

Quality, Health, and Safety Policy

This integrated policy statement provides a framework for setting and reviewing our Quality, Health, and Safety Management System (QHS) Objectives and Targets for Sigma Composites LLC.

Sigma Composites is committed to delivering best-in-class complete solutions for all aspects of Composite Piping Systems covering Engineering, Supply, Prefabrication, Installation, Inspection, Testing, Commissioning, Maintenance and Repair services. Through continual review and implementation of our QHS Management System, Sigma Composites shall cater to the requirements of all our stakeholders, improve their satisfaction level and expectations, while also adhering to all relevant legal requirements where we operate.

The successful delivery of our products and services shall be the direct output of our expertise, dedication, and an efficient QHS Management System that fully complies with the requirements of ISO 9001-2008 and OSHAS 18001-2007 standards.

Sigma Composites shall maintain a safe, healthy, and productive work environment, ensuring prevention of any injury or ill health of all our employees as well as others who are affected by our operations. Our efforts shall also encompass maintaining a robust communication channel with all our stakeholders. We are committed to working together in order to achieve excellence in all aspects of our operations and improving the way we work each time, every time.
