About Donna

Donna is a National and International agility competitor who consistently places in national events; a 20-time national agility finalist in USDAA, AKC and UKI. Although she has accomplished many goals with her own eight dogs, it is the success of her students that makes her proud whether they are earning multiple MACH, ADCH and ATCHs with their dogs or just building stronger bonds with their dogs.

Young dog/new dog handling – just jumps and tunnels

Just started classes? This workshop is for you! These workshops complement your classes! We take the time to break down these fundamental crosses.

Run and Gun – Fast and furious UKI Jumpers class

For intermediate to advanced teams - dogs and handlers just starting to compete in premier and master challenge.

Run and Gun 2 – same thing, different time 😊

For more advanced teams –dogs and handlers that are already competing in premier and master challenge.

New Puppy/Young Dog Primer

Get your young dog started on their right paw! Impulse control, building drive, play and much more 😊.

WHY TRAIN WITH DONNA? I have been training dogs professionally since 2001 and I have trained 9 of my own dogs to the highest titles in USDAA, AKC and UKI competition. I am forever a student of dog training and continuously attending workshops and seminars with both European and USA top handlers. While my dogs and I have had many personal successes, I am happy that my teaching has led to the success of many of my students, whether in the competition agility ring or simply having the joy of connecting with their partner in a safe and fun agility class. Many references are available upon request.

MYTH BUSTERS ABOUT DONNA:

Myth: I only teach Border Collies and only like certain breeds.
Busted: Come and watch any class and you will see all breeds, large and small! Border Collies are my chosen breed but WOW there are a lot of great agility dogs of all breeds. My amazing students include: All-Americans (mix breeds), Golden Retrievers, Labs, Briards, Miniature poodles, Cavaliers, Briards, Papillons, Rotties, etc.

Myth: You won't learn CPE from Donna. Busted: I teach **AGILITY!** So whether you are interested in AKC, CPE, USDAA, ASCA or any other agility organization, it is all agility and it should always be taught with the enjoyment and safety of the dog.
