

THE LAST JEWISH GENERATION

ASSOCIATED WITH THE TEMPLE & TIME OF JACOB'S TROUBLES

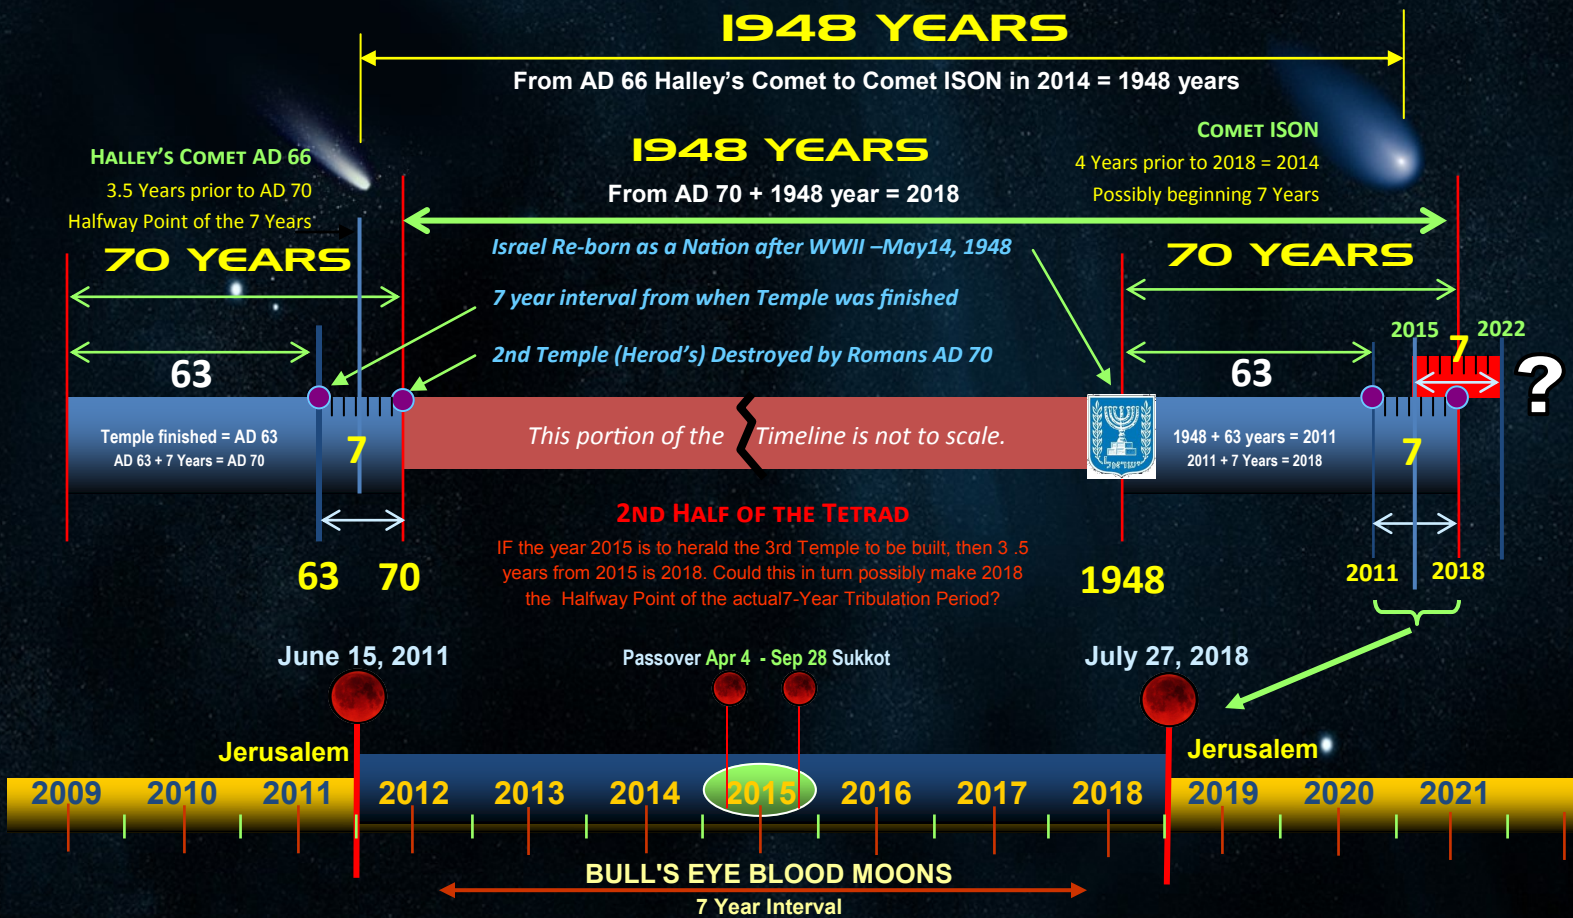

A 63-7-70 Year Repeating Pattern

The restorations or extensions of the Second Temple of Zerubbabel's work begun by King Herod I the Great (73-4 BCE) at the beginning of 19 BC. The work went on for more than 60 years after that. When Jesus visited the Temple at the first Passover of his ministry it was said that the place had by then been under construction for 46 years. The work was not entirely finished until 63 AD, only 7 years before the destruction of the entire Temple in 70 AD.

The purpose of this illustration is to investigate when the 2nd Temple (Herod's) was 'officially' completed. Research confirms that there were exactly 7 years from when the Temple was completed to when the destruction of the Temple by the Romans took place. The year was 70 AD. Thus if 7 years is subtract from 70 AD, the year will be 63 AD for a total of 70 years. This timeline only suggests that a **63-7-70 Year Pattern** could be repeating in the current generation - to be witnessed as being perhaps the Last Generation spoken by Christ Jesus. IF one takes 1948 when Israel was restored as a nation, it gives the possible prophetic benchmark as to when the start of this 'Repeating' of the pattern might have already occurred. This pattern will be superimposed with the 63, 7 and 70 year numerical factors. The pattern thus leads up to the years **2011 and 2018** as it was 'mirrored' leading up to 70 AD. IF this is valid, then 2018 is yet to turn out to be a key date marker year for Israel. Perhaps it will be the 'Last Generation' that is to enter the prophetic events as Jesus Christ described. Perhaps this time period might have a corresponding relationship, as it did with the Desolation of the 2nd Temple in 70 AD for the Jewish Nation. The 7-Years from 2011 would make **2015** possibly then the anticipated rededication of the Jewish 3rd Temple and possibly the start of Prophet Daniel's *Last Week* -yet to be fulfilled. It will be a time of great turmoil for national Israel; a time of 'Jacob's Troubles'.

SOME OBSERVATIONS

- The context of the 'Last Generation' has to do with the Parable of the Fig Tree directed at Israel -not to the Church, the Body of Christ.
- A Biblical Generation can be 40, 50, 52, 80, 90 and even 100 years etc. Each time frame has its merit and context.
- This study uses the 365 day count as the 7 years leading up to the AD 70-Year marker was calculated using 7, 365 day counts.
- IF one adds 1948 years from 70 AD one ends up at 2018 Bull's Eye Moon. Then if 70 years are added to 1948, the year is also 2018.
- Interestingly Comet Halley appeared in March, 66 AD. Comet ISON will be in full view in 2014. Each are exactly 1948 years apart as well.
- IF one adds the 63 years to 1948 = 2011. On 2011, there was a Central Blood Moon that exactly 7 Years takes you to 2018.
- The 4 Blood Moons or Tetrad of 2014-2015 could very well mark the beginning point of 7 Years perhaps after the 2014-2015 Tetrad.

Possibly, the "Last Generation" started the Prophetic Countdown for Israel by way of this 'repeating of the 63-7-70 Year Pattern' in 1948. This singular year in modern times saw the restoration of Israel as a Sovereign Nation for the 1st time in nearly 1940 years. IF so, this generation could be the last in history Christ foretold about the **Fig Tree Parable** in **Matthew 24**. It was described as being related to 'The Generation' of the Jewish Nation that would see a restoration of their Nation, their City and perhaps their Temple. This process would be for the reconciliation with their GOD through the Temple and the Tribulation to come called the 'Time of Jacob's Troubles'. In the immediacy of the Prophecy, Christ's words did come true for that 'Generation' did see the destruction of the Temple, the City and the Nation. The short-term fulfillment also always casts a long-term shadow of future prophecy projected onto history as a pattern. Perhaps 2018 is when the Jews will flee to the 'mountains' of Petra in an admonition due to the severe persecution of the Jews & Christians by the false AntiChrist Messiah will have accepted by then. These timelines only suggest that this 'repeat of the 63-7-70 Year Pattern' perhaps will usher in the last events for the Jewish Nation that will resolve the issues of the Temple the true Messiah, the returning King, Jesus Christ.

ANCIENT SHEKEL

Of Israel circa 70 AD

'Jerusalem the Holy' Aramaic

MODERN SHEKEL

Present currently with restored Hebrew National Language

CENTRAL BLOOD MOONS

7 Year Interval of the Bull's Eye Eclipses
Is this a Time-Marker heralding how long the duration of the TRIBULATION is to be and perhaps when it is to come?

SOME OBSERVATIONS

- Both "Bull's Eye" Blood Moons will be in line the city of Jerusalem and in-between the 2 horns of the constellation Taurus-7 years apart.
- The Sun is in the Sign of Taurus during the season of Pentecost -as it was in Mt. Sinai and 50 days after the Resurrection of Jesus Christ.
- There is a strong connection between the 2 Blood Moons of 2011 & 2018 with Pentecost Feast Harvest of wheat that occurs every Spring.
- The Central Blood Moons of 2011 & 2018 make 2015 the possible start of the 7-Year period; 2015 is when the 2nd half of Tetrad occurs

A 7-Year Pattern

The timeline-chart above illustrates the Bull's Eye Blood Moon 7-Year interval and its possible significance. The start of the 7-year interval begins on the Jewish feast of Pentecost, in June of 2011. Both Central Blood Moons of 2011 and 2018 occur on a Pentecost. This season could thus be a pivotal point of reference in considering its possible prophetic significance in the timing and meaning as it relates to a the possible conclusion of the Church Age. Perhaps leading up to 2018, the Rapture and the 7-Year Tribulation would have commenced at some point in time. The 2nd timeline illustrates the 7-year Interval of the 2 Bull's Eye Blood Moons that rarely occur, much less being exactly 7-year apart and in the same Constellation and in line with the same city, Jerusalem.
