Phil Bowmile  
ENERFREEZE CANADA INC.

Dear Phil,

The test of your EnerFreeze/Cold Plus Refrigeration Treatment Optimizer on a Glycol Chiller was a success. Measurements before and after the addition of the treatment confirmed that a power reduction of 10.84% was achieved.

We appreciate working on this Sustainability project with you as it will help reduce operating cost for our business.

Kind Regards,

A handwritten signature in blue ink, appearing to read 'Ken George', written over a horizontal line.
