The Standard

For our “work horse” bag we use a high-tech nylon fabric that is tougher, lasts longer, stands up to UV rays, and dries out faster than its competition. The bag still has a handle over the top for easy and accurate bucket throwing and reverse taper for easy loading.

The Pro

Our Pro bag was designed with advice from rescuers as to what would make the perfect bag. We added a padded side pocket to store a carabiner in and reflective tape. One Omega locking “D” carabiner is included with each bag.

Rope Type	3/8" Polypropylene 1900 lb/8.4kN		 3/8" UltraLine™ * 5261 lbs/23.4kN	 3/8" Max Grip *† 3282 lbs/14.6kN

RQ3 Second Chance Throwbag

We’ve added the “second chance ball” to our Standard 75’ Maxgrip Throwbag. This ball acts as a stopper when a rescuer on the bank comes to the end of the rope while the victim in the water is holding onto the throwbag. On the second throw, hold the bag and throw the ball. Your throw will be farther and more accurate than throwing an empty bag!

Item #BG3144	75’ of 3/8” Max-Grip rope	\$62.95
Item #MS1900	Second chance ball only	\$ 5.90

RQ3 Personal (Mini) Throwbag

This mini throwbag is great for clipping onto your PFD so you will have it when you need it. It is 7 1/2” x 4 1/2”, the perfect sized personal throwbag with 50’ of your choice of rope!

Item #BG3116	1/4” Polypropylene	1200 lbs (5.4kN)	\$25.00
Item #BG3141	1/4” Ultraline	2495 lbs (11.1kN)	\$49.95

NRS Pro Guardian Wedge Waist Bag

The Pro Guardian Wedge Waist Throw Bags are worn on the waist and is always there when you need it. Throw rope is secured in a Wedge Throw bag that pulls completely free from the waist line. The Wedge bag is quickly accessed by peeling back the outer bag’s hook and loop flap. The adjustable waist belt has a quick release buckle for safety.

Item #BG3164	1/4” Polypropylene	950lbs (4.2kN)	\$74.95
Item #BG3165	1/4” Dyneema®	2495lbs (11.1kN)	\$98.00

Item #KT4100 \$250.00

PFD Packages

When an agency or rescuer buys a personal flotation device, they often assume they're done and can move to the next item. Wrong! A PFD, whether Type III or Type V, not only provides flotation but also supports two of the most important tools at the rescuer's disposal – a deafening whistle to be heard over the water and a sharp knife to cut free any possibly lethal entanglements. Since the three are a package deal in the field, Rescue Source has made them a package deal in the store! Choose between the Universal Rescuer Type V, with its contact rescue ready Swiftwater belt or the Universal U22 Type III, with its wide size range. Once you have chosen your PFD we throw in a Fox 40 pealess whistle and a McNett Saturna rescue knife.

PFD Type V Package

Includes:

1 Universal Rescuer PFD	pg 5
1 McNett Knife	pg 17
1 Fox 40 Whistle	pg 4

Item #KT2210 \$229.00

- 1 McNett Knife pg 17
- 1 RQ3 Storm Helmet pg 18

Item #KT1715	Wetsuit Package	\$629.95
Item #KT1720	Drysuit Package	\$839.95

Water Rescue Footwear Package

Footwear has long been a problem for teams that can't afford to issue water rescue PPE to each individual. This package solves the problem for a crew by providing a range of sizes in a convenient storage bag. This kit also includes product and instructions for maintenance or cleaning after each use. Customize your order to meet your specific size needs.

Package includes:

- 6 Pair All-Terrain Booties pg 11
- 1 RQ3 Mesh Duffel pg 43
- 1 Wetsuit & Drysuit Shampoo pg 10

Item #KT3900	\$437.95
--------------	----------

Team PPE Package

Seeing to it that all rescuers and victims in the warm zone have appropriate PPE is essential and can be the deciding factor between a successful rescue and possible disaster. This kit provides the basic items needed for three responders in a convenient storage bag. This kit can also be used as basic victim PPE.

Package includes:

- 3 U22 Agency Pro PFD pg 6
- 3 RQ3 Storm Helmets pg 18
- 1 RQ3 Heavy Duty Duffel pg 43

Item #KT5000	\$620.00

Personal Flotation Devices

Mustang Universal Swift Water Rescue Vest

The Universal Swift Water Rescue Vest by Mustang is a high buoyancy USCG approved Type V PFD. With an easy to adjust donning system and layered flotation foam, this vest provides a comfortable and secure fit, which improves operational performance both in and out of the water. Two large self draining pockets provide ample storage options and MOLLE webbing on both shoulders and back provide easy attachment points for accessories Color: Black Type:USCG V Design Flotation: 25lbs Fits chest size 30"-52"

Item #PF1800 \$179.95

Force 6 RescueTec PFD

The RescueTec PFD was designed with rescuers in mind. It is UL listed and a US Coast Guard approved Type 5 professional life jacket. The Rescue Tec PFD is loaded with features, including a molded extrication handle, dual 1½ in quick release belts for throwbag attachment and a removable front pocket. Color: Red Type: USCG V Design flotation 26lbs Chest Size: S/M 28"-44" L/XL 38"-56"

Item # PF7900 \$364.95

Force 6 Swiftwater Rescuer PFD

The Force 6 PFD is a high buoyancy vest for rescue professionals involved in boat and shore operations. Designed to meet the needs of rescuers that face the challenges of moving water, these vests are made of rugged, high visibility rip stop nylon and contain extra flotation to combat the reduced buoyancy effects of turbulent water. Design flotation: M/L 26 lbs (11kg); XL 30 lbs (13 kg) Color: Red. Sizes: M/L: 32"-52"; XL: 44"-62"

Features Include:

- Radio holder that adjusts to many different sizes
- Fast Tabs on both shoulders plus gear loops
- Inside quick drainage mesh
- Two quick-drain front pockets for storing extra gear
- Multiple adjustment points provide a secure fit that prevent ride up
- Three-part waistbelt for fit

Item #PF7800 \$247.95

Item #PF7645 Cowtail \$ 67.95

Fox 40 Eclipse Whistle

The original Fox 40 Classic has been re-engineered for maximum performance and style, resulting in the Fox 40 Classic Eclipse. The Fox 40 Classic Eclipse offers the authentic Classic sound in a sleek new design and integrated co-molded cushioned cup mouth grip. This whistle has no "pea" to swell or stick. Plastic construction will not rust or fail. Comes with or without the flex coil.

Item #WH7905 w/o Flex Coil \$5.95

Item #WH7945 w/Flex Coil \$6.95

Swiftwater Short or Long Tow

- Short: 33" extended
- Long: 53" extended

Item #PF7630 \$26.95

Item #PF7631 \$26.95

Universal Rescuer

Designed to be the best universally sized lifevest for professionals, law enforcement, rescue crews, professional guides, and instructors. The Universal Rescuer accommodates a wide range of sizes. Also features the patented, U.S. Coast Guard approved / UL listed Rescuers' Belt, for in-water rescues, and reflective tape front and back for high visibility. Color: Yellow or Red Type: III/V Design Flotation: 22 lbs. Fits chest size 30"-56"

Item #PF2210 \$225.00

NRS Rapid Rescuer PFD

With all the features you will ever need in a rescue vest the NRS Rapid Rescuer can handle any situation. With box-stitched stress points and a 500-denier Cordura® shell this PFD holds up even in big water. Its Universal sizing with 8 adjustment points helps to ensure a secure, comfortable fit and the two huge front pockets stretch to hold anything from a GPS to a VHF. Three lash tabs on the front are great for knives, whistles or whatever else you need to keep handy! Colors: Red or Yellow Type: III/V Design Flotation: 22 lbs. Fits chest size 30"-58"

Item #PF4025 \$197.95

NRS Astral Greenjacket PFD

The Astral Greenjacket rescue PFD combines full rescue capabilities with the comfort, protection and style of today's best low-profile life jackets. This jacket features a freefloating front panel, extra protection along the sides, fleece-lined hand warmer pockets, a large zippered clamshell front pocket with five compartments, two zippered side cargo pockets, and a storage space behind the front panel for a small throwbag. There are also eight adjustment points for a custom fit. Color: Blue/Black or Green/Black Size: S/M 31"-37" M/L 38"-44" L/XL 45"-51"

Item #PF1300 \$213.95

NRS Zen PFD

The NRS Zen Rescue PFD is a great choice for anyone who wants a great fitting, comfortable PFD with a swiftwater rescue quick-release belt. It features a low profile design, padded impact protection along the arm holes and sides, and convenient side entry for easy donning. The Zen also features a floating front panel for a better fit, a lined place to warm your hands, a large front pocket, a large pouch behind the hand warmers, and multiple other attachment points. Color: Red, Yellow or Black Size: S/M 31"-37" L/XL 38"-44" XXL 45"-51"

Item #PF1900 \$161.95

Personal Flotation Devices

U22 Agency Pro

A truly universal sized, full featured, high flotation lifevest, designed to comfortably fit chest sizes from 30" to 56". The large divided side pockets, external D-rings and lash tabs provide plenty of room for accessories and essential gear. The 3-buckle closure system, generous reflective tape and 8 adjustment points come together to create a comfortable and customized fit; an excellent high flotation option for the professional. Type: USCG III Design flotation: 22 lbs. Color: Yellow or Red Sizes: Universal (30"-56")

Item #PF2200 \$169.95

Mustang Classic Flotation Bomber

The Mustang Classic Flotation Bomber offers comfort and safety in one garment. The jacket's closed-cell foam insulation provides thermal protection and buoyancy in case of accidental immersion. Reflective tape on the chest and cuffs for visibility. The Classic Bomber has a relaxed fit, a full length storm flap to protect the zipper from the elements and fleece lined front pockets.

Sizes: S-XXL Approval: USCG Type III
Colors: Orange, Navy, Olive, Orange/Black

Item #MS6200 \$247.75

Mustang Deluxe Manual Inflatable PFD

The Mustang Deluxe Manual Inflatable PFD combines the advanced safety of inflatable technology with product enhancements, comfort-improvement features and a safety inspection window that easily shows if the inflator is ready for use. Made of 500D Cordura® for improved durability. New zippered pocket for your phone, keys or license. Bright yellow inflation cell with SOLAS reflective tape, safety whistle, and strobe light attachment. Colors: Orange, Red, Royal

Item #PF1610 \$139.95

Mustang Law Enforcement Automatic Inflatable PFD

The Mustang Law Enforcement PFD employs the Hydrostatic Inflation Technology system (HIT) which uses a firing pin in the jacket which in turn discharges the replaceable CO2 jet, inflating the jacket. The back flap can be silk screened free of charge with common agency verbiage like "Rescue", "Fire", "Sheriff", and the like. Custom department names: a one time only set-up fee may be assessed for agencies that do not have a template already on file with Mustang. Size: Universal Adult 30"-52" Chest Colors: Orange, Navy, Olive, Black

Item #PF1620 \$275.95

RQ3 Max-Wear Kevlar Gloves

Kevlar is one of the most durable and tough fabrics made today. We worked directly with the manufacturer on the design and specifications to produce a glove for the rigors of water and rope work. The wear/abrasion resistant Kevlar covers the palms as well as extends up the fingers for a superior grip even when wet. The back has a molded knuckle protector and the whole glove is sewn with 100% Kevlar thread for long life.

- Designed for water and rope work
- Kevlar palms and fingers
- Molded knuckle protection
- Velcro wrist closure for secure fit
- Puncture and cut resistant

One tough glove for the price! Color: Black Sizes: M-XXL

Item #GL8910 \$34.50

Ringer Rope Rescue Gloves

The Rope Glove by Ringers is one of the most technically advanced rappelling gloves available. Developed with local and governmental agencies to meet the requirements of today's rescue and tactical needs. With its shape, fit and design this glove gives you incredible dexterity and sense of touch. It can be used for any kind of rope handling work.

Color: Black
Sizes: M - XXL

Item #GL8116 \$39.99

PMI Rope Tech Gloves

If you are looking for the perfect rappelling or rope handling glove, we recommend the PMI Rope Tech glove. These gloves offer incredible dexterity when tending a system or tying knots. They contain 2 layers of goat skin and 1 layer of synthetic leather palm with spandex and air mesh for breathability.

Sizes: M-XXL

Item #GL8850 \$32.95

Rugged Wear Water Gloves

Made with 2mm neoprene, these gloves offer a good combination of dexterity and protection. The palm and fingers are made of flexible synthetic leather with super tough Amara on key wear areas to keep your hands shielded and warm in the water.

Color: Black Sizes: S-XXL

Item #GL8400 \$39.00

NRS Reactor Gloves

Understanding that swiftwater rescue environments are demanding and can be extremely cold, this glove was designed for warmth while not compromising dexterity and durability. The gloves feature 3.5 mm neoprene with titanium laminate adhesive for added warmth. The palm and fingers are made of rubberized armored synthetic leather palm with pre-curved fingers and Power-span 4 way stretch for mobility. Also equipped with extra features such as fleece on the inner side of your hand, wristband with hook & loop closure, and Grip cote on the backs of the fingers. This is the rescue glove you'll want to have.

Color: Yellow/Black Sizes: M-XXL

Item #GL8125 \$45.00

Mustang Water Rescue Drysuit

The Mustang Water Rescue Drysuit is a constant wear “cache” dry suit. This suit is ideal for cache equipment protocols and is based on the functionality of the legendary Swift Water Rescue Dry Suit. Mustang has updated the design and added several new features to improve the mobility and function specific to water rescue professionals. Mustang Item #MSD576

Features include:

- GORE-TEX waterproof and breathable drysuit fabric
- Rapid Repair Technology enables users to self-replace neck and wrist seals and repair small leaks in an hour or less
- Relief Zipper
- Neoprene knee and elbow pads
- Neoprene adjustable neck seal

Sizes: M-XXL

Item #DS8070 \$1,121.00

Mustang Sentinel Series Water Rescue Drysuit

The Mustang Sentinel Series Water Rescue Drysuit is a waterproof breathable constant wear water rescue drysuit specifically designed for flood, swiftwater and ice rescue situations. By reducing bulk and increasing range of motion, the Sentinel Water Rescue Drysuit meets the most demanding water rescue environments. Mustang Item # MSD624

Features include:

- Mobility Based Sizing offers semi-custom sizing without the custom price tag
- Rapid Repair technology enables users to self-replace neck and wrist seals and repair small leaks in an hour or less
- Neoprene adjustable neck seal
- Reinforced ankle overcuffs with side zipper for donning over boots and Velcro closures for adjustability.
- Two-point attachment removable suspenders
- GORE-TEX waterproof and breathable drysuit fabric
- Reinforced wrist overcuffs with Velcro closures for adjustability
- SOLAS retro-reflective tape on the arms for increased visibility
- Reinforced molded foam elbow and knee pads
- 1050 Denier ballistic nylon wear protection
- Integrated universal size GORE-TEX dry socks
- 2 thigh cargo pockets & shoulder pocket with pen holder
- Adjustable tailbone protector & Nylon reinforced seat
- Adjustable waist band
- T-zip entry zipper and relief zipper
- Neck seal protective collar

Sizes: M-XXL, Short, Long, Regular

Item #DS8026 \$1,408.95

OS Systems Economy Drysuit

The OS Systems Economy Drysuit is both waterproof and breathable. Made from a three ply laminate which has a micro denier nylon polyester exterior fabric, a waterproof breathable barrier membrane and a tricot fabric inside layer. This suit is designed with Freedom Cut features for complete and unrestricted freedom of movement.

Features include:

- Adjustable cord waist
- 500 denier Cordura Butt Pad (on back) and Knee Pads
- Seams are double stitched for strength and fusion sealed on the inside for water tightness
- Front diagonal entry, dive quality, brass tooth zipper for easy and fast donning and doffing and guaranteed watertightness
- Reflective tape strip just above the wrist seals
- Longlife Latex commercial grade rubber neck, wrist, and sock seals are thicker and more durable
- Internal suspenders and attached drysuit socks

Color: Orange/Black

Sizes: M-XXL

Item #DS1340 \$530.00

OS Systems Basic Drysuit

The OS System Basic Non-breathable drysuit is an economical choice for fire departments, SAR teams and individuals who will only need to use a drysuit occasionally. Made of 200 denier nylon and urethane material with 500 denier cordura on the knees, shins and seat. This rear entry drysuit has neck, wrist and booties made of latex and it comes in orange/black. If you are concerned about cost-effectiveness and quality, this suit gives you both! Sizes: M-XXL

Color: Orange/Black

Item #DS1380 \$325.00

NRS Extreme Drysuit

This is a drysuit that works as hard as you do. Reflective material on the arms helps with visibility in low light. This drysuit is the whole package. Features include:

- 400-denier 3-layer TriTon™ waterproof & breathable fabric
- Cordura® exterior material reinforces seat, elbows and knees for protection in high-wear areas
- Attached latex socks provide an extremely dry suit.
- Internal suspenders
- Self-draining thigh pocket and a splash proof arm pocket
- Heavy-duty YKK waterproof entry zipper seals out water

Size: M/L, XL/XXL, Grizzly
Color: Red or Yellow

Item #DS1600 \$759.95

Kokatat GORE-TEX Drysuit

Kokatat's GORE-TEX drysuit has long been the choice for many water rescue instructors. Its supple, high count nylon, 3-layer GORE-TEX IMMERSION Technology fabric is completely waterproof, breathable and durable. This tightly woven fabric is tough as nails, yet comfortable. It comes with GORE-TEX socks and a relief zipper (not shown).

Features include:

- Latex gaskets with protective neoprene collar and cuffs
- GORE-TEX socks
- Wide cut underarm allows freedom of movement
- Metal tooth, waterproof Optiseal zippers
- 500D GORE-TEX Cordura seat and knee patches protect high wear areas (self-draining)
- Protective collar and cuffs
- Relief Zipper

Color: Yellow/Black

Sizes: S-XXL (for XXL add \$80)

Item #DS1250 \$915.00

NRS Rescue Suit

A full-coverage wetsuit designed specifically for rescue crews.

Features include:

- 3 mm PowerSpan™ panels for mobility
- Reflective lettering and bright yellow panels for increased visibility
- Friction zones prevent PFDs from sliding up
- GlideSkin™ bands around the wrists allow tighter seals between the suit and gloves
- Extra long, double-pull YKK zipper
- 5 mm seat covered with ToughTex™ for increased durability and padding
- Knees and shins are armored with molded polyurethane
- YKK zippers to close gusseted wrists and ankles

Color: Yellow/Black

Sizes: S - XXL

Grizzly Sizes: L - XXL

NRS WaveLite Liner

The NRS Extreme Liner is made of Polartec® Power Stretch® fleece, the industry leader in providing outstanding warmth, wicking, and comfort. This 4-way stretch fabric follows your movements without restricting mobility, then springs back to hold its original shape. The form-fitting design allows layering without the added bulk of other mid-weight thermals. "Touch points" on the fabric inner surface draw off sweat. Moisture is then quickly wicked to the outer surface where it spreads and evaporates rapidly, keeping you warm and comfortable. Double-stitched seams will withstand years of use and abuse. Double-pull zipper for easy entry and convenient relief. Sizes: M-XXL

Item #DS1650 \$127.95

Item #WS2950 S-XXL \$272.00

Item #WS2950 Grizzly L or XXL \$282.00

Fins & Wetsuit/Drysuit Care

Shredder SAR Fins

The Shredder SAR Fins are what you have been looking for! They are designed to fit all large water boots, with an adjustable buckle giving a customized fit for maximum comfort. The ultra light blade provides optimized power with up to 50% less weight and bulk than traditional fins. Overall Length: 16.5" Blade Width: 10"

The Shredder fins also feature:

- Padded, quick release leash system secures fins on feet
- Large, soft foot pocket & heel pad provide excellent comfort & fit

Color: Yellow Size: One Size Fits All

Item #FN3000 \$72.50

Replacement Strap

Item #FN3000P \$9.95

Baker Hanger

Tired of your drysuit or wetsuit taking days to dry? Try this hanger! Save your investment with this unique drying/storage hanger. The large shell style molded shoulders allow air to circulate better—a must for multiple days on the river.

Holds up to 100 lbs.

Color: Black

Item #DS2300 \$24.95

Neck Ring

Not all the time on a rescue is spent in the water, and a tight neck seal on your drysuit can become uncomfortable. Snap the Neck Ring around your neck and roll the neck seal over it. This increases comfort and also helps vent excess heat from inside your drysuit.

Color: Clear

Item #DS4200 \$13.00

Churchill Swimfins

These heavy duty fins are ideal for walking around the bank but designed for extra power in the water when needed. The standard for water rescue. The X-Large size can be worn with most booties.

Color: Assorted

Sizes: L and XL

Item #FN2800 \$49.99

Velocity Wetshoe

The NRS Velocity wetshoe features a rugged DWR-coated ballistic nylon canvas upper, a super sticky, siped rubber outsole provides excellent wet and dry traction, and abrasion-resistant rubber overlays on toe, heel and sidewalls for long-term durability. The gusseted neoprene tongue keeps debris out, and neoprene padding cushions the ankle. There are also drainage ports in the sidewall to swiftly drain water away and high-strength tubular laces. Colors: Black or Grey/Red Whole & Half Sizes 8-13 (no 12.5)

Item #BO7000 \$98.95

Water/Work Boot

Great protection for your feet, in and out of the water! Our most popular boots by far, they are used by our instructors, fire departments, SAR teams and river professionals. An injection molded sole, with exclusive “rock guard” protection, provides high-tech traction and unbeatable safety from sharp objects and other dangers. Lace-up and Velcro closure ensures a secure fit. Color: Black Whole Sizes: 6-15

Item #BO9800 \$73.95

All-Terrain Booties

The All-Terrain Bootie combines the comfort of a sneaker with the warmth of a wetshoe. The “tennis shoe sole” is textured at the heel and toe for sure footing on long treks. The YKK zippers allow for simple entry and exit while the reinforced toe and heel eliminate the chances of a blowout. 7mm DuPont neoprene cushion insoles and 5mm uppers have glued and stitched seams and will keep your feet warm and protected. Whole Sizes: 7-14.

Item #BO8800 \$62.95

Comm-3 Wetshoe

The Comm-3 is a simple, sturdy, zippered wetshoe with a flexible rubber sole that offers high-traction support and protection from rocks and other sharp objects. The 3mm neoprene upper and 5mm neoprene insole makes this wetshoe warm and comfortable, and the gusseted YKK™ zipper makes them easy to get on and off. No guess work is necessary when you go to grab the correct wetshoe, the neoprene panel on the back is color-coded for size. Color: Black Whole Sizes: 6-14

Item #BO8700 \$39.95

The Ice Rescue Suit™

This one-piece suit of 100% closed cell neoprene provides optimum buoyancy and insulation. Designed for rescue operations in extremely cold water and ice conditions. It features a face seal and flap, attached gloves, waterproof zipper and sealed seams.

Size: Universal

Color: International Orange

Other Features Include:

- Off-set zipper for better face seal
- Wrist pocket to hold ice picks
- Reinforced knees and elbows for long lasting durability
- Integral chest harness with stainless steel D-rings, front and back
- SOLAS grade reflective panels front and back for high visibility
- Individual bag for storage
- Thick soled boot with tread

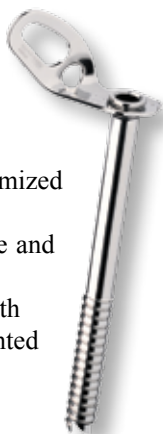

Item #WS1595 \$514.00

Petzl Laser Speed Ice Screw

This ice screw starts easily due to the optimized drill shape. Strength and durability are improved due to the steel tube and specific threading. The integrated flexible crank gives an optimized lever, making it easier and faster to screw in.

- Anchoring into the ice facilitated by the optimized shape of the steel drill
- Stronger and more durable due to the steel tube and its specific threading
- Steel treated to reduce weight & increase strength
- Easier sharpening with the drill's patented sharpening reserve

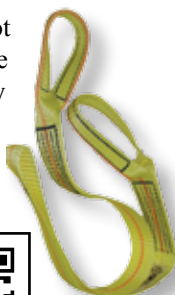

Size: 21 cm (8.3")

Item #IR1565 \$59.95

Rescue Cearley Rescue Strap™

Rick Cearley is a retired senior helicopter pilot from Los Angeles County Fire Dept and the inventor of the LSP Cinch Rescue Collar. Cearley saw the need for a product to rapidly secure a victim under difficult conditions, such as swimming or ice rescues. Hand loops are sewn stiff to maintain their shape in cold conditions. Minimum strength: 8,000 lbf. (35kN). Weight: 6 oz. Length: 5ft (1.5m)

Item #AN2200 \$47.00

First Watch Ice Rescue Suit

Rescue professionals need gear that allows them to respond safely and quickly to emergency situations. The RS-1000 Rescue Suit has been engineered to don quickly for cold water and ice rescue operations. This universal fit suit features a rugged hi-tenacity nylon shell that is stitched and taped for the ultimate in durability. A snap out, internal (laminated nylon/foam) liner allows the user to easily slip the suit on and off. It has been designed as a system to meet the safety, mobility and comfort needs of the rescue professional.

Color: Hi-Vis Yellow

SIZES: Universal Fit

(Built to fit 5'0" – 6'4")

Item #WS1800 \$749.95

Pick of Life Ice Awls by Hammes

The Pick of Life is a lifesaving device for ice self-rescue or for ice rescuers. The ice awls are made with two 4" plastic cylinders, connected by a cord that easily fits into a pocket. Each cylinder contains a sturdy steel pick that is protected by a retractable, spring loaded guard. A great little tool for ice rescue personnel to carry for aiding in rescues or to rescue themselves should it become necessary. Weight: 8 oz.

Color: Orange

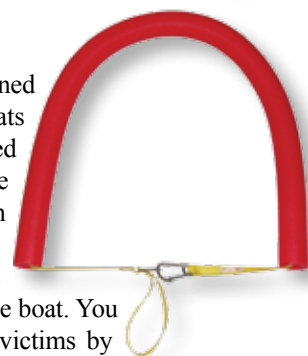

- Self-rescue aid
- Lightweight and compact
- Bright Orange for high visibility

Item #IR1600 \$11.45

Reach N Sling

This four-in-one rescue tool was designed for ice and aquatic rescues. The sling floats and can reach up to 6 feet when extended out straight. You can clip the hook to the ring and it's a high float sling a victim can pull over their head, or slip the tube behind the victim and under their arms then use the web loop to lift them into the boat. You are also able to secure the smallest of victims by slipping the hook through the loop and tightening down. When each end is connected to a line it is an effective floating boom to stretch across a river, canal or pond and can be then maneuvered from the banks.

Item #RG1600 \$75.00

RQ3 Mark V Hose Inflation System

The Mark V Hose Inflation System is the standard with many swiftwater and ice rescue teams. The kit contains both a cap and plug end, which are made of aluminum and powder coated for durability. These fit Standard 2-1/2 inch NST hoses. The kit also contains a pre-set safety relief valve on the cap, universal quick connecting system, and a fill hose with SCBA high pressure valve and wheel. This makes filling from your SCBA tank easy and safe. There are tie downs on both the male and female caps for securing safety lines. Custom storage and carrying case included.

Kit includes:

- 2½" female aluminum hose cap with tie down for securing safety lines
- 2½" male aluminum hose cap with standard quick disconnect to attach filler hose. There is also a tie down on this end for securing a safety line
- Pressure relief valve set at 35-40lbs. for safety
- Shield to protect fittings
- SCBA high pressure valve and wheel with hose so you can fill from your own high pressure SCBA bottles
- Powder coated for durability
- Custom storage and carrying case

Item #FMS7100 \$399.00

ResQmax™ Line Deployment System

Everything you need to launch a 3mm messenger line up to 350ft. (107m). The 500 ft. (152m) Dacron line has a tensile strength of 500lbs. Once you have the messenger line across, use it to pull across the rescue rope.

Kit includes:

- ResQmax Launcher with folding stock
- Streamline line projectile with 2 spare molded PVC projectile protectors
- 500 ft Dacron messenger line with compact line container
- Corrosion Block Lubricant/Rust Inhibitor, 4 oz.
- Streamline filler hose assembly for SCBA
- Cordura kit carry bag, Red/Black
- Spares kit, operations manual and training CD

Item #RM1010 \$2,030.00

ResQmax™ Swiftwater Rescue Kit

The Sling Projectile inflates on contact with the water to become a flotation collar for the subject or at minimum, an easy to hold floating ring. The 300 ft. (92 m), 8 mm Polyspectra line floats and has a tensile strength of 2,200 lbs. Average launch distance with the sling projectile is 200 ft. (61 m).

Kit includes:

- ResQmax Launcher with folding stock
- Streamline Sling projectile with 2 spare molded sling burst capsules
- 300 ft. 8mm PolySpectra Line with large line container
- Corrosion block lubricant/rust inhibitor, 4 oz.
- Streamline filler hose assembly for SCBA or SCUBA
- Cordura kit carry bag, Red/Black
- Streamline nozzle protectors, pack of 5
- Spares kit, operations manual and training CD

Item #RM1020 \$2,550.00

See Line Gun Accessories

OTTER™ Raft Kit

Sized right for extended rescues with lots of gear for up to eight people. The 6' 8" width and 20" tubes provide high carrying capacity and a stable big water platform. The Otter comes equipped with 6 D-rings and tough Leaffield™ valves. Wear patches protect the tubes from frame wear and other abrasions. All Otters have two thwarts. Color: Blue. Weight: 115 lbs. Size: 14' L x 6' 6" W; 20" tube.

Kit Includes:

- 1 14' self bailing raft
- 7 Carlisle STM paddles, 60"
- 1 4" Wonder pump, 19"
- 1 NRS Blast Pump
- 1 Raft repair kit
- Six stainless 2" D-rings

Features:

- 1100 denier, 30 oz. Hypalon®/polyester fabric
- Removable BAT (Batten Attachment Thwarts)
- 4 EasyCarry™ handles
- Leaffield valves
- Five year limited warranty (3 year commercial)

Item #RB4000 \$3,699.00

Carlisle Guide Paddle

You can rely on this paddle's strength even in the most demanding whitewater. The Guide has a large (8" x 27") reinforced polyethylene blade, with a rugged 1-1/4" diameter shaft and T-grip. Weight: 48 oz. Size: 66" Color: Blue/Yellow

Item #RB2120 \$72.95

Carlisle Standard Paddle

The 1-1/8" aluminum shaft extends well into the blade for added strength and is covered with polyethylene to provide a warm, secure grip. The 8" x 20" molded blade uses super-strong polypropylene for a powerful yet lightweight paddle. Size: 60" Color: Blue/Yellow

Item #RB2105 \$29.95

Folding Boat Anchor Kit

This complete boat anchor system starts with a 3½ lb. (4 flukes) folding anchor that will hold in mud, sand, gravel and rock. Designed for all sorts of watercraft from PWC's to inflatables. Included in the kit are 25' of marine grade rope with an inline buoy and a durable padded nylon storage case.

The rope is spliced to the anchor on one end and a heavy duty stainless steel snap hook on the other. In addition, the anchor is coated to protect boat finishes. Kit weight: 5.3 lbs.

Item #RB2230 \$34.95

NRS Barrel Pump

The NRS Barrel pump is built to withstand heavy use, big water, and a rough life. The pump is combined with a wide base for sure footing while inflating a raft. The rugged one-way check valve lets this pump work with all types of raft tube valves. Its 6.5 foot flexible hose tucks into the webbing carry handle for storing on your raft. The half inch diameter pump stands 2.5 feet high and has a stroke volume of 1.8 gal/6.7L per stroke.

Item #RB3800 \$208.95

River X Pro Model Sled

The River X Pro Model Sled is designed to be used with PWCs where a single rescue operator is available or when a rescue swimmer is used to assist the victim. Made from molded linear low density polyethylene the shell has high U.V. resistance. The tapered tail makes it easier to place unconscious, handicapped, or incapacitated victims onto the deck of the sled. The eight handgrips are made from 5000lbs. test nylon webbing, overmolded with proprietary, flexible elastomers, very durable and resistant to the elements. Handgrips are anchored to the sled hull using 7000lbs. test brass mold-in inserts and stainless fasteners that will not rust. Fasteners are secured from backing out using Lok-tite. You will not find a more comfortable secure-feeling handgrip on any other sled!

Length: 63" by 37", 3.85" thick.

Item #BD1650 \$1,650.00*

River X Rescue Board

The River X Rescue Board is an advancement in technology, function and durability over existing river rescue boards. The highly durable, molded, monolithic polyethylene shell (a hollow core with a vent/drain plug that is made of the same materials as kayaks) offers a seamless board that will retain its shape after use. The concave deck with elbow wells offers stability and leverage so you feel like you are riding "in it" rather than "on it." Adequate rocker and channels on the bottom surface work like little surfboard fins, allowing the rider to have more control. They allow you to carve directional turns in order to go where you want. There are multiple holes in the hull (nose and tail) for rope attachments and the deck is padded with 3/8" thick PVC, which is very comfortable and has good traction. Multiple handgrips outline the board perimeter and the webbing and threaded attachment points are rated at 5000 lbs. for pullout strength. This is an ideal board for swiftwater and ice rescue (optional ice rails available for boards that are 2010 and newer). 120 lbs. flotation. Color: Yellow/Black Weight: 18 lbs. Dimensions: 55" x 24" x 6" NOTE: This board is not designed to be attached to a PWC!

Item #BD1675	River X Board	\$795.00*
Item #BD1700	Ice Rails	\$ 99.00

Carlson River Rescue Board

The American made Carlson board is constructed of Expanded Polyethylene Beads, so unlike smaller boards with flotation issues these allow 165 lbs of flotation and are extremely tough and nonabsorbent. The new and improved core allows for greater flexibility with less absorption of water. The evolved shape has stayed the same with improved features including four handles for two riders, better brushed belly grooves to grip your body and a new finish on the rails so it glides effortlessly through water. Color: Black/Green Weight: 10 lbs. Dimensions: 56" x 24" x 4"

Item #BD1655 \$389.00*

***The use of these boards in rescue situations and recreational uses requires training. An additional oversize charge for shipping will be applied.**

Rescue Ring Buoy

This buoy meets the Coast Guard requirements for a throwable floating device. Constructed with a rugged closed cell foam core and a tough, yet soft molded PVC outer shell that is vinyl coated for easy cleaning. Strong, braided polypropylene grab lines are molded into the core for strength and security. Will not sink, even if punctured or cut. Rot and mildew resistant. USCG Type IV. Color: Orange Size: 24 inches (additional \$18 oversized shipping charge)

Item #RG8800 \$74.95

Rescue Tube

The Rescue Tube is an extremely versatile water rescue tool. Use in surf, rivers, open water, demanding rescues and pools. It has rounded edges for both the victim and rescuer, and is constructed of ensolite foam with a heavy-duty vinyl covering. A shoulder strap, nylon webbing tow strap, and brass snaps and fittings also help to make this a quality choice for your rescue cache. Weight: 3 lbs. Size: 40" x 5.5" x 3"

Item #RC3500 \$63.95

Rescue Can

The 28" rescue patrol can is made of the strongest cross-linked polyethylene with molded, pebble-grained hand grips to reduce slippage. Its walls are thick for strength and the seamless construction of the rescue can adds to its long life. In addition, it comes with line and shoulder straps. This is a useful water rescue tool that has thirty years of proven world-wide use! Weight: 3.5 lbs. Size: 28"

Item #RC0105 \$79.95

Float Marker System

The Pelican Float Marker Recovery System is an integral marker float with a 100' tether line (225 lb. test line) and quick release anchor. Neutrally buoyant until deployed, it can be used from the surface or underwater. This patented, injection molded buoy is virtually indestructible and color fast, with Day-Glo red rings and bright yellow body for high visibility. It also rides high in the water and is easily seen in all weather and light conditions. This float is essential for dive rescue teams, boat patrols and river rescue teams. Weight: 1.2 lbs.

Item #MS3450 \$49.90

Cinch Rescue Collar

The Cinch Rescue Collar is a multi-use, floating rescue device offering security, simplicity, and versatility. The Cinch Collar was designed for swiftwater, flat water, high rise, cliff, and confined area rescues from land, helicopter, or water craft platforms. The Cinch Rescue Collar allows the victim to enter the collar from either side of the loop. Once the victim has entered the collar, the rescuer exerts tension to the rope, automatically "cinching" the collar snugly, without squeezing the victim's chest, for a safe, secure extrication. Carrying/storage case included. Weight 3.5 lbs.

Item #RG1800 \$315.00

CMC SRT Accessory Belt

Fins and other gear are difficult to carry on land. The SRT Accessory Belt holds a fin on each hip with loops for other equipment too. The belt is equipped with quick release buckles to allow you to discard the belt before entering the water. (SRT Belt only no accessories.)

Color: Black
One Size Fits Most

Warning! If worn in the water it poses a possible snag hazard.

Item #MS4700 \$47.00

McNett Saturna Outdoor Knife

This is a high quality knife essential for water use. Its varied uses include water rescue, rafting, kayaking and more. Made with corrosion resistant stainless steel, it has a 3" blunt utility tip blade and a form fitting, slip resistant handle.

It also comes with a hard sheath and can be either leg or vest mounted. Colors: Black or Yellow

Item #KN5550 \$25.70

Schrade Water Rat Knife

This knife was designed for the most rugged activities, such as water rescue. Along with the features outlined below, this knife comes with an indestructible molded sheath, with sure locking and push button release. Strap it to your ankle or PFD.

Color: Orange

Overall Length: 7 3/8"

Features Include:

- Sure-Grip Handle
- Blunt Tip
- Sure-lock sheath

Item #KN8020 \$28.79

Gerber River Shorty

The Gerber River Shorty has long been a favorite knife of boaters and rescue professionals everywhere. The sharp blade, blunt safety tip and secure grip handle make it a winner for water rescue. The sharp 420HC stainless steel serrated blade swiftly slices through rope and webbing. The glass-filled nylon handle is not only super lightweight, the raised ridges provide great grip. Grooves on the top of the blade near the handle provide excellent thumb grip. Color: Green

Overall length: 6.75"

Blade length: 3"

Item #KN1510 \$37.95

NRS Pilot Knife

The NRS Pilot Knife has a stainless steel blade with both a smooth and serrated section. In addition the blade has a rope cutting hook and the blunt safety tip can double as a screwdriver. The handle of the knife has a glass breaking tip, an oxygen tank wrench, and a bottle opener. The unique sheath securely locks the knife in place and only releases when you squeeze both sides of the release. The Pilot will also clip securely to a PFD lash tab for easy access.

Colors: Black or Orange

Knife Size: 7 1/4" Blade: 3"

Item #KN2556 \$42.95

Gerber Crucial Multi Tool

The compact, rugged Gerber® Crucial Multi-Tool folds up small enough to fit in a pocket while providing a complete array of full-sized components.

- Tough, dependable stainless steel construction at a feather-light 5 oz. weight.
 - Plier handles are ergonomically curved for a better grip and more torque.
 - The locking blade combines fine and serrated edges for complete versatility.
 - Carabiner clip folds out for easy attachment to a backpack, vest or belt loop.
 - Lifetime Limited Warranty.
- Total length: 5.5"

Item #KN1550G \$43.00

Aqua Lung Deep Sea Squeeze Lock Knife

This rescue knife has a 3" blade and an overall length 6.5". Comes with a blunt tip blade and is made of 304 series stainless steel. The patented locking mechanism securely locks knife in sheath, but releases easily with a squeeze of the handle. Variable mounting options include:

- Stainless Steel nuts & bolts for mounting through fabric.
- Locking belt clip for attaching sheath to webbing.
- Hose mounting straps for mounting to BC inflator hose.
- Molded strap slots in sheath for use with leg straps.

Item #KN6000 \$33.99

RQ3 Storm Pro Helmet

Certified to CE EN 1385 helmet standards

The RQ3 Storm helmet is our top selling helmet for water rescue. The Storm's shell is a strong, but light, ABS plastic with a firm foam lining for comfort and shock absorption. It also features an adjustable ratchet system ensuring perfect comfort and fit every time you put it on. The ear protection feature on the Storm is notable because it still allows you to hear clearly. This affordable, multi-sized helmet is perfect for department and team needs when you have a group with various sizes and a budget to stay within! Colors: Matte Black, Red, White or Yellow
 Sizes: S/M or L/XL

Item #HL7050 \$39.95

Cascade Whitewater Helmets

Swiftwater rescue operations are a matter of life and death. Be assured that your personnel are not out-performing their equipment by gearing up your rescue teams with the Cascade Helmet. The helmets have a multi-impact, top performing, patented liner system, as well as a 4 point chin strap/anchoring system and 13 separate top and side ports for great drainage. Colors: Red, White, or Yellow
 Sizes: S – XXL

**Sticker sold separately*

Item #HL7000 \$49.95 Item #HL7000XXL \$74.95

PT A-BRAVO Helmet

ASTM F1492, CEEN 1385 and NFPA 1951 certified

Designed for the military to be used in water operations, rappelling/ climbing and aircraft training, this helmet is made of non-cracking plastic so it can be drilled for custom applications. Dynamic air porting to keep you cool and so water will drain out easily. The swiftwater liner is non-flammable, anti-bacterial and nontoxic. Comes with a 6 point chin strap with a removable chin cup. Made in the USA.
 Color: Matte Black or Matte Red Sizes: Medium, Large, or XL

Item #HL6050 \$72.95

Picatinny Rail Mounts

Made of lightweight aircraft aluminum and comes with mounting bolts w/locking keps nuts. Works with Petzl Strix Headlamp on pg 23.

Item #MS1025 \$9.95 each rail

Velcro attachment points for patches

Item #MS1030 \$4.00

Petzl Vertex 2 Vent Helmet

The Petzl Vertex 2 Vent Helmet is a comfortable ventilated helmet. With its strong chin strap, this helmet sets the standard in head protection for workers at height and rope access. Ventilation holes with adjustable sliding shutters allow air to circulate in the helmet when needed. Its six point mesh headband ensures comfort, and its Center Fit adjustment system adjusts the headband and keeps it centered on the head. The Vertex 2 Vent is designed to optimally accept hearing protection, a PIXA headlamp, or the VIZIR visor (available by special order). Fits head circumference of 20.9"-24.8" Colors: Red, White or Yellow

Item # HL5130 \$115.00

Petzl Alveo Vent Helmet

The Alveo Vent is a lightweight helmet used for many rescue disciplines. It is comfortable, durable and has ventilation holes that allow air to pass through the helmet. Its CenterFit adjustment system ensures centering and optimal stability of the helmet on the head. The ALVEO VENT is designed to optimally accept hearing protection, a PIXA headlamp, or the VIZIR visor (available by special order). Fits head circumference from 20-25 inches. Weight: 12 ozs. Colors: Red, Yellow, White

Item #HL5140 \$110.00

Super Plasma Helmet

Kask Super Plasma helmets have been specifically designed for professional rescue and work-at-height applications. They are lightweight, compact, amazingly comfortable, well-ventilated with 10 air intakes, and equipped with protective aluminum anti-intrusion grills to deflect debris and water. The helmet's outer shell is made of high-density ABS plastic designed to withstand significant impact. The advanced shape of the inner shell offers improved durability and better adaptation to all head sizes. Optional Super Plasma Visors are available in three lens styles for added eye and face protection (available by special order). Colors: Red, White, Yellow

Item # HL3400 \$135.00

PMI Advantage Helmet

The PMI Advantage offers industrial Kevlar head protection and plenty of detail oriented comfort. The ratchet headband is easily adjustable, while the three-point chinstrap keeps the helmet on your head when you need it most. It also has a headlamp retainer and a built-in goggle mount. For classic styling, maximum comfort and minimum impact select Advantage.

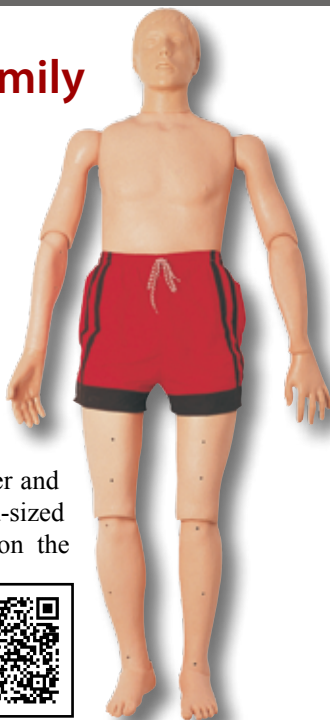

Weight: 1.25 lbs. Colors: Green, Orange, Red & White Fits head circumference from 20 – 25 inches (52-64 cm)

Item #HL3300 \$169.00

Randy and His Family of Water Rescue Manikins

Randy and Adolescent Randy are jointed in the arms and legs for easy positioning. They are made of dense, flexible, lifelike vinyl. Add additional 5-10 pounds of weight to sink (Weights not supplied, a brick will do). Billy & Timmy can be filled with water and will sink to the bottom. The child-sized manikins are not fully jointed on the legs and arms.

The full line of Simulaids manikins are available by special order.

Item #	Model	Weight	Dimensions	Price
RG1100	Adult	52 lbs	65"x23"x9"	\$702.25
RG1000	Adolescent	24 lbs	49"x16"x9"	\$639.75
RG1300	Timmy	8 lbs	34"x11"x7"	\$185.25
RG1350	Billy	5 lbs	26"x8"x8"	\$179.95
RG1150	Nylon Bag			\$162.75

Randy 9000

The Simulaids Randy 9000 is an optimal training tool, with size, weight and movement realistically imitating a human. The manikin is made from rugged polyethylene parts that allow for the addition of varying amounts of weight to each of the pieces. You may add water, sand, or any other substance as long as you can empty the substance out of the parts. Even when filled to 250 pounds, Randy 9000 will still float, allowing for realistic water training for swiftwater and boat based rescue. The empty manikin is easily moved and stored when training is completed. Each sealed piece is assembled with stainless steel hardware. The range of motion of the joints, including bending at the waist, mimics real life. Randy 9000 may be used in all weather conditions and the joint design protects rescuers' fingers.

The full line of Simulaids manikins are available by special order.

Item #RG2000 \$1,628.00

Neoprene Skullcap

This plush-lined, neoprene skull cap provides extra warmth, cushion and comfort with its form-fitting cut. Ear perforations help maintain unrestricted hearing.

This strobe and flashlight combo is visible for over one mile and waterproof to 328 feet (100m).

- Floats if dropped overboard
- Uses two “AA” alkaline batteries (not included)
- Operating life 10 hours strobe and 2 hours continuous flashlight
- Includes wrist strap

Size: 5.3 x 1.5 in. Weight: 5 oz.

Item #SD7670 \$38.00

Petzl Pixa 3 Headlamp

The Pixa headlamp is Petzl's newest, most versatile light yet. The three lighting modes include a wide angle beam for short range work, a focused beam for long range spotting, and a combination beam for movement and searching. The Pixa also comes with three mounting options, either on the included elastic headstrap, directly on a Vertex or Alveo helmet with the included mounting plate, or free standing on the integral 1800 swing back plate. On 2AA batteries (included) burn time is 3 hrs on high (78 meters), 6 hrs on medium (40 meters), and 12 hours on low (17 meters). Weight with batteries: 10 ounces.

Item #HE6250 \$74.95

Petzl STRIX VL Headlamp

The Strix VL headlamp was created to respond to requirements by military forces to be rugged, low profile, and versatile. There are numerous ways the headlamp can be worn, the double rotation system allows great freedom for orienting the beam. Comes with color lighting (red, green, blue) and three white lighting levels. It offers exceptional versatility and intuitive use with absolute reliability guaranteed.

Several carry options:

- On a helmet: equipped with an Ops Core ACH-ARC system, thanks to the integrated rail or with no rail system use the ADAPT STRIX plate accessory
- On the vest, with the integrated MOLLE clip
- With the headband (included)
- On the head or around the neck, without removing the helmet, thanks to the buckle

Item #HE6400 \$99.95

Princeton Tec Quest®

The Quest® headlamp is a lightweight, affordable choice for fire departments and SAR teams. With 2 watts of power and a focused beam, this headlamp will do the job! It includes a high output bulb and the original long burn bulb for when you need the extra burn time. On 2AA batteries (not included) the burn time is 5 hours using the high output bulb (56m) and 8 hours using the long burn (42m). Color: Black Weight with batteries: 5.8 oz

Item #HE1500 \$18.99

Petzl Duo LED Headlamp (5 LED Array and Halogen Bulb)

We have carried the Duo, a favorite of USAR and other swiftwater teams, in our catalog for many years. Petzl has now combined the Duo headlamp with LED technology for energy-efficient lighting. The halogen bulb gives powerful long-range illumination and the five-LED unit yields more intense lighting for close up work. The lamp swivels on its mount so you can direct the beam as desired, and the halogen light source has an adjustable focus, allowing you to vary the width of the beam. The on/off switch is lockable to prevent the lamp from switching on accidentally. Uses 4 AA alkaline batteries. (Not included) Burn time: 5 LED - 65 hours (28 meters) Halogen - 4 hours (100 meters) Weight w/batteries: 10.7 oz.

Item #HE6331 Petzl Duo 5 LED Headlamp \$122.00

Item #HE6340 Halogen Bulb for Duo \$ 8.95

Aztek Compact 4:1 Pulley System

The Aztek is the system of 1001 uses and is the most compact, smoothest mechanical advantage kit available. Self-swiveling pulleys, side attachment of the haul line, color coded and matched pulleys and prusiks, and a bag for compact storage make the Aztek the one of the most efficient systems on the market.

Item #KT1400 \$337.50

PMI Jr Haul System

The PMI Jr Haul System has the same haul advantage as a deluxe system, but in a lighter package. The pre rigged 4:1 or 5:1 system comes with SMC's new JRB mini pulleys, which are the mini of the mini's. They are efficient, lightweight and have the required prusik minding capability for use in this haul system. Pulley MBS 22kN (4,946 lbf.) Weight: 1 lb. 13.6 oz.

System includes:

- | | |
|-----------------------------|-------------------------|
| 2 – SMC Mini JRB Pulleys | 2m – 5mm Accessory Cord |
| 2 – SMC Aluminum Carabiners | 1 – 5mm Oval Screw Link |
| 10m – 7mm Tuff Cord | 1 – Storage Bag, Blue |

Item #KT1910 \$153.50

RQ3 Anchor Kit

Need to set up an anchor system fast? Frustrated at pawing through gear bags to find what you need? We have the solution for you with the Anchor Kit! Everything you need to make an anchor system in an RQ3 tote bag.

Kit includes:

- | | |
|---|-------|
| 1 3, 7 & 10 ft. anchor straps | pg 25 |
| 1 Rigging Plate | pg 33 |
| 1 Munter Hitch Carabiner (CA 4112) | pg 28 |
| 4 Locking D Aluminum Carabiners (CA4165N) | pg 28 |
| 2 10 ft. 1" Tubular Webbing | pg 39 |
| 2 RQ3 2" Double Rescue Pulleys | pg 31 |
| 2 6 ft. x 7mm Prusik Cord | pg 39 |
| 1 RQ3 tote bag (Black) | pg 43 |

Item #KT1600 \$331.00

RQ3 Haul Kit

This 4:1 haul kit comes completely assembled and ready to go in our Rope Gear bag. All hardware and rope is UL classified to NFPA 1983. The bag is made of 1680 D polyester, comes with back pack straps, two exterior pockets for gear and holds 200 feet of rope. Other features include side handle and a daisy chain on each side for hooking on additional gear.

Kit includes:

- | | |
|--------------------------------------|-------|
| 1 Rescue Source Rope/Gear bag | pg 42 |
| 1 200 ft of 1/2" static rescue rope | pg 38 |
| 2 Double 2" pulleys w/becket | pg 30 |
| 3 Large D Steel carabiners (CA4190N) | pg 28 |
| 1 30' of 8mm prusik cord | pg 39 |

Item #KT1800 \$522.00

Yates Load Release Strap

UL Classified to NFPA 1983

Yates' Load Release Strap is designed to make sizing and tying a load releasing hitch safe and uncomplicated. It allows you to release heavy loads in an easily controlled manner. The unique configuration will not allow the free end to slip past the D ring on the end of the strap. Rated Strength: 8,093 lbf. (36kN) Color: Blue Length when fully extended: 55"

Item #AN2400 \$59.00

Yates Adjustable Anchor Strap

UL Classified to NFPA 1983

It can be difficult to anchor to an object if you don't know how big around it is. Take out the guesswork with the Yates Adjustable Anchor Strap. Easily adjusted between 2 foot and 8 foot in length to fit your needs. The D ring on one end passes through the other to form a girth hitch. Designed to handle a high load before slipping. Made of 1.75 inch 9000 lbf. (40kN) heavy duty resin treated webbing. Minimum tensile rating: 4,946 lbf. (22kN) Color: Blue

Item #AN2450 \$82.00

Sewn Prusik Cord Loops

These sewn prusik cord loops have sewn ends that form a sleek, low profile connection that is stronger than a knot. You can easily and quickly set up a system. Clear tubing protects the stitches yet allows ready inspection. Utilizing both the 38" and 50" length allow you to have tandem prusiks on 1/2" rope with the correct 4" spacing. Rated MBS: 4,923 lbs. Prusik Diameter: 7mm Circumference: 38" & 50"

Item #RP1500 38" Red \$10.75

Item #RP1510 50" Blue \$11.75

Important Note On Prusik Hitches:

The performance parameters of prusik hitches used to belay rescue systems have received only limited testing. Several questions remain open, such as the effects of wear, age and environmental influences. If you decide to rely on a prusik hitch based system, it is your responsibility to determine if the particular combination of prusik hitch material (the cord) and the host rope will work reliably for your systems, level of training, and rescue conditions.

Yates Anchor Straps

UL Classified to NFPA 1983

Yates anchor straps are made from 1 3/4" mil-spec webbing, and all of the hardware on the anchor straps meets NFPA and military specifications. The anchor straps come in four different lengths and have a D ring at each end. When you create an attachment to the D rings instead of the webbing there is less of a load put on the gate of the carabiner. These straps make for swift and sturdy anchors. Color: Blue Rated Strength (end to end): 8,093 lbf. (36kN)

Item #	Size	Length	Price
AN2300	Small	3 ft.	\$39.00
AN2310	Medium	5 ft.	\$41.00
AN2320	Large	7 ft.	\$43.00
AN2330	X-Large	12 ft.	\$50.00

NRS Heavy-Duty Straps

These straps have been used for virtually every hold-down application imaginable. Whether you're attaching your boat to your rescue vehicle or your frame to your boat, these heavy duty straps won't let you down. These come in 4 different lengths with a handy name tag to mark them with your department's name. 1 inch, high-tenacity, polypropylene webbing rated to 1500 lbs.

Item #	Size	Length	Price
AN2600	Small	4 ft.	\$4.50
AN2605	Medium	9 ft.	\$5.50
AN2610	Large	12 ft.	\$5.95
AN2615	X-Large	20 ft.	\$7.50

CMC Rescue Multi-Loop Strap

This strap allows you to tie into your anchor with just the right length of webbing. Also handy when clipping several carabiners into one anchor point. Made of one inch mil-spec tubular web. Pockets break at 1100 lbf. Overall strength is 4,946 lbf. (22kN).

Item #	Size	Length	Loops	Color	Price
WE2200	Small	24"	4	Red	\$19.50
WE2260	Medium	36"	8	Yellow	\$23.50
WE2230	Large	66"	18	Orange	\$33.00

Yates Technical Rescue II Harness

UL Classified to meet NFPA 1983
UL Classified ANSI/OSHA Z359.1

This is a tuned down super lightweight version of the popular Voyager Harness. Great harness for entry level technical rescue, rope access, short haul, and basic rope rescue uses. The waist belt portion and leg pads of the harness use smaller and thinner padding material to save weight and reduce bulk still providing excellent comfort and support. Leg pad orientation can be adjusted to allow the user to obtain a perfect placement of the leg pad system to accommodate personal preferences. Dorsal D ring is easily adjustable on rear of chest. Attachment points at waist, chest, and back (dorsal). Shoulder straps are specially tailored to reduce chafing of the neck. Weight: 4lb.

Sizes:

- S/M 26"-37"
- L/XL 34"-45"

Item #HA3800 \$300.00

Yates Seat Harness

The Seat Harness was designed for fire departments, rescue, military, industrial, and commercial applications. It is quickly and easily donned and adjusted by using the camlock buckles. The large D ring provides a clip-in point that accepts multiple connections, and it makes clipping quick and secure even when hanging in the harness. The wide waist and leg loop webbing offer great comfort and support. Made in the USA. Size: One Size, Fully Adjustable 26" to 54" Color: Orange Weight: 1 lb. 9 oz.

Item #HA9500 \$124.00

Yates Voyager Harness

UL Classified to NFPA 1983 - Class 3
Certified to ANSI/OSHA

Yates Voyager Harness is designed to meet the demands of the rescue professional who needs a versatile harness with multiple attachment points. Yates D-Ring allows the rescuer additional space for multiple connections to a single attachment, without adding excessive bulk. Voyager Harness allows for attachment at the front and back of waist, chest, shoulders and hips. The waist and seat portions of the harness are easily separated to convert the harness from a Class III to a Class II. StabLock buckles are quick release, easy to adjust and manufactured from heat treated high carbon steel. Each buckle assembly is individually proof loaded.

Sizes:

- Medium 32"-36"
- Large 35"-39"
- X-Large 39"-49"

Item #HA8800 \$399.00

CMC Proseries Victim Harness

This harness attaches quickly and securely no matter where or how the victim is positioned. Colored web makes using the harness even easier. CMC's original V-Ring and snap design allows the harness to be put on without the victim having to step through the harness. Tie-in point also doubles as a "handle" for controlling the victim's position. One size fits small children to large adults. Storage bag allows easy carry, ready for use, preventing tangling when accessing the victim, and is attached to the harness so it cannot be lost.

Item #HA9400 \$230.00

Petzl Avao Bod Croll Fast Harness

Rope Access Harness

Petzl pushes comfort and practicality to the forefront with the Avao Bod Croll full body harness. The semi-rigid waist belt leg loops and shoulder straps are all lined with breathable perforated foam for maximum comfort when suspended. Attachment points at the front back and both sides of the waist offer the rescuer options for clipping in and sternal and dorsal rings allow for fall arrest gear as well. They have also integrated the Croll ventral rope clamp for ascending ropes. Three large equipment loops around the waist round out this user friendly harness.

Sizes:

- S/M 27"-47"
- L/XL 31"-55"

Item #HA7100 \$485.00

Harness also available without Croll device

Item #HA8400 \$430.00

CMC Confined Space Rescue Harness

The perfect all-around choice for confined space operations, heavy rescue and USAR incidents, the Confined Space Harness is exceptionally comfortable. The redesigned buckle system and unique Web Keepers™ provide ease of adjustment while keeping the web tails in place. The mesh vest provides excellent breathability and keeps the shoulder straps organized to make donning easy. A handgrip has been added to the back for assisting the rescuer out of tight spaces. The harness has a radio pocket, a multi-use pocket and a zippered mesh accessory pocket, which is ideal for a small gas monitor. Attachment points: dorsal*, front and rear waist, sternal*, shoulders.

* ANSI Fall Arrest attachment points.

Sizes:

- Small 26"-32"
- Regular 32"-42"
- X-Large 42"-48"

Item #HA5500 \$520.00

Yates Heavy Rescue Spreader Bar

Designed to be used for vertical lifting and lowering with the Yates Heavy Rescue Harness or any Class III harness with appropriate shoulder D rings. Lifting bridle connects to D rings on shoulders of harness with double locking snap hooks which are attached to spreader bar.

Item #BR8160 \$70.00

PMI Hasty Harness

This simple and secure evacuation seat is specially designed to be lightweight, efficient, and easy to put on a patient in distress. The split center piece of the triangle design conforms to the wearer and is surprisingly comfortable, even for an extended ride. It also has an alternative attachment point for children or small adults. One size fits most. Color: Yellow/Blue. Weight: 3 lbs.

Item #HA9800 \$150.00

Uniform Rappel Belt by Yates

The uniform rappel belt is standard equipment for SAR teams, firefighters, and SWAT officers. This lightweight uniform rappel belt can be used for emergency rappels and belays, but is not intended to replace a harness. Its unique custom "Cam Lock" waist buckle system allows for quick adjustment while eliminating slippage problems. It is made from 1 3/4" webbing that has been made slightly stiffer for better use when attaching radio and equipment pouches. The front V-ring is used for a main attachment point and has a proof-load strength of 2500 lbf. and breaking strength of 5000 lbf. Webbing strength is 7000 lbf. One size fits waist sizes up to 44 inches. Colors: Black

Item #HA9420 \$29.50

Omega Pacific Steel Carabiners

Made in the U.S.A. from 7/16" and 1/2" bar stock steel for strength and durability. Offset "D" design provides a large gate opening for ease of use. Locking screwgate for extra security and 3" chromate plated for corrosion resistance. The Large "D"s have a one inch gate that fits over most stretcher rails.

Item #	Type	Dia.	Finish	Opening	Strength	Weight	Price

Omega G Rated Aluminum Carabiner

UL Classified General Use

Built as the new workhorse for Fire, Rescue, and Safety industries, the G-FIRST is the world's lightest carabiner to earn the full-strength "General" rating from the National Fire Protection Association! Rated to 40kN, this carabiner weighs only 4.6 oz. G-FIRST is ISO Cold Forged from aircraft-quality, heat-treated aluminum and features a key lock nose to prevent snagging on webbing, ropes and harnesses. Diameter: 3/4 in Finish: Brite Opening: 1.1 in Strength: 9,600 lbf.(40kN)

Item #CA4138N \$30.39

ProTech™ Aluminum Key-Lock Carabiners

Ideal for rescue and rope access, this anodized carabiner's patented key-lock design does not hang up when unclipping from your harness or web. An optimized D-shape maximizes its strength, and its wide gate opening fits over 1-inch (25 mm) diameter railings, unusual for a carabiner this compact and light. Safety indicators etched on the gate augment easy one-hand operation. Gate choices include the traditional Screw-Lock, the 3 stage Auto-lock, and the Manual Lock which takes a quarter-turn to lock and two actions to unlock. Manual-Lock and Auto-Lock versions are available with a removable keeper pin for use with lanyards or for terminating escape or RIT lines. Every carabiner is proof loaded.

All ProTech Carabiners UL Classified to NFPA Technical Use

SMC Rescue Carabiners

Designed for rescue, SMC's Locking D carabiners are state-of-the-art. With thousands of these carabiners in service, they have proven themselves reliable. The carabiner gates and screw sleeves are constructed of stainless steel for greater strength and the nuts lock on the gate to prevent jamming. These carabiners have become the choice of many mountain rescue teams and fire department rescue squads. SMC carabiners - "Quality Gear for Life"

Item #	Model	Material	Finish	Gate Opening	MBS	Weight	Price

RQ3 Rescue Pulleys

Manufactured by SMC

Years ago when Rescue 3 Instructor Trainer Barry Edwards designed these pulleys his primary goal was to make it strong but weigh less than most pulleys out there. The side plates are made of high grade aluminum and are thinner than other pulleys with a series of holes to cut down on the weight but not the strength. The bolt, washers, lock nuts, and sealed ball bearings are stainless steel to stand up to the conditions found in the rescue environment. Manufactured by Seattle Manufacturing Company, one of the leading industry professionals in the rescue market.

- High grade aluminum side plates
- Stainless Steel components for long working life
- Prusik minding design

Item #	Type	Sheave	Dimensions	MBS	Weight	Price
PU8708N*	2" Double Prusik Minding with Becket	2" x 1/2"	6.25" x 3" x 1.5"	8,093 lbf. (36kN) Becket: 4,386 lbf (19.5kN)	.82 lbs	\$85.95
PU8710	4" Single Prusik Minding	4" x 1/2"	5" x 3" x 1.25"	11,200 lbf. (49.8kN)	1.3 lbs	\$92.00

SMC PMP Pulleys

UL Classified to NFPA 1983 General Use

SMC's pulleys have been regarded as the benchmark in the rescue industry for over 30 years. Prusik Minding Pulleys are especially versatile and may be used in many ways, from progress capture and hauling systems to crevasse rescue, high lines and Tyrolean traverses. With their compact size in combination with a large diameter sheave it makes even static rescue ropes easy to manage. The solid side plates help prevent foreign object access and reduce snagging and are precisely tensioned for easy one handed operation and secure placement at any point along the rope. Sealed ball bearing provides optimal efficiency and reduces the performance robbing resistance that is inherent in most multiple component systems. Side plates and sheave made of aluminum.

Item #	Type	Sheave	Dimensions	MBS	Weight	Price
PU8500N**	2" Single Prusik Minding	2" x 1/2"	1.89" x 3.97" x 1.37"	9,670 lbf.(43kN)	6.3 oz	\$62.75

PU8515N**	3" Single Prusik Minding	3" x 1/2"	5.85" x 4.17" x 1.37"	8,542 lbf. (38kN)	12.5 oz.	\$86.50

Russ Anderson/SMC Rescue Pulleys

UL Classified to NFPA 1983 (2006)

Russ Anderson/SMC pulleys have the high quality and strength necessary for rescue systems. This time tested design is made using the optimal combination of materials with every component perfectly matched for its intended use and application. They are known for being rugged yet relatively light weight and delivering reliable performance under even the worst of conditions. The side plates are stainless steel and rotate which allows the pulley to be attached to the rope at any point. The axle nuts are double locked to the steel axle and marked with a witness line to indicate any loosening. The heavy-duty, heat-treated aluminum alloy wheels combine light weight with high durability. SMC Pulleys are measured on the outside diameter of the rope groove.

Item #	Sheave	Type	Bearing	MBS	Weight	Price
PU8405N*	2" x 1/2"	Single	Oilite Bronze	6,519 lbf.(29kN)	8.6 oz	\$ 46.30

**UL Classified to NFPA 1983 (2006) - General Use

SMC Kootney HX Pulley

UL Classified to NFPA 1983 General Use

The Kootenay HX is the most advanced knot passing pulley on the market. Aluminum side plates are used in conjunction with a high-strength aluminum sheave. Sealed ball bearings provide optimal efficiency and help to reduce the performance robbing resistance that is inherent in most multiple component systems. The primary carabiner hole accepts various rescue carabiners. Secondary carabiner holes are provided for use with tag or belay lines. Two quick-release pins may be used in order to “lock off” the sheave when a high strength tie-off is required. Max rope size: 5/8” (16mm)

Item #	Sheave	Dimensions	MBS	Weight	Price
PU8725N	4” x 2”	9.5” x 4” x 4”	8,542 lbf.(38kN)	1.75 lbs	\$217.50

Omni Block Pulley

Rated CE and UIAA

Continuing Rock Exotica’s interest in performance, the Omni pulley makes some very basic but effective changes to the rescue pulley. First, by adding a swivel to the top of the body, the Omni allows the pulley to rotate with the rope, reducing friction and equipment failures brought on by torque in a system. The swivel also acts as the pulley’s attachment point to the system, allowing rescuers to rig and re-rig pulleys at will without needing to manipulate carabiners.

Item #	Type	MBS	Weight	Price
PU5100	Single	8,093 lbf. (36kN)	9.2 ozs	\$ 82.00
PU5150	Double w/Becket	8,093 lbf. (36kN)	14.5 ozs	\$126.00

SMC Crevasse Rescue Pulley

This diminutive, featherweight belies its solid strength and efficiency when used in 2 to 1 systems. It also has the prusik minding capability. A smooth running 1.25” nylon sheave runs on a zinc-coated axle, and the color-contrasting aluminum side plates rotate for easy rope insertion and removal. Easy to use, easy to carry – it’s a palm sized rescue partner. Accepts ropes up to 12.5 mm.

Item #	Type	Tread	Dimensions	MBS	Weight	Price
PU8490	Single	1/4”	3” x 1.25” x .125”	5,200 lbf.(22kN)	3.2 ozs	\$14.50
PU8495	Double	1/4”	3” x 1.25” x .25”	5,200 lbf.(22kN)	3.3 ozs	\$33.95

SMC 2” Swiftwater Pulley

In recognition of the requirements found in Swiftwater Rescue, this pulley is designed for that unique environment. The anodized aluminum side plates feature a series of holes which help to minimize the hydroplaning effect that might otherwise occur with a typical pulley. Side plates are also configured to allow this pulley to work as a prusik minding pulley. Sealed ball bearings provide optimal efficiency. Recommended for ropes up 1/2” (13mm).

Item #	Type	Sheave	Dimensions	MBS	Weight	Price
PU7000	Single	2”	4” x 3” x 1.25”	7,644 lbf.(34kN)	6 ozs	\$42.50

Petzl I'D

UL Classified to NFPA 1983 General Use
CE EN 341 Class A

The Petzl I'D is an in-line variable friction descender and lowering device with a "panic lock." The self braking system pinches the rope and locks you onto the rope as long as you do not pull on the handle. It can be installed on the rope without disconnecting it from the harness and is great for descending, ascending, and work positioning. Constructed in anodized aluminum and stainless steel with a handle made of nylon reinforced with glass fibers for higher strength. The I'D is an essential component of any industrial safety kit! Weight: 18.7 oz.

Item #AS4000NL	11.5-13mm rope	\$255.00
Item #AS4000NS	10-11.5mm rope	\$255.00

Petzl RIG

CE EN 12841 Type C, CE EN 341 Class A
NFPA 1983 Light Use

The RIG is designed for expert professional rope access technicians. It allows the user to get in position and then easily stop by using the handle to block the rope. The RIG descender is compact and intuitive to use, making for smooth descents. With its innovative design and compact size, the RIG is a simple and effective device. The RIG is recommended for users that already have considerable experience. For professionals that are still learning we recommend the I'D descender, which has additional safety features such as an anti-panic function and an anti-error safety cam. Weight: 13.4 oz. Rope: 10.5 - 11.5 mm

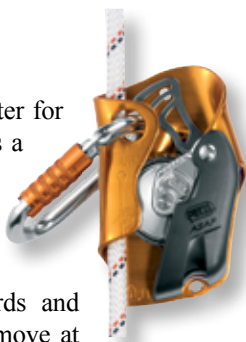

Item #AS4005N	\$180.00
---------------	----------

Petzl ASAP®

CE EN 353 2

The Petzl ASAP® is a mobile fall arrester for use on a safety rope. The ASAP® stops a fall, slide or uncontrolled descent and locks even if the device is grabbed during a fall. It works on vertical or angled rope and moves along the rope without manual intervention (downwards and upwards). You can easily install and remove at any point on the ropes and it works on 10.5mm to 13mm semi-static ropes. The ASAP® also comes with the OK TRIACT automatic locking carabiner. Weight: 15 oz.

Item #AS4100	ASAP	\$230.00
Item #AS4110	ASAP® Sorber Lanyard	\$ 50.95

Petzl Handled Ascenders

UL Classified to NFPA 1983 Technical Use

The redesigned Petzl Handled Ascenders are designed for self-belaying on fixed ropes, as a handle when you need to pull on a rope, as well as for climbing ropes. They have an upper connection hole for pulley/rope clamp system assembly, lower holes for connecting a lanyard and installing a foot loop with a quick link and wide, ergonomic molded handles that allow a comfortable yet powerful grip. These handled ascenders come in right (gold) and left (black) handed versions. Weight: 6.88 oz. Rope up to 13mm

Item #AS5065R	Right Handed	\$79.95
Item #AS5065L	Left Handed	\$79.95

MPD™

UL Classified to NFPA 1983 General Use

The MPD (Multi-Purpose Device) has a high efficiency pulley with an integral rope-grab mechanism. This means it can be used as a lowering device on the main line and belay line systems and be quickly changed over to a raising system without switching out or replacing hardware. The revolutionary MPD increases user safety with: reduced weight, faster rigging, simplified training, fewer components, quicker changeovers and lower risk. Color: Red Rope Size: 12.5-13mm Weight: 2lbs. 8oz. MBS: Pulley/Aux - 9,891 lbs. (44kN) Descent Control - 5,395 lbf. (24kN)

Item #AS3300	\$695.00
--------------	----------

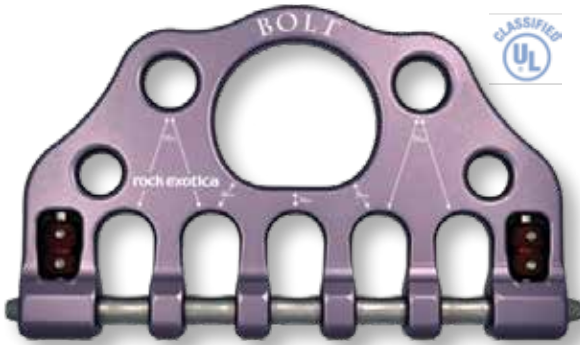

Rescucender™

A rope grab designed to minimize damage to the rope under shock loading. The jaw has a set of shallow, slightly rounded teeth—more like grooves. They create just enough friction against the rope and minimize damage in shock loading. The "Curved Cam Interface"—against which the cam pushes the rope—helps prevent rope damage by allowing the Rescucender™ to slip when overloaded. A spring loaded action for the cam is achieved from resistance of a small diameter cable that attaches the jaw to the body (this can be clipped off if the user prefers a free-running action). Made in USA. Breaking strength: 6,000 lbf (26 kN) Rope size: 7/16" - 1/2" (11.5-13mm) Weight: 9 oz.

Item #AS5050	\$73.95
--------------	---------

Bolt

The BOLT rig plate is made with a quick-detachable stainless steel “bolt”. The user can connect gear directly to the five connection points without the use of carabiners. As a result, there is a direct connection to the pulley. This saves space between pulleys and reduce the length of the system. Weight: 17.3 oz MBS: 36kN Height: 5” Width: 8”

Item #PR5940N \$114.00

RQ3 Stretcher Rigging Plate

Are you tired of all those lines coming together at one spot? Here is the answer! Designed with enough holes for all the lines, 4 points of the litter, litter tender or other complex systems. A must for your rescue cache. Material: Aluminum. Strength: 12,200 lbs. (54kN) Weight: .74 lbs. Color: Teal Size: 10” x 3 ¾”

Item #PR5980 \$69.50

SMC Mini Rigging Plate

UL Classified to NFPA 1983 General Use

The SMC Mini Rigging Plate is the strongest, lightest, and most versatile mini rigging plate on the market! It is manufactured using high quality aluminum for strength, durability, and corrosion resistance to provide years of reliable service. The two main holes can also be used as a belay device. Each hole is sized and shaped to facilitate rigging with locking rescue carabiners. Weight: 2.8 oz. Color: Blue Strength: 8,093 lbf. (36kN) Dimensions: 3.75” x 2.93” x .375”

Item #PR5960N \$29.00

Steel “O” Ring

Use this “O” Ring as a connection point when rigging a stretcher. The Ring allows attaching the control lines, stretcher harness (spider), and the pulleys all at one strong point without twisting. Inside diameter is 3 inches. Made from drop forged alloy steel. Strength: 10,000 lbf. (44 kN) Weight: 9oz Bar Diameter ½”

Item #OR7200 \$13.00

CMC Anchor Plate

UL Classified to NFPA 1983 General Use

The Anchor Plate keeps the carabiners holding the different parts of your rescue system from jamming together. The hardware becomes easier to see, making safety checks more accurate. It can also keep you from clipping a carabiner into the wrong loop of the anchor webbing. Set up systems faster with fewer mistakes. Stainless Steel. Weight: 16 oz. Strength: 11,083 lbf. (49.3kN) Hole Diameter: Small 7/8”, Large 2” Dimensions: 6 ¼” x 5”

Item #PR5950N \$69.00

UFO

The Universal Focusing Object is a new generation of rigging plate allowing you to position in three dimensions. As your systems become more complex the UFO helps to keep all the lines and hardware orderly which make system check easier. Weight: 16 oz Height: 3.5” Breaking Strength: 8,093 lbf (36kN)

Item #PR5970 \$109.50

PMI Rigging Ring

The SMC Rigging Ring is the strongest aluminum ring of its size on the market and can be used in conjunction with anchor systems, haul systems or as a connection point providing that missing link which is often needed. The inside diameter will accommodate up to 3 standard sized carabiners. MBS: 7,194 lbf (32kN) Weight: .9 oz (26g)

Item #OR7280 \$4.80

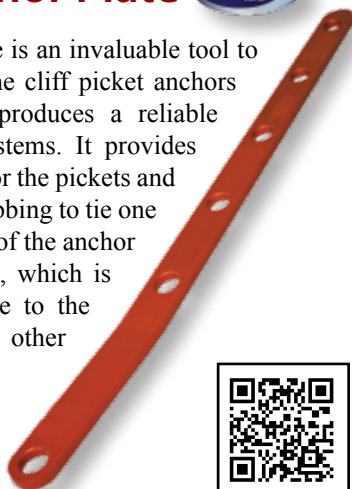

RQ3 Picket Anchor Plate

The RQ3 Picket Anchor Plate is an invaluable tool to utilize in conjunction with the cliff picket anchors you create. When used it produces a reliable mode for attaching your systems. It provides optimum spacing and angle for the pickets and eliminates the need to use webbing to tie one picket to another. On the end of the anchor plate is the attachment point, which is raised for easy access. Made to the same high standards as our other RQ3 rigging plates.

Strength: 8,000 lbf (35kN)

Item #AN3308 \$89.95

Rescue Q-Eight

UL Classified to NFPA 1983 General Use

The Q-Eight is for rescue and tactical operations teams. It performs exceptionally well in high wear situations. Designed for 12mm rope, this eight plate is "a must have" in your rescue gear cache. The unique design allows you to tie off easier and safer than any eight plate, yet it works the same as traditional eights. Manufactured from 6061T 6511 Aluminum Stock by SMC. Weight: .54 lbs Strength: 4,946 lbf (22 kN)

Item #FE2121N \$54.99

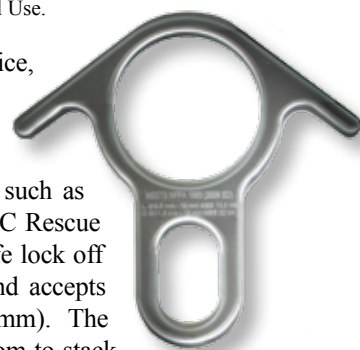

CMC Rescue 8 w/ Ears

UL Classified to NFPA 1983 General Use.

Designed for the fire service, rescue and police tactical operations. This steel model performs exceptionally well in high wear situations, such as helicopter operation. The CMC Rescue 8 is big enough to allow a safe lock off with larger diameter ropes and accepts 7/16 to 1/2" rope (11mm-13mm). The carabiner hole has enough room to stack extra carabiners. The steel 8 is drop forged. Weight: 19 oz. Strength: 4,946 lbf. (22kN) Dimensions: 6" x 6 1/4" (at ears)

Item #FE2110N \$96.00

SMC NFPA Brake Bar Rack

UL Classified to NFPA 1983 (2006) General & Light Use

With the larger diameter brake bars and the addition of the SMC Tie-Off Bar, the SMC NFPA Brake Bar Rack passes the test for a General Use rating without the use of a connector bar. This improvement maintains the rack's performance while greatly increasing the ability to adjust the friction. Assembly required, instructions included. This SMC rappel rack includes 1 straight-six bar rack, one stainless steel tie off bar and 5 anodized aluminum brake bars (1 straight, 4 angled).

MBS: 4,946 lbf. (22kN) Weight: 1.15 lbs.

Item #BR8150N Straight Rack \$121.30

Item #BR8170N Twisted Rack \$121.30

SMC Rescue Swivel

UL Classified to NFPA 1983 General Use

The SMC Rescue Swivel is built around a heat-treated axle and a sealed high-efficiency ball bearing to ensure smooth rotation during rescue conditions. The holes are sized to work with rescue carabiners, and they allow the lock sleeves to rotate without unclipping them. Weight: 4.5 oz. Height: 3.5" (top to bottom) Strength: 8,093 lbf. (36 kN)

Item #SW5600N \$91.00

RA/SMC Figure 8

UL Classified to NFPA 1983 General Use.

The Russ Anderson/SMC Figure 8 (with ears) is one of the most popular full-sized descenders used by professionals throughout the rescue, fire service, police/tactical and industrial/work related markets. Machined from 1/2 inch heat treated aluminum alloy plate for high strength, and given a hard coat anodized finish. The carabiner hole is oval for use as a belay plate. Weight: 6.5 oz. Strength: 4,946 lbf (22kN) Dimensions: 6 1/4" x 5 1/4" (at ears)

Item #FE2108N \$55.00

Arizona Vortex

UL Classified to NPFA 1983 – General Use, CE EN 795

The father of all portable anchor/high directional systems, the Arizona Vortex is a tripod, bipod and monopod in one all-inclusive kit. The key benefits to the Vortex are; Color Coding aids in assembly, the Telescoping Legs allow adjustment of both the overall height or just the height of a single leg, the Pulley Mount eliminates the height lost when a carabiner is used as a connector, and the Head Set Pulley Wheel mounts into the head set with a pin to allow maximum height adjustment and eliminates the need for additional hardware. This kit provides a complete solution, so you will have what you need without requiring optional extras!

- Color: Brite Blue/Orange
- Specifications: 9'
- Height w/additional legs: 12'

Item #TP7200	Arizona Vortex	\$4,595.00
Item #TP7220	Replacement Pin Set	\$ 110.00
Item #TP7230	Upper Leg	\$ 189.00
Item #TP7240	Lower Leg	\$ 189.00
Item #TP7290	Head Set Pulley Wheel	\$ 12.60

TerrAdaptor™

UL Certified to NFPA 1983 - General Use

Multiple configurations of the TerrAdaptor Portable Anchor System can be built from various standard system components. The primary system revolves around the TerrAdaptor Tripod System. This system includes all of the necessary parts to assemble a standard symmetric tripod that provides the ability to reach a height of approximately 10 ft, and can be used in a Gin Pole or Bi-Pod configuration. The system comes packaged in three compact packable bags to make it easy to grab your bags and go.

To transition your Tripod to a Quadpod system, you can purchase the TerrAdaptor Quadpod Attachment Kit. This kit provides the fourth leg and attachment pieces necessary to transition your tripod into a Quadpod.

If your needs are fairly simple and a single gin pole is the best solution for your situation, you can purchase the TerrAdaptor Gin Pole Kit. This kit includes a full leg kit to reach approximately 10 feet in height adjustability.

Item #TP1500	TerrAdaptor Tripod System	\$4,274.50
Item #TP1510	Quadpod Attachment Kit	\$1,256.60
Item #TP1520	Gin Pole Kit	\$ 865.25
Item #TP1530	Foot Replacement	\$ 89.75
Item #TP1540	Bolt Replacement Kit	\$ 4.75

CMC Disaster Response Litter

The Disaster Response Litter is a light-duty, disaster response stretcher designed for durability and versatility. A unique feature of the Disaster Response Litter is the tubular runner rails that run the full length of the stretcher along the bottom. These provide a very strong and durable base, making it far more difficult to damage from regular use, as compared to other baskets that simply use a flat bar. This product represents a very cost-effective alternative to the more heavy-duty stainless steel models, and will meet the needs of many users who only use stretchers occasionally. Durathene netting. Weight: 28.51 lbs. Color: Black Dimensions: 83 ½" x 24 ½" x 7 ¼"

Item #LT1480 \$310.00

Junkin Plastic Rescue Litter

The Junkin Plastic Rescue Litter features stainless steel railings with a high-density polyethylene shell supported by a stainless steel outer rail. Two bottom cross struts are recessed into the plastic and provide side-to-side rigidity, often a problem in conventional plastic litters. The ultralight, polyethylene plastic bed fits on the second rail, leaving the top rail free for carrying or rigging systems. The rectangular shape accepts full spine boards and the bottom has a full length foam pad for comfort. Passes 1,200 lb. load test. Weight: 32 lbs. Color: Yellow. Dimensions: 84" x 24" x 7 ½" deep.

Item #LT1550	Standard	\$668.00
Item #LT1900	Break Apart	\$874.00

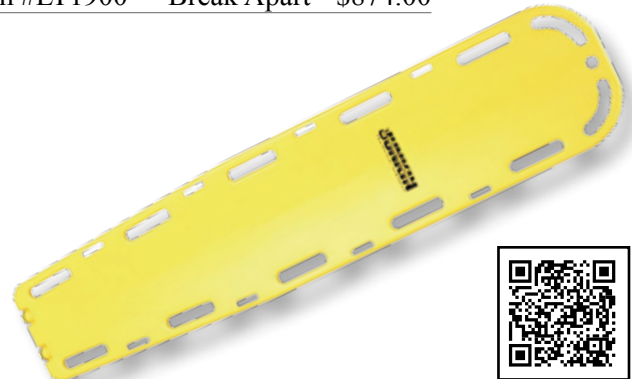

SKED Stretcher System

One of rescue's classics, the SKED stretcher system combines a practical patient carry and packaging system with lightweight portability. Fully assembled, the flexible polyethylene platform with rigging weighs in at only 19 lbs. and rolls into a tight 9" by 36" footprint. The platform is pre-rigged with four carry handles, six packaging straps, and a drag bridle. The SKED is also highly resistant to chemical reaction and contamination, lending durability and safety to the system.

System includes:

- Sked Stretcher
- Cordura backpack/towing harness
- Horizontal lift slings
- 30 ft PMI vertical lift line
- Steel locking D Carabiner
- 6 ft tow strap
- 4 built in handles

Item #LT1650 \$609.31

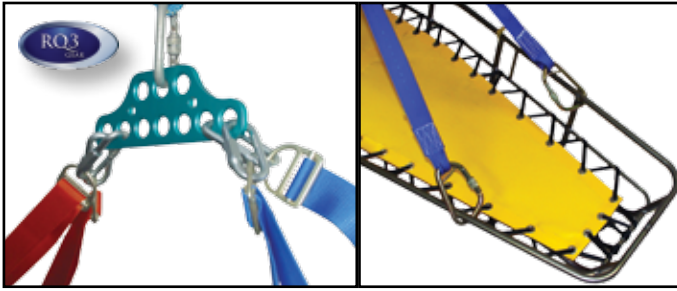

Junkin Plastic Backboard

The Junkin backboard is a rugged one piece lightweight polyethylene backboard with twelve large hand holes for easy handling built in runners, low profile and X-ray translucent. This board also comes with 4 straps. The Junkin lightweight backboard fits in all Junkin basket stretchers without leg dividers. Color: Bright Yellow Dimensions: 72" x 16" Weight: 15 lbs. Load Capacity: 400 lbs.

Item #LT1365 \$173.00

Litters are drop shipped from the factory. Please allow four to six weeks for delivery. Oversized freight charge applies, please call for quote.

RQ3 Stretcher Rigging System 4-Point Adjustable Litter Bridle

This system is ready to go! Simply connect the 4 large locking D carabiners with webbing keepers (keepers stop the webbing from side loading carabiners) to the litter, which are sewn onto the straps. The other end has adjustable buckles which are pre-attached to the rigging plate with screw links so you can attach to the main line and go. The adjustable buckles also make it easy to change the litter angle for vertical transit or patient comfort. The rigging plate has plenty of attachment points for additional line without the mess or hardware of an O-ring. In addition it can be converted for low angle use. Comes with a convenient storage bag.

- Size: 10" x 3.75"
- Weight of system: 6.86 lbs.
- Carabiner strength: 12,590 lbf. (56kN)
- Webbing strength: 6,500 lbf. (29kN)
- Plate strength: 12,200 lbf. (54kN)

Item #LT1575 \$307.95

LSP Half-Back Extrication/ Lift Harness

An effective tool for vertical extrication from confined spaces, the LSP Half-Back provides spinal immobilization complete with anatomically correct head support. Leg straps provide lower body support during a vertical lift. Six handles allow for easy maneuvering of the patient. Compatible with the Spreader Bar and the Miller Full Body Splint (sold separately as special order items). Color: Yellow. Weight: 11 lb (5 kg) with back-stay and head harness. Vertical Lift Strap and Carrying case also available (sold separately).

Item #LT2250 \$1,270.00

Litter Flotation Collar

The lightweight rescue flotation collar provides flotation assistance during patient handling in water. It's flexible, two piece design allows for quick and easy installation on a wide variety of basket stretchers. It can be easily attached and removed for storage, it conveniently stores inside of basket stretcher.

Weight: 3.08 lbs Flotation: 45lbf

*Litter not included

Item #LT1760 \$367.50

Ferno® Fastrap™ Quick Restraint System

This ten-point, five-strap system quickly and effectively secures patients to backboards and other devices. Color-coded straps are constructed of nylon with hook-and-loop closures. The Fastrap is adjustable from pediatric to adult, and includes a strap for the patient's wrists.

*Backboard not included.

Item #LT1810 \$94.00

Russ Anderson Universal Litter Wheel

Because it clamps to the top rail, the Russ Anderson Universal Litter Wheel will fit a wide variety of litters, including the plastic litters and the metal litters that have the flat straps for bottom rails. The wheel uses an all-terrain tire that provides comfort and stability. The unique locking device "clamps" the frame to the litter. Additional oversize freight charge applies. Weight: 30 lbs. Range of adjustment on top rail: 5/8" to 1"

Item #LT3000 \$775.00

NEW ENGLAND ROPES

KM-III

STATIC ROPES

KMIII static kernmantle rope features a composite construction of nylon and polyester fibers, providing an excellent line for rescue operations. KMIII provides high tensile strength and low stretch, with good heat, chemical and abrasion resistance. The rope is torque-balanced for no spin when rappelling. KMIII is UL Classified to meet NFPA. It is of a balanced construction, with the cover and core each representing 50% of the total weight. The cover is made of continuous filament polyester, braided over a continuous filament nylon core. This provides excellent handling and knot-holding characteristics, as well as rugged protection from abrasion and cutting.

Tensile strengths are the average results of three tests conducted according to Federal Test Specification 191A, Method 6016. All test results exceeded 9,000 lbs. as required by NFPA.

The following specifications apply to all diameters of KM III:

- Construction: Block creel, low-stretch (static) kernmantle construction. Made in the USA.
- Fiber: The core is 100% nylon and the sheath is 100% polyester.
- Sheath: Braided polyester jacket, 32 carrier, two over two under construction with half of the strands having a Z-twist and half having an S-twist.
- Strength: $\frac{7}{16}$ " - 7,500 lbs. (33kN) $\frac{1}{2}$ " - 10,000 lbs. (44kN)
- Elongation: $\frac{7}{16}$ " - 3.51% at 450 lbs $\frac{1}{2}$ " - 3% at 450 lbs.
- Temperature: Melt point 480°F (248°C)
- Certification: UL Classified to current NFPA standards. CE approved to prEN 1891.

Tubular Webbing

This tubular webbing is constructed to military specifications 5625 and is made by needle loom construction. Tubular webbing has many uses, including anchor systems, technical rigging, climbing systems, and patient packaging. It takes and holds knots and can also easily be undone even after a great amount of pressure is applied. Allow for up to 3 splices per spool.

River Rescue Lifeline by New England

A Rescue System Rope THAT FLOATS! If you are looking for a rope that is designed for technical rope systems and floats, this is it! Double braided with a polypropylene core contained within an abrasion-resistant nylon jacket, this is one tough rope...not a throw line but a rescue lifeline.

- Tensile Strength: 5900lbs. (26kN)
- Diameter: 7/16" (11 mm)
- Weight: 5 lb./100'
- Color: Yellow - tracer may vary

Item #RP700020	200 feet	\$190.00
Item #RP700030	300 feet	\$285.00
Item #RP700060	600 feet	\$564.00

Prusik Cord

The most important attribute of a cord used for prusik hitches is consistency in handling and diameter. Once you have determined the prusik hitch that works best on your host rope, you want the same performance every time you replace it. New England Prusik Cord has the right balance of suppleness for reliable activation, and strength for long service life. Made of nylon with a torque-free, kernmantle construction. Two color choices in each diameter allow you to use a separate color for each length prusik in a tandem prusik belay system. Sold in cut lengths and 300' spools.

Rope Accessories

Yates Canvas Edge Pad

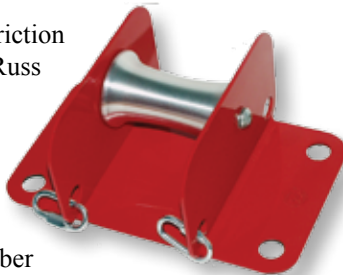

The Yates edge pad is made from two layers of heavy duty canvas. It is designed to protect ropes from abrasion when stretched across the rough surfaces encountered in rappelling, rescue, high rise maintenance, and other operations. The pads are reversible and the corners have extra large grommets for tying down. Size: 30" x 36" (76cm x 91cm)

Item #RL5300 \$45.00

Russ Anderson/SMC Edge Roller

The best way to reduce edge friction and protect your rope is with Russ Anderson's Edge Rollers. A proven performer for over 20 years, the Russ Anderson/SMC Edge Roller features an aluminum wheel with Oilite bushings. The 6 x 10 inch, rubber padded base provides plenty of stability and the 4-inch wide wheel accepts multiple ropes. Each unit comes with 2 screw links for attaching units together. Most situations require at least two units and the curvature of the edge will determine how close or far apart to place them. The eight tie-down holes can be used to link rollers or to anchor a safety line to them. Color: Red anodized. Weight: 3 lbs 8 oz. Dimensions: 10" x 6" x 4 1/4"

Item #RL3700 \$181.20

Whip-End Dip Rope Sealer

This is an easy-to-apply, liquid vinyl compound that seals the end of your rope or webbing and prevents unraveling and fraying. Three coats are recommended for best results. Different colors can be used to code ropes for length, size or use. Use clear Whip-End Dip to protect tape and keep important information legible. Whip-End Dip comes in a 4-ounce bottle.

Item #RP4130	Red	\$10.25
Item #RP4135	White	\$10.25
Item #RP4120	Clear	\$10.25

SMC Flex

The SMC Flex takes the flexible edge protection pad and makes it more versatile than ever. Instead of a few discrete channels running the length of the pad, the channels are made of a grid of raised holes in a strong, high density polyethylene sheet. The holes are sockets to accept Flex Clips which allow multiple Flex Pads to be attached, creating long runners for gradual edges, wide sheets for multiple line management, or both. The Flex allows the rescuer to fit edge protection to the system, instead of having protection dictate the system.

Item #RL4500	SMC Flex	\$16.80
Item #RL4510	Flex Clips	\$ 6.25

RQ3 Rope Log

The RQ3 All-Weather Rope Log contains 9 rope log forms on Rite in the Rain waterproof paper. Plenty of space is provided to document critical lifeline information and log use and inspection. Cover comes with space to include all the specifications for your rope along with rope care instructions. The compact size of this booklet allows for easy storage within the rope bag. Size: 5 1/4 x 8 1/2 inches.

Item #RP9932 \$6.99

Shrink Tubing

Clear tubing for protecting labels on the end of ropes. Slide over the label and use a safe heat source to shrink the tubing tight to the rope. Use 1/2 inch shrink tubing for 3/8-7/16 inch rope and 3/4 inch tubing for 1/2-5/8 inch rope. Clear. Sold by the foot.

Item #RP1250	1/2 inch	\$49/ft.
Item #RP1260	3/4 inch	\$59/ft.

Rope/Webbing Cutters

K9 Rappel Harness

Designed to be a lightweight, portable harness that the handler can carry into the field, the K9 Rappel Harness features a CORDURA® nylon panel and four straps to securely support your dog during rappels. A large rubber handgrip makes it easy to lift or control your dog during the rappel. A stowaway rear-lift assembly fits over the dog's tail for additional security. The steel D-ring connection point suspends the animal in a comfortable position. Features rear attachment for lead connection. Extensively tested by local dog teams for comfort, security and ease of use. One size will fit most rescue dogs.

Item #HA9200 \$186.00

Canine Flotation Device

Whether your dog jumps or falls in the water, the NRS C.F.D. keeps them on the surface. With a tough 1000-denier Cordura shell and heavy-duty straps, the C.F.D. can take the worst your dog can dish out. Wide, soft under-strap for comfort; durable grab loop and leash ring for security. A zippered pocket for a leash, snacks, etc. Plus reflective safety tape for visibility. Flotation: 2.7-7.9 lbs. Sizes: XS-XL Color: Red

Item #PF4023 \$42.75

Animal Grabber

This is one of the most useful tools for the rescuer. Most often used for cats and small dogs it can also be used on reptiles and even small gators. Humane designed to prevent "too tight" closure on the animals neck. Length: 38" Weight: 3 lbs Anodized Aluminum construction

Item #RG4010 \$81.10

Collapsible Snake Tongs

Stay snake-safe with these quality snake tongs. This durable tool is for professionals as well as first timers. Easy to operate, lightweight, and humane and will fit under the seat or in a side compartment of your vehicle so it is ready when needed. Extended Length: 40" Weight: 3 lbs Anodized Aluminum Construction

Item #RG4100 \$83.40

Ketch-All Pole

Manufactured in the USA since 1952 this pole was designed by Ketch-All Company and is used by animal control professionals and animal rescue personnel around the world. The pole is famous for its versatility – from an animal up a tree, under a building, or in a storm swollen stream, the animal can easily be rescued with a Ketch-All extension pole. When retracted, it may be used as a heavy duty restraining device. Made from aircraft grade aluminum for long life. Size: Extendable 4-6 feet

Item #RG4050 \$115.00

Recovery/Cargo Net

This dual purpose net has many uses such as securing equipment to your rescue craft or emergency vehicle. Recommended by Swiftwater Recovery Specialists™ for use during body recovery operations or parbuckling techniques. Built with a border of 2" webbing for strength and has multi-attachment points for strapping. Nine 4' HD straps included Sizes: 60" x 80"

Item #MS4525 \$69.95

RQ3 Rope/Gear Bag

This RQ3 Rope/Gear bag is designed so that you have your rope and rescue hardware in one place. The top is made of pack cloth for easier closing. There are two exterior pockets for pulleys, prusik and webbing, with two daisy chains to attach your carabiners and other hardware for easy access. Other features include shoulder straps, rolled seams and extra fabric reinforced around the bottom grommet. A loop on the inside keeps rope in place. Made of 1680D Polyester and holds up to 200' of ½" rescue rope. Dimensions: 27" x 9" Color: Black/Grey

RQ3 Storm Jacket

Rescue Source designers worked directly with the manufacturer so we could offer this all seasons jacket with the features we feel are necessary to cover all types of scenarios. Made of waterproof and breathable fabric for any of the weather conditions you may face, the Storm SAR jacket comes with a removable fleece liner, which can be worn separately, that when combined with the shell create a jacket suitable for even the coldest climate. The shell features underarm zippers and mesh backing for comfortable warm weather use. Rows of Molle attachment points on the shoulders, upper arms, back, and front allow users to add pockets to customize the jacket. No matter what your needs are in a jacket, this jacket is the **ONLY** one you will ever need! Color: Red/Black Sizes: M-XXL

RQ3 Storm Pants

The Storm Pants are made from the same waterproof and breathable fabric as our jacket to keep the elements out. Designed to wear over your duty pants or for insulated layering. An elastic waist, zippers up the side of each leg that are 12" in length, and snaps on the cuffs, all help to make it easy to don or doff with a minimum of effort. Other features include extra wide belt loops that will handle a 1 1/4" belt, two large cargo pockets with drain holes, a back pocket, and reflective tape around each leg. One of the most versatile weather-proof jacket and pant set that you can find! Color: Black Sizes: M – XXL

RQ3 Rak-Pak™

The Rak-Pak™ allows you to customize your hardware storage for your specific technical hardware needs. The lower half has carabiner pockets and 2 long gear pockets that are permanently attached. The carabiner pockets are designed to hold 2 or 3 carabiners, of nearly all sizes, and these pockets have Velcro flaps and mesh fronts so you can see what is in each one.

The upper half has been designed to allow users to move and customize the pocket configuration to fit their specific equipment needs. The Rak Pak uses the MOLLE system which was designed by the US Military. There are several rows of MOLLE attachment points, allowing users to attach any MOLLE pocket. (RQ3 Gear Molle Pockets available online).

We offer 3 different set-ups to choose from. The basic Rak-Pak™ comes as shown with our standard pockets, without any gear. The second option is the basic Rak-Pak™ with all of the gear included. The third option is to customize the Rak-Pak™ to your needs, starting with the Rak-Pak™ with the built-in pockets, and then choosing the MOLLE pockets you want for your specific gear.

This system allows you to easily carry and keep track of all your gear. Pack it, fold it and carry it (like a briefcase)! Color: Orange

Kit includes:

CMC ProSeries Radio Harness

Back straps provide great comfort while keeping the harness stable. The radio pocket is easy to adjust and fits a wide range of radios. The front of the outside pocket has a strap for taping on a smoke can. The pocket flap has a place to clip a speaker mike. The large panel pocket closes with hook-and-loop and can be used for note pads, folded maps, or an extension antenna. Shoulder straps have elastic loops to keep track of the ends. The loop on the left shoulder can also be used to secure the end of your antenna. Made of 1000 denier Cordura nylon for long wear under rugged conditions. Color: Black

Item #HA1245 \$79.00

RQ3 Radio Harness & Waterproof Bag 3 in 1 Radio Harness

The RQ3 radio harness carries most standard size hand-held radios on the user's chest where it is protected from impact and yet easily accessible. It comes with the Aquapac Military Grade Waterproof Radio case to protect your radio from water, sand, and all the elements. The RQ3 harness can be used with or without the waterproof pouch, and the Aquapac radio bag comes with its own harness system to be used independently from the RQ3 harness. This 3 in 1 system covers it all. The RQ3 harness has a mesh back for cooler wearing and fully adjustable straps. Color: Black

Item #HA1350 \$73.95

Aquapac Waterproof Military Grade Radio Harness

The Aquapac Waterproof Radio Harness is made of a military-spec, super tough reinforced material. It is guaranteed 100% waterproof to 15' and is also dust and sand proof, which allows you to use your radio safely in all kinds of conditions. You can use your handset normally in the case with only minimal volume loss.

Color: Black w/clear front

Size: Full length: 13", Body length: 7.2", Max circumference 8.5"

Features Include:

- Comfortable shoulder straps
- Foam padded rear section for extra comfort & protection
- It floats!
- Can be used with both left and right hand antennas
- A tough, 3 way adjustable harness and integral easy grab handle

Item #HA1300S \$58.00

Aquapac Waterproof Radio Cases

Aquapac's classic VHF radio cases are designed for everyday use. In addition to being waterproof they allow you to easily use your radio through the case. They also come with a neck cord for easy carrying. Sizes: Standard (Max circumference 7.6", length 7") or X-Large (Max circumference 8.7", length 8.7")

Features Include:

- Guaranteed submersible to 15'/5m & keeps out the dust & sand too
- Use your radio normally in the case as sound & signal pass right through the case material
- The airtight seal means your radio will float safely if you drop it in water

Item #BG1420S Standard \$36.00

Item #BG1420L X-Large \$36.00

Aquapac Map Storage Bag

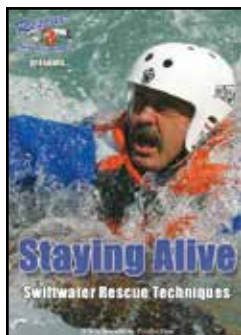

This is a great storage bag for maps, charts, or documents that you want to keep protected from the elements. The patented Aquaclip™ sealing system guarantees to keep your items dry to at least 15'(5m). It is designed with 4 eyelets for easy attachment to canoes and kayaks. Size: 17.3" x 11.5"

Item #BG1430 \$46.00

RQ3 Training Video: Staying Alive

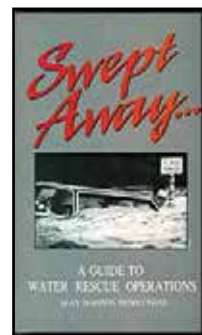

The RQ3 Staying Alive film is a must for all water professionals! Whether you use it as a training aid or as a new and updated addition to your rescue training/resource library, it is an essential tool for understanding the latest in rescue techniques. For instructors, this video will enhance your teaching process and increase students' comprehension of hydrology, rescue organization, rescue techniques, and equipment. As an informational tool, it also contains many scenes of live footage and actual rescues. DVD, 45 min.

Item #VH1815D \$49.50

Swept Away—A Guide to Water Rescue Operations

This classic training film clearly explains, through demonstrations, the safest and most effective water rescue techniques. "Swept Away... A Guide to Water Rescue Operations" is an invaluable resource for any emergency personnel who are called upon to respond to water-related emergencies. The film was produced by Alan Madison Productions - one of the leading producers of outdoor education films in the country. DVD, 30 min.

Technical Rope Rescue: Technician Level

by Rescue 3 International

This manual is the basic text that is used in conjunction with Rescue 3 Technical Rope Rescue course. This is the first time we have offered it to the general public as a resource guide. The manual includes sections on rescue philosophy, size-up, rescuers safety as well as rescue operations in all sorts of terrain. Compiled in collaboration with some of the best in the business this will be a great addition to any rescuer's library. Pages: 184 with over 100 colored illustrations. Spiral bound Author and illustrator Rick Webber

Item #BK2125 \$39.95

Swiftwater Rescue Field Guide

by Slim Ray

Technical Rescue Field Guide

4th Edition - by Tom Pendley

Now in its fourth edition, this guide covers the broad spectrum of rescue incidents. Separation of the skills by Awareness, Operational and Technician levels help users perform within their training level. Check lists help organize planning, making sure all the critical elements are addressed. Pocket sized so you can keep it with you or in your equipment cache. 160 pages.

Item #BK2740 \$22.50

The Swiftwater Rescue Field Guide is something that every emergency responder needs to have close at hand. Tough, waterproof and made to fit in a pocket, a glove compartment, or an emergency response pack, this is the ultimate field reference for swiftwater rescue. Topics include basic rescuer safety considerations, river hydrology, equipment, shore-based, boat-based and in-water rescue techniques, knots, rigging for river rescue, helicopters, incident command, and special situations like low-head dams and flood channel rescues. It's written by Slim Ray, author of Swiftwater Rescue and an internationally recognized authority on the subject. 78 pages.
