

10.30.23

Dear Dr. Lewis, FOF Board, and Fairchild Staff members,

I wanted to clarify and further explain my comments regarding “targeting” from our last FOF Board meeting 10.11.23. Please note that my documentation below is very concerning. I would hope that others with knowledge of such serious matters would also share it. I have no doubt many would say I have an obligation to tell others. This information has been kept from the public; the technology aspect of targeting is acknowledged by the military and known by the government. See transcriptions and lectures from Dr. James Giordano, neuroethicist, linked at the end of this letter – he teaches this technology to students at West Point, Naval Academy, etc. See also the link to Dr. John Hall, anesthesiologist in Texas, who is a “Targeted Individual” (TI) and discusses his and his patients’ experiences with both the technological assaults as well as physical stalking and harassment.

Read this letter, or not, as you wish. However, if you do read this, I think you will appreciate that you have been informed. Concerns involve our organizations, including Fairchild, University of Miami (UM), and Miami-Dade County, with UM complicit (more below), and the County likely as well - knowledgeable at the least. There are funding sources that would find “targeting” repulsive, and to me, what Fairchild stands for is indeed antithetical to this barbarous practice. Below I have a small amount of my total documentation that has been submitted thus far to local and other overseeing authorities. This includes some of my reporting as well as links to transcripts and videos of expert testimony, including Giordano, a Pentagon Advisor and Georgetown Professor; Dr. Robert Duncan, ex-CIA/Harvard tech developer now whistleblower; Julianne McKinney, Army Intelligence Officer (deceased); and Dr. Hall. The latter three are TIs. I am always glad to answer further questions and share more documentation.

Unfortunately, many universities are of utmost concern in these regards. Yes, they do important scholastics, outreach, and work for the community, but there is a much darker aspect. I worked at UM for twelve years and my concerns are based on the history of illegal experimentation associated with universities (more below), direct knowledge, and impressions. UM has no oversight to speak of (verified in emails with the State), in large part because they are private. They have also housed the second largest CIA hub for decades. Scarier than UM having questionable oversight, is the fact that the CIA basically oversees their own programs. Everything is “secret”, and only a few know the “projects” the CIA is working on at any given time. At the links (Church Committee, MKULTRA) on the next page, you will see that these “projects” have included horrid acts of human medical “research” associated with universities. I believe I assume correctly that UM’s impunity in these matters I describe is facilitated by their association with the CIA. Would UM have committed Medicare fraud, etc. regardless? Probably. However, the barbarity I describe absolutely speaks to something much more sinister and entrenched.

One of the matters I report here is CIA technology being used against the public (see Duncan, others below). There is a lot online about targeting and Targeted Individuals. At our last FOF Board meeting, in briefly speaking about people maliciously infiltrating our US organizations (not the words I used then), I suppose the term “agitator” is appropriate in some respects. I did not use that term but that is what was in the meeting minutes (att). I had said that outside entities are in our organizations and targeting people. I gave examples of my American Legion local and of the current Senate hearings regarding targeting by the FBI. <https://www.washingtonexaminer.com/news/house/watch-live-house-weaponization-committee-holds-hearing-with-three-fbi-whistleblowers>. Also, Chris stated “politics” is not appropriate here – I told him this was about the Constitution, not politics. Strangely, his comment

2/9 - was exactly the same as my local Legion Chair's when I brought up the Constitution there, although in that case, up-holding and defending the US Constitution are the Legion's primary stated purposes. Part of my Legion complaint in those regards is below.

These entities are much scarier than "agitators", as you will read below. They also deliberately insert themselves in most, if not all civic and social organizations. These people are actually rogue elements of our intelligence apparatus and their proxies, and appear to want nothing less than to overturn the Constitution (more details below). To me, this is treasonous, and I prefer much harsher terms for them. Much of my documentation here has been submitted to MDPD and/or their overseeing entities as well as filed with the Courts, including the experiences I have listed below, expert testimony, and many of these links. This is a minute amount of all my personal documentation, and I am glad to share more upon request. My apologies that this letter is a bit lengthy, but I did want to include parts of submitted reports that involve some of these concerns.

I wish the above referenced Senate Committee investigating FBI targeting (Subcommittee on the Weaponization of the Federal Government) was more like the 1975 Church Committee, but it is a very revealing process none-the-less. The FBI has a long, sordid history of Stasi tactics. The FBI's COINTELPRO program goes back to Hoover. This "Counter Intelligence Program" against Americans included following and otherwise surveilling, eavesdropping, blackmailing, blacklisting, compromising, and killing people who questioned government policies, were whistleblowers, incorruptible, etc. That mentality and methodologies never ended, and they are being investigated for the same types of crimes now. <https://en.wikipedia.org/wiki/COINTELPRO> "...While COINTELPRO was officially terminated in April 1971, domestic espionage continued..."

[https://en.wikipedia.org/wiki/Church\\_Committee](https://en.wikipedia.org/wiki/Church_Committee) "...The Church Committee (formally the United States Senate Select Committee to Study Governmental Operations with Respect to Intelligence Activities) was a US Senate select committee in 1975 that investigated abuses by the Central Intelligence Agency (CIA), National Security Agency (NSA), Federal Bureau of Investigation (FBI), and the Internal Revenue Service (IRS)... The most shocking revelations of the committee include Operation **MKULTRA**, which involved the **drugging and torture of unwitting US citizens as part of human experimentation on mind control**:[1][2] **COINTELPRO**, which involved the **surveillance and infiltration of American political and civil-rights organizations**:[3] and Family Jewels, a CIA program to covertly assassinate foreign leaders.[4][5][6][7]

It also unearthed Project **SHAMROCK**, a program in which the major telecommunications companies shared their traffic with the NSA, and officially confirmed the existence of this signals intelligence agency to the public for the first time..."

<https://en.wikipedia.org/wiki/MKUltra> "...**MKUltra** was preceded by Project **ARTICHOKE**. [8][9] It was organized through the CIA's Office of Scientific Intelligence and coordinated with the United States **Army Biological Warfare Laboratories**. [10] The program engaged in illegal activities, [11][12][13] including the use of **U.S. and Canadian citizens as unwitting test subjects**. [11]: 74 [14][15][16] **MKUltra's** scope was broad, with **activities carried out under the guise of research at more than 80 institutions aside from the military**, [17] including colleges and universities, hospitals, prisons, and pharmaceutical companies. Rogue in these same intelligence agencies continue to “work” at the behest of the powerful. Here in Miami that includes the University of Miami and I believe as well, high-level County officials. Even Miami-Dade Police (and other police nationwide) are compromised as they are forced to be complicit in targeting by ignoring complaints, “looking the other way”, etc.; a vile situation they likely have no choice about (see Duncan, Hall, McKinney below). Of concern as well is that MDPD appears to be doing all it can to thwart any oversight, something we should all demand they, and all law enforcement, must have.

(<https://www.miamiherald.com/news/local/community/miami-dade/article279203364.html> Panel was supposed to review Miami-Dade police abuse. Three years in, it hasn't happened Miami Herald 10.6.23)

The **Brennan Center** and **ACLU** have written excoriating reviews (see online) about the “**Fusion Centers**” in every state. These centers were set-up after 9/11 to allow access to all our personal information, by all law enforcement, including the FBI. This system continues to be used in abusive and illegal ways as it is **without sufficient oversight, checks/balances, need to know**, etc. Furthermore, targeting is facilitated as target names are often flagged statewide, with their complaints to police and medical going nowhere to avoid further investigation of these illegal activities. (More on this a few paragraphs down including the Targeted Justice lawsuit regarding **illegal and secret listings of whistleblowers, those uncorruptible**, etc. under certain codes in the FBI’s **Terror Watchlist**. Trey Gowdy speaks to these broader lack of due process concerns: <https://www.fitsnews.com/2015/12/16/trey-gowdy-on-due-process/>.)

When I worked at UM as a Tumor Registrar, I reported cancer data manipulations in violation of State law. The department manager, Stuart Herna, threatened me because I had “complained about a lot of people”. (I reported this threat to City of Miami Police.) A lead UM worker, Susanna Arias Morales, also told me pointedly that she had a “relative in the FBI”. I was fired after twelve years there when I reported that threat by Herna in my response to a good evaluation and offer of an approximately \$10,000 raise. I believe no one is above, or beneath the law, and am still reporting these horrifically unconstitutional actions that continue to this day - and am still being retaliated against for doing so. Just below see examples of heinous actions UM is capable of, without a second thought. I am currently seeking due process and justice (terms not in the vocabulary of these perpetrators) for all involved, for all our sakes.

So that you understand the depths of the depravity I am referring to, this is an excerpt from a letter to an overseeing entity regarding the hospital murder of my cousin, I believe in retaliation for my reporting Herna and UM to the Joint Commission: “... *The emails using military terminology to timeline the murder of my cousin, Joan Myers (Joan M), at Bethesda East are in Docket 101 (and other documents) as well. I saw Joan within the week of her murder and she was not imminently dying of anything. She had a chronic illness and this sudden weakness may have been caused deliberately to get her in the hospital (she had no security cameras at her apartment). She would travel a few times a year to UM/JMH in Miami for follow-ups. The date of her death was again a very common one mentioned in my reporting. Furthermore, I was a Tumor Registrar for 12 years (at UM), detailing medical histories including end-of-life. Joan was up, walking, and couldn't wait to go home; most of us would have known Joan was not in her final days (naturally). Of course, her medical chart will have false information. Unfortunately, it seems such manipulation is not at all uncommon. At the end of this email I have a list of some of these related links copied from my website: nonprofit, nonpartisan ourconstitution.info, the Medical-Military link under the Home tab. Others like Joan - poor, un/under insured, etc., are prime targets. Hate and retaliation are other reasons for these killings regardless of age, financial/insurance status, etc.*

4/9 - Joan's MD at Bethesda (apparently a UM medical grad) convinced Joan's next of kin (up north) to donate her cadaver to UM even though Joan's parents had years ago purchased a plot for her near them. I did not know she was sacrificed as a cadaver until after the fact, and had asked those relatives to get her out of there while she was alive. (I had reasons for concern and had filed a police report with Boynton Beach before I went to visit her.) In hindsight, I again see that more time, money, and resources from our "trusted" institutions were spend to maliciously plan all the aspects of this horror. As I have documented, including in the 24-pages sent last time (I will send/resend any/all requested), I realized the malicious capability of UM, their collaborators, and this medical-military (after Eisenhower), but Joan sounded even better when I called a few days after visiting, and I felt reassured. As evil as I know these entities are, I still wanted to feel they could not go that far, be that sadistically obvious... But that's who they are. UM loves to not only shock and appall, but entrap and/or compromise anyone they can. They truly savor it all. I later learned that Joan was also illegally in restraints when I had visited her, the restraints being reapplied whenever she got back in bed. This was so obvious, that as concerning as it was, I thought it must be legal. I realized it was not legal when UM later sent me a training on restraints after her death, as part of that year's job requirements. I never had a restraint training before that (in my 12 years there), and never needed one as I had no patient contact. This is one more indication of just how vile they are. I am mainly speaking of UM in these regards, but the retaliation against me escalated after the State completed its "investigation" into the cancer data manipulations I had reported as a UM employee..."

Although the CIA is supposed to "work" overseas only, UM and their CIA tenants illegally do each other's bidding. I have documentation of this used as retaliation against me (for reporting UM in another matter). The CIA is also infiltrating multiple entities of our society. The photos of media enclosed at the end of this letter name multiple professions CIA assets "work in" (in reality, this likely includes all professions) as well as noting that they also likely infiltrate all media and civic organizations. I also include there an ATT email that was responding to my phone unlock request. Please notice that I am referred to as "Judas". (I have also had my UM and personal email hacked, my phone hacked, and bank alerts turned off. I have reported much lost, "delayed", and opened mail via USPS and UPS, mainly regarding legal matters.) Unfortunately, as a Jew, very bad Jews (and non-Jews) are involved in perpetrating these crimes – and there is certainly no "Jesus" among them. UM likes to appear as an upstanding entity and involve themselves in local affairs, and many of their employees are indeed fine individuals. Unfortunately, their very bad elements act with impunity, compromising others, and often retaliating against anyone speaking up for what is right or who otherwise disagrees with them.

The links I sent with my email to this Board on 7.12.23 mention neuro-targeting – something both the CIA and FBI are involved in. (Neuro/energy targeting is a continuation of MKULTRA, mentioned above, and has been used against the public for decades. See links to Duncan, Hall, and McKinney below.) The tech is CIA in part (see Duncan) administered via the US military.

Most if not all people targeted are illegally and secretly listed on a portion of the FBI's Terrorist Watchlist

<https://www.youtube.com/watch?v=cPtKVco6gRc> (7:17 Attorney Toledo "...It's an uncontroverted fact because Mr. Timothy Groh admitted to it..."). Groh's statement under penalty of perjury 3.19.19:

<https://www.targetedjustice.com/uploads/1/1/6/3/116323993/2023sept-5thcircuitb.pdf> Ana Toledo is the attorney, and herself a target. The suit is **Targeted Justice v Garland, and plaintiffs include doctors,**

5/9 - **lawyers, engineers, other professionals, homemakers, and children. None are terrorists and would not fit that definition.** In fact, most targets are often whistleblowers, uncorruptible, etc. These people are referred to as **Targeted Individuals** and there is much online about this horrid harassment worldwide. Targeting is deliberately not in major media so that the public is unaware, and continues on.

As mentioned above, these rogue perpetrators abhor the Constitution and rule of law. Due Process is not in their vocabulary. Clearly this is something we should all be concerned about, especially as these powerful entities undermine investigations into related complaints by those targeted, including to police, medical, etc. This scarily appears to be a very high-level, dangerous coup in progress, threatening everything we stand for, and that those we love, have fought and died for. Next below, in quotes, are paragraphs from an email I sent to American Legion National offices in March of this year (as well as to oversight agencies). I had brought these concerns to the members of my Local because the American Legion and their Auxiliary Constitutions both state as their first listed purpose: "...uphold and defend the Constitution of the United States of America...". I asked that we have five minutes to speak on these and other concerns regarding the Constitution at our monthly meetings. Although I know others agreed with me, much like on the recent FOF Board vote for all plants to be free at FOF meetings, no one else voted for these five minutes regarding concerns for the Constitution, Our Rights, and Freedoms. Our Legion meetings are largely spent planning fund-raisers involving food and alcohol served at the Local.

*From my March 2023 letter emailed to American Legion National: "...These various "irregularities", "errors", contradictory statements, etc. I reported have been ongoing now for a while. If you do share this note with Linda, please cc me as well. I thought it weird that she changed the 5 to 15 minutes, and I recalled that I had mentioned (in email) my motion to you, including the 5 minutes. Perhaps she told you I had said 15 minutes? It may be prudent to have Legion investigatory staff know about this (or a hired investigator) and indeed find out who is involved, and ideally have the perpetrators arrested. Someone is using Nancy's identify as a Legion member to send letters, for one. That sounds like at least two Federal crimes. Someone is also "encouraging" this taunting and deliberate maliciousness - coercion is the more appropriate term - regarding my statements at meetings, (lack of) response to email/other questions, birthdate I believe as well, perhaps emails to the group not being sent to me, and desire to expose these concerning matters experts have testified to. I certainly hope these actions do not rise to the level of collusion on the part of Legion members. I do believe (most of) these members are likely scared by these elements, and the evil they represent. As mentioned, these situations are not unique to the Legion, but they are part of a well-documented pattern, ongoing years, with much similar and worse substantive, horrid details submitted to police and the Court..."*

Elsewhere in that March letter I include an email I had sent to our Local. In part: "...One topic I would like to see on the Agenda is discussion regarding the Legion, the US Constitution, and a few related matters. Legion and Auxiliary Constitutions both state as their first listed purpose: "...uphold and defend the Constitution of the United States of America...". Please note, this purpose is regardless of any politics or party a member may belong to. (The Constitution belongs to, and must be upheld by, all of us.) In fact, further down on both Legion Constitutions, in Section 2, they both state, "The American Legion [Auxiliary] shall be absolutely nonpolitical and shall not be used for the dissemination of partisan principles..."

*The reason I mention this is that it appeared to me that because I hand out pocket US Constitutions and/or have a website called ourconstitution.info, one or more Legion members have felt that I was conservative leaning (perhaps assuming Republican). More than once I have brought up this topic at our meetings to be told, "That's political and we are not political" or "We don't do politics", (or similar). I did respond that this is not politics, it is the Constitution. I also mentioned that I am nonpartisan. Just FYI - I registered as a Democrat since I began voting (this is online also) - but find the parties to be dividing us*

6/9 - deliberately. I refer to them as our vicious duopoly, and have voted for both. Washington hated parties, so I'm in good company. Unfortunately, it seems one may lose out on chances to vote in primaries if registered independent, so I have not changed parties. It seems we would be better off to get rid of them and just use our names.

Just to clarify - I did not know anyone's political affiliation here. However, at the last meeting when I mentioned my concerns again for the upholding of the US Constitution in society - someone got up and left before I could even finish my sentence. I have been polite to this person, even defending her stand on money allocation although I do not know her to speak of. I had listened to her point of view and thought her concerns were valid. It was after that last meeting that I began to believe that some here operate as do many in society - equating organizations that have the word "Constitution" with conservatives. Obviously, some were not listening to me, did not want to listen, and concerningly seemed to be just trying to shut me down. Regardless of party or politics - there are entities who foment the concerns I have documented, and absolutely want these "practices" to continue..."

This was a brief correspondence with a local Legion member also in March 2023:

That email is regarding a procedural question from the meeting.

Just curious - do you have a problem or concern with the US Constitution? it is for all Americans. We welcome all here - as long as they abide by these principles. These are Our Rights, and an important founding document of Our Nation. Which of those Bill of Rights do you disagree with perhaps? Perhaps "Due Process" doesn't sit right with you? Freedom of speech, press, assembly, religion? Right of the people to be secure in their persons and homes perhaps?

We all need to be careful what we wish for - those rights are more important in these times than ever.

Below are links to four expert witnesses mentioned above, with videos and transcriptions describing this energy technology as well as neuro and physical targeting. To show us that we are familiar with this tech, Giordano states "two words...Stephen Hawking". Yes, the tech can help people immensely, as well as

7/9 - harm to the deepest levels of depravity, the latter without one even realizing it. Nothing less than Free Will is at stake as it is possible to remotely, via satellite, insert thoughts, words, images (as “dreams”). The captor can know all the captive sees, hears, states, and in instances, thinks. The tech can control emotions and any body part, falsely cause “symptoms” to generate medical income, and/or kill in any way physical, including causing vehicle accidents, organ failure, etc. Deaths by this tech likely always appear “natural”.

I know of someone who worked at Fairchild some years ago who was also part of these illegal operations. I am sure there are others at Fairchild now. It might be an idea to screen for them upon application, but they would likely not admit that “work”, at least in writing. Many professions have secretive positions, but it seems none except the CIA include their entire workforce. This is concerning because of their history (briefly at page 2), tax-payer funding, and the abuses that total secrecy facilitates. These entities have access to all the money they want, and indeed feel they are above the law. So far, they have been. It seems Congress, Presidents, and high-level government officials throughout the Country are aware of this technology and its use against the public. Giordano and these experts (and many others) attest to this use against the public as well. Giordano lectures to West Point, Naval Academy, etc. in detail how we can, “assess, access, and affect the mind”, including remotely via satellite. This is no secret to those who could stop it.

What I have reported about UM (including much more than I detail here) is only a sliver of the maliciousness they perpetrate. I believe they kill for cadavers (as described above) and whenever they want to. Murders are easy to hide in a medical setting, and UM has not been shy about the unbridled power and abilities they have; they are deliberately, overtly, obvious in their evil when they want to be. It appears that lives are dispensable to them, and that they are acting for “UM’s greater good” is no doubt a certainty with them. They may even justify killing for cadavers, for example, as a greater value to medicine. I wouldn’t be one bit surprised. I would further say “eugenicists” is an appropriate term as well for them. In my opinion, they will justify killing to save money, as retaliation/hate, or any other

8/9 - reason, especially if the victim is old, poor, and/or otherwise “not up to their standards”. See much online about hospital murders. I will share several of these links upon request.

Of course UM has some of the most wonderful people there, and I know these individuals have no idea of these horrid concerns I am conveying. The concerns outlined here are likely matters that the Fairchild Board should be made aware of as well. Really, we all should tell everyone we can. This information is deliberately not in media much at all so that the public is not made aware, and does not demand that neuro and other targeting stop. Below please see some further links that should be of interest, along with the photos I mentioned including CIA infiltration into our organizations.

If anyone has further related information, please forward. I am glad to answer any questions and send my documentation and other information upon request. If you like, please share this letter and/or information with others. Thank you all again for your dedication and concern for America, Fairchild, and our community.

### CIA Admits 'Total Infiltration Of Civic Organizations'

September 1, 2018 | Sean Ayl-Fabrizio | News US | CIA (Continued)

The CIA has publicly admitted what conspiracy theorists have said for years: that they have infiltrated every single civic organization in America.

Hi -- Wondering who addressed the emails (below) to me from ATT? They used my other email which clearly has my name as Judy. My name as signed in my initial email to them is Judy (or Judith) ... ATT usually does not make these types of errors and I would appreciate this being looked into and corrected. Thank you. Judy
