

Credits, Articulations & Prerequisites

Credits:

Cross credit with some academic courses (including 4th year related math, VPAA, math & science) may be available and will be reviewed on a case-by-case basis with each district's counseling department.

Articulations:

- Washtenaw Community College
- Wayne County Community College District

Prerequisites:

- Junior status
- Grade of C or better and instructor approval to go on to the advanced level

This program offers excellent career opportunities for both male and female students.

Program Description

The Collision Repair program is designed for student interested in auto collision as a career choice. The program curriculum includes Auto Collision Repair and Refinishing, I-Car Live, and various power points and DVDs that will emphasize skills for entry-level jobs including safety, basic repair techniques, paint safety, undercoat/topcoat systems, HVLP spray gun technology, estimating, PDR, and detailing. The instructor and program are ASE / NATEF certified.

The advanced level is designed for students to receive actual hands-on instruction in the repair and refinishing of the automotive body. The students will use the skills they have learned in the previous year and will repair automobiles with the use of estimates and repair orders. The students will develop skills to enter the auto body industry as apprentices upon completion of Collision Repair.

Special Features

Leadership and work-based learning opportunities available. A custom paint class is also part of this course.

STATEMENT OF COMPLIANCE

The Downriver Career Technical Consortium complies with all federal laws and regulations of the U.S. Department of Education. It is the policy of the Downriver Career Technical Consortium that no person on the basis of race, color, religion, national origin or ancestry, age, gender, marital status, disability or limited English proficiency shall be discriminated against or excluded from participation in any program or activity to which it is responsible or for which it receives financial assistance from the U.S. Department of Education. Furthermore, the consortium will encourage participation by all of the above.
