

## Out of Warranty Prices and Procedures

Levil Aviation warrants all products to the original purchaser to be free from defects in material and workmanship for a period of one year from the date of the original purchase. The following are not covered: software, damage resulting from accident, neglect, misuse, improper voltage supply or failure to follow operational guidelines supplied with this product.

The following table lists the prices for damages not covered by the warranty:

### Not covered Repair Price List (In-warranty)

| Damage   | Price  |
|--|--|
| Software   | \$25   |
| Improper Voltage Supply  | \$50   |
| Damage resulting from accident, neglect, misuse, and failure to follow operational guidelines supplied | Determined based on the type of damage after the iLevil is inspected |

Please contact us to receive an RMA # and for payment procedures.

If your iLevil is out of warranty there are trade in, upgrade, or repair options available.

#### Hardware Trade In

If you own a Gmini, an iLevil 1 or an iLevil 2, receive an online discount for \$400 on your purchase of an iLevil 3 when you trade in your existing hardware. Purchases must be made directly from our website.

**Pros:** You'll get a brand new iLevil, with all the additional benefits of the newest released iLevil and new one year warranty.

Here are the steps to upgrade to an iLevil 3:

1. Ship your current hardware to: 1704 Kennedy Point. Suite 1124. Oviedo, FL 32765  
ATT: RMA - Trade In
2. Include all the accessories you can find, we'll send you new ones
3. Purchase your new iLevil3 SW or AW using this links:

<http://shop.levil.com/products/ilevil-2-sw-trade-in>

<http://shop.levil.com/products/ilevil-2-aw-trade-in>

## Hardware Upgrade

**iLevel 1** - This option allows you to keep your current hardware platform and upgrade the ADS-B module only. We will replace the ADS-B circuitry inside with a dual-band receiver and upgrade the current firmware to support the new 1090 MHz traffic.

**Pros:** You'll get a better picture of the traffic information, even when ground towers are not transmitting traffic information.

**Cons:** There will be a drop in battery life (1 hr), no improvement on ADS-B sensitivity, no warranty update.

Here are the steps to update your current hardware:

1. Ship your iLevel1 to: 1704 Kennedy Point. Suite 1124. Oviedo, FL 32765

ATT: RMA - ADS-B Upgrade

2. Purchase your new ADS-B board using this link:

<http://shop.level.com/products/ads-b-upgrade>

**iLevel 2 - Option 1:** This option allows you to keep your current hardware platform and upgrade the GPS module with a certified GPS module.

**Pros:** GPS source meets the position source performance requirements of §91.227 for ADS-B OUT in the experimental and light sport aircraft market. Ability to communicate with currently installed transponders (mode-s), to activate extended squitter, meeting ADS-B mandate for 2020 on experimental and light sport aviation.

Here are the steps to update your current hardware:

1. Ship your iLevel1 to: 1704 Kennedy Point. Suite 1124. Oviedo, FL 32765

ATT: RMA - GPS Upgrade

2. Purchase your new certified GPS board using this link:

<http://shop.level.com/products/certified-gps-upgrade>

*Option 2:* This option allows you to keep your current hardware platform and upgrade the SD port for SD Data Recording like the iLevel 3.

**Pros:** Get the latest feature of the iLevel 3 with your iLevel 2 and record and replay you flight data using Google earth, excel or X-Plane.

Here are the steps to update your current hardware:

1. Ship your iLevel1 to: 1704 Kennedy Point. Suite 1124. Oviedo, FL 32765

ATT: RMA - SD Upgrade

2. Purchase your new SD port upgrade using this link:

<http://shop.levil.com/products/ilevil-2-sd-port-upgarde>
