About Us | How LTC Began

When the crystal methamphetamine epidemic escalated on the Big Island of Hawai'i in the late 1990's, Dr. Jamal Wasan responded by founding the Waikoloa Community-Based Substance Abuse Rehabilitation and Recovery Program, which is now known as Lokahi Treatment Centers (LTC).

Dr. Wasan quickly learned that drug abuse was not an isolated problem and expanded LTC services to create an integrated model to address related mental health and anger issues.

Today, LTC provides services island-wide and has offices in Hilo, Honoka'a, Kailua-Kona, Kohala, and Waikoloa. LTC is a 501 (c) (3) nonprofit organization.

Alahele Mentoring Program

(Alahele: pathway)

A critical component of sustainable recovery is helping clients to find a new path in life.

Unique in our approach to treatment, LTC has integrated the best practice of mentoring, which creates a therapeutic alliance to empower clients to reach their full potential.

Volunteer mentors meet with a matched mentee for face-to-face meetings once a week for six months. While clients are on their journey to health and wellness, they will have a mentor that can provide them with ongoing support towards education, job training, and employment.

This program is voluntary and available to all LTC clients at any level of care.

**If you are interested in becoming a mentor,

Our Mission

To provide the highest quality mental health and substance abuse treatment services that are culturally appropriate to Hawai'i Island adults, adolescents and children.

Our Vision

We envision all of Hawai'i's adults, adolescents and children to have optimal physical and mental health; where mental health, substance abuse, dependency, and addiction are recognized as health issues; and where stigma and other barriers to recovery are eliminated.

LTC Guiding Principles

- We believe in the highest level of care, while respecting cultural values.
- We believe in outreach and assessment of community needs; and advocacy for the provision of those needs.
- We believe in strength-based and client centered treatment supported by linkages and referrals to other community-based resources and agencies for continued recovery.
- We believe in a non-judgmental approach with compassion, respect and dignity.
