

## WORK STOCK SEMI

- 1) Vehicle must have working suspension.
- 2) Water injection is not allowed.
- 3) Maximum hitch height of 24".
- 4) Electronic engines max RPM 2350, Mechanical engines 2500. **(23)**
- 5) RPM pickup required. Non points vehicles will be given a 2 hook grace period before pickup is required. **(24)**
- 6) Maximum vehicle weight is 22,000# with the hitch. Hanging weight allowed from the center of drive axles to the center of the steer axle. **(24)**
- 7) Points members must have their own hitch. Hitch must be fabricated with a minimum 3/8" thick material. **(24)**
- 8) Any DOT approved tires are allowed. (16)
- 9) Only Diesel and Bio-Diesel fuel may be used. No alcohol, nitrous oxide, propane, or oxygen enhancing agents allowed.
- 10) It is recommended to have a scatter blanket and/or steel flywheel.
- 11) **Speed limit of 20mph (16)**
- 12) **Trailer is NOT permitted.**
- 12) When scoring points, all speed DQ's will receive last place points. (i.e. 10 pullers and 3 are DQ'd, the 3 DQ's will receive 10th place points.) Only exception are non-speed DQ's. Non-speed DQ's will finish behind a speed DQ. (23)
