SUMMARY:

The Reliability Specialist position provides leadership, expertise, and direction to facilitate a culture of continuous improvement with regards to efficiencies in the plant. The primary purpose of this role is to develop and implement actions to deliver improved equipment reliability through the identification of top losses, evaluation of work processes, and management of repair and maintenance activities. These actions will include, but are not limited to, development of systems and standards to improve skill levels, improve job plans, drive to root cause, and increase efficiencies within the maintenance and production departments.

RESPONSIBILITIES:

- Supports the Planner and Predictive Maintenance groups.
- Leads all Reliability systems to include, but not exclusive to: CBM, PdM, TBM & Lubrication.
- Leads Loss Identification systems to include, but not exclusive to: BDA, RCA, SRC, Parato Analysis, Component LifeCycle, Engineering, Stress Analysis.
- Provides recommendations and data, for equipment reliability improvements.
- Works with MRO team to manage spares strategy to include, but not exclusive to: Critical Spare analysis, purchasing processes.
- Works with area Planners to develop and maintain PM, PdM, and Lubrication routes.
- Works with Production Team Leaders to maximize reliability improvements.
- Provide coaching to applicable entities to understand and achieve reliability improvements.
- Participates in LOC (the company's Operating Culture) systems to improve reliability. Actively participates with EM, PM, &AMD Pillars.
- Assists in the development, management and completion (compliance) of an effective PM program.

REQUIREMENTS:

- Bachelor's degree in Mechanical Engineering or related technical field preferred.
- Preferred experience in manufacturing.
- CMRP & CRL certifications preferred.
- Must be computer literate; experienced in using computer software applications such as CAD, Microsoft Excel, Word, PowerPoint, MS Project Management, etc.
- Prior experience with CMMS system, preferred knowledge of SAP CMMS system.
- Basic accounting knowledge preferred.

- An equivalent combination of education and experience may be substituted for the stated requirements.

COMPENSATION:

- Base Salary
- Full Benefits
