Devcon®

Bonding & Repair Solutions

USDA Accepted
for

Food Processing Plants

Devcon offers an extensive line of products to repair, rebuild and resurface all your needs in the food industry. Devcon products have all been accepted under the former USDA Food Safety and Inspection services product approval program, and has been used in this industry for years. Devcon has adhesives to secure machinery, metal filled systems to rebuild worn/fatigued metal, and coatings to repair and protect your floors.

Our adhesives consist of epoxies, anaerobics, cyanoacrylates, silicones and methacrylates which can be used to bond dissimilar substrates and able to withstand moisture and cleaning solvents daily.

Devcon has the USDA accepted product for your plant needs.

For more information on this and our entire line of Build, Repair and Maintenance products, please call: 1-800-933-8266 or visit our website: www.devcon.com
