equivalents.

<u>Property, Plant and Equipment</u> - Property, plant and equipment are stated at historical costs. Donated fixed assets are stated at their fair value on the date donated. The District provides for depreciation over the estimated useful lives of the assets using the straight-line method. Estimated useful lives, in years, for depreciable assets are as follows:

Building	15 - 50
Machinery and equipment	7 - 30
Automobiles and trucks	5 - 10
Furniture and fixtures	3 - 30
Fencing	30
Communication equipment	10
Miscellaneous	3 - 30

<u>Compensated Absences</u> - The District allows employees to accumulate vacation and sick leave within certain limitations. Pursuant to GASB pronouncements, the District does not record as expense nonvested sick leave. The accrued vacation payable at December 31, 2003 was immaterial and therefore was not recorded at year-end.

<u>Risk Management</u> - The District provides for potential losses due to insurable risks primarily through the purchase of commercial liability insurance. Such insurance covers risk areas such as losses related to property damage or theft and bonding of the Board of Directors.

<u>Estimates</u> - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Note 2 - Deposits and Investments

Deposits (cash and certificates of deposit) are carried at cost, which approximates market value. The District's deposits are categorized to give an indication of the level of risk assumed by the District at year-end. The categories are described as follows:

Category 1 - Insured or collateralized with securities held by the District or by its agent in the District's name.

Category 2 - Collateralized with securities held by the pledging financial institution's trust department or agent in the District's name.

Category 3 - Uncollateralized.

#### NOTES TO FINANCIAL STATEMENTS December 31, 2003

#### Note 2 - Deposits (continued)

Deposits, categorized by level of risk, are as follows:

	Bank		Category	Carrying			
	Balance	1	2	3	Amount	Total	
Cash and cash equivalents	\$ 351,818	\$ 351,818	\$ 351,818 \$ -		\$ 280,549	\$ 280,549	
Certificates of deposit	523,982	523,982	-	-	523,982	523,982	
·	\$ 875,800	\$ 875,800	\$ -	\$ -	\$ 804,531	\$ 804,531	

Investments consist of an escrow account with the Bank of New York where the proceeds of the issuance of contract revenue notes were deposited per an escrow agreement. These funds are invested in a Fidelity Treasury Fund. These funds are reported at cost which approximates market. The balance in this account as of December 31, 2003 was \$2,658,627.

#### Note 3 - Restricted Assets

Certain assets are restricted for construction funded through contract revenue notes.

#### Note 4 - Accounts Receivable

Accounts receivable consist of fixed water assessments of \$256,808 due as of December 31, 2003. A provision for estimated uncollectible accounts on these assessments in the amount of \$29,000 has been provided.

#### Note 5 - Property, Plant and Equipment

Property, plant and equipment is carried at cost, if purchased, or fair market value at the date of acquisition, if received as a donation. Depreciation is computed using the straight-line method over the asset's estimated service lives. Depreciation expense for the year ended December 31, 2003 totaled \$83,091.

The following is a summary of the change in the fixed asset accounts for the year ended December 31, 2003:

#### NOTES TO FINANCIAL STATEMENTS December 31, 2003

	\$	3,869,764	\$	1,003,804	\$ 38,509	\$ 4,835,059

The value of land acquired since 1925 by the District has not been established; therefore, it is not recorded on the books as of December 31, 2003. The land was deeded to the District by property owners at the time of creation of the District for the purpose of establishing the system of canals needed to complete the irrigation system. The total number of acres donated to the District has not been determined.

#### Note 6 - Long-Term Debt

The following is a summary of long-term debt as of December 31, 2003:

Various Notes payable bearing interest from 6.4% to 9.0%. These notes mature from 2004 to 2008; secured by vehicles and equipment.	\$ 382,002
to 2000, secured by verticies and equipment.	Ψ 302,002
Less current portion	141,950
• ***	\$ 240,052
Current maturities of long-term debt are as follows:	
2004	\$ 141,950
2005	103,764
2006	96,528
2007	36,678
2008	3,082
	\$ 382.002

#### NOTES TO FINANCIAL STATEMENTS December 31, 2003

#### Note 7 - Contract Revenue Notes

On October 7, 2000 the Board of Directors approved a resolution authorizing the issuance of \$3,765,000 of contract revenue notes. The proceeds of these notes are restricted to the rehabilitation of the water delivery system. The notes are payable from revenue received from the water sales contract with the Bexar Metropolitan Water District.

The following is a summary of these notes as of December 31, 2003:

\$3,765,000 Series 2000 Contract Revenue Notes due in annual installments of \$300,000 to \$485,000 through February, 2010; interest is variable from 4.81% to 5.56% and is payable semi-annually

\$ 2,850,000

Less current portion

335,000 \$ 2.515,000

The annual requirements to amortize the debt, including interest payments of \$1,061,272 are as follows:

Year Ending	
December 31	
2004	335,000
2005	360,000
2006	380,000
2007-2010	1,775,000
	\$ 2,850,000

#### Note 8 - Water Sales Contracts and Commitments

The district has entered into a series of agreements with the Bexar Metropolitan Water District (Bexar-Met). These agreements provide for the sale of water from the District's water system to Bexar-Met and for payments by Bexar-Met to the District to ensure future water availability for sale to Bexar-Met. Each agreement is described further in this note. In summary, a 1991 agreement provides for the sale of "excess water" (as determined by the District) at a fixed price on a take-or-pay basis; a 1992 agreement suspends for five years certain provisions of the 1991 agreement delaying the sale of excess water to Bexar-Met, with Bexar-Met making fixed annual payments for maintenance, repairs, and improvements to the District's water system; and a 1995 agreement provides that the District will sell specified amounts of water on a "priority basis" before determining the amount of excess water as defined in the 1991 agreement.

## NOTES TO FINANCIAL STATEMENTS December 31, 2003

#### Note 8 - Water Sales Contracts and Commitments (continued)

#### **Long - Term Water Sales Agreement**

The 1991 agreement provides for the sale of excess water from the District's adjudication of 66,000 acre-feet of water per year. The agreement is effective from September 1, 1991, for a period of twenty years with the option to extend the agreement for an additional ten years. Several options to terminate the agreement are available to the District. Bexar-Met may terminate the agreement effective December 31 of the year after Bexar-Met gives proper notices. Implementation of the agreement is subject to approval by the Texas Natural Resource Conservation Commission (TNRCC). In April, 1998, the District's Certificate of Adjudication was amended by the TNRCC to authorize the use of 19,974 acre-feet of its 66,000 acre-foot adjudication for municipal purposes. Excess water is determined at the District's sole discretion. The agreement requires the District to evaluate the availability of excess water at least twice a year in the months of February and August. Bexar-Met agrees to purchase during each contract year all excess water as determined by the District whether or not Bexar-Met takes delivery of the water. The price of the water for the first three contract years shall be \$56.00 for each metered acre-foot, subject to adjustments thereafter. The District is committed to deliver the excess water only by gravity flows to Bexar-Met's designated point of diversion, which is the same as the District's point of diversion in the system.

#### 1992 Water Conservation Agreement

In 1992, the District entered into a water conservation agreement with Bexar-Met. The agreement provides that the District will take certain steps to ensure future excess waters, as defined in the water sales agreement, including measures to conserve water in the District's irrigation system. The agreement became effective September 1, 1992, for a period of five years. Bexar-Met paid the District \$300,000 each year that the contract was in effect.

The water conservation agreement required the District to waive its right to declare excess water during the five-year term of the agreement. Bexar-Met will receive credits against future billings for excess water under the water agreement to the extent of 85% of the first year's conservation agreement payments and 100% of future years' payments. Total credits to be given by the District will not exceed \$1,455,000, and the credit applied to future water purchases in any year may not be more than one-fifth of the total credits.

#### 1995 Water Availability Contract

In 1995, The District completed an agreement with Bexar-Met to make water available to Bexar-Met on a priority basis up to 6,000 acre-feet of water per year, to the extent water is available in accordance with conditions stated in the 1995 agreement. The potential availability of excess water pursuant to the 1991 agreement is directly reduced on an acre-foot basis.

On each anniversary date, Bexar-Met will pay the District the purchase price for the entire quantity of water deliverable under the 1995 agreement during the twelve months following November 1, 1996. The District is entitled to the entire purchase price for the stated quantity of priority water whether or not Bexar-Met accepts the District's tender of the water.

#### BEXAR-MEDINA-ATASCOSA COUNTIES WATER CONTROL AND

#### **IMPROVEMENT DISTRICT NO. 1**

NOTES TO FINANCIAL STATEMENTS
December 31, 2003

#### Note 8 - Water Sales Contracts and Commitments (continued)

In 1997, the parties amended this contract. In that amendment Bexar-Met agreed to pay \$168,000 for 3,000 acre-feet of water. Bexar-Met can receive the water in the twelve months starting April 1, 1998.

#### 1999 Agreement

In November, 1999 the District entered into an agreement with Bexar-Met that merges and integrates the prior agreements. Per the 1999 agreement, the District will deliver 10,000 acre feet of priority water to Bexar-Met annually on a take or pay basis at \$69 per acre foot. This amount is to be paid in equal monthly installments of \$57,500 beginning December, 1999.

Bexar-Met will provide \$500,000 per year toward the federal matching fund obligation per the P.L. 83-566 project to rehabilitate the water delivery system. These payments will begin in 2001 and run through 2010. In consideration for Bexar-Met's funding of the annual matching project, the District shall annually convert 1,000 acre feet out of the 19,974 acre feet of water allocated for municipal use under the Certificate of Adjudication 19-2130 for purchase by Bexar-Met on a priority basis until the balance of the 19,974 acre feet of water is allocated to Bexar-Met.

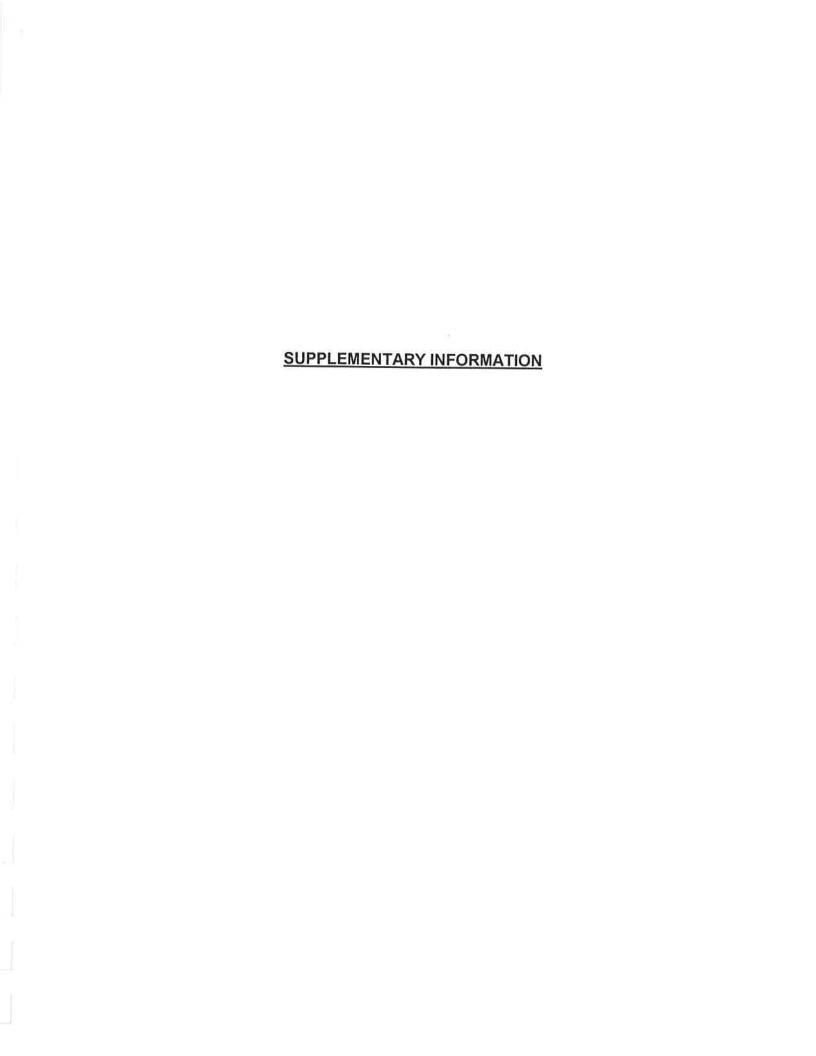

This agreement was amended in June, 2000 whereby Bexar-Met contractually agreed to provide in-kind payment or perform creditable activity in an amount not less than \$500,000 per year toward the federal matching fund obligation for the years 2001 through 2010.

#### Note 9 - Concentrations

The District derived approximately sixty six percent of its income for the year ended December 31, 2003 from the water sales contracts with the Bexar Metropolitan Water District. See note 8 for details of these contracts.

#### Note 10 - New Reporting Format

In June 1999, the Governmental Accounting Standards Board (GASB) issued Statement 34. This Statement establishes new financial reporting requirements for state and local governments throughout the United States. When implemented, it will require new information and restructure much of the information that governments have presented in the past. Comparability with reports issued in prior years will be affected. The District is required to implement this standard for the year ending December 31, 2004. The District has not yet determined the full impact that adoption of GASB Statement 34 will have on the financial statements.

#### SCHEDULE OF REVENUES, EXPENSES, AND CHANGES IN RETAINED EARNINGS - BUDGET AND ACTUAL Year Ended December 31, 2003
