

# Unite London and Eastern Legal and Affiliated Newsletter

## Unite's Energy Switching Group

Unite's Energy Switching Group has been created for our members as a new way to save money on their energy bills. Join forces with fellow Unite members and see how much we can save!

If you visit [www.unioncollectiveenergy.co.uk](http://www.unioncollectiveenergy.co.uk) you will see that it operates like an auction, where, once you register, energy suppliers effectively compete for your custom. There are several opportunities to register, the first being 4th April 2017. It only takes five minutes – it is FREE with no obligation to switch. Comparable schemes have saved members on average £300 per year.

What members can do next:

- Registration opens on 4th April and closes on 22nd May
- Auction takes place on 23rd May – energy suppliers compete for your custom and the supplier that offers the cheapest tariffs will get to offer you a new contract
- From 5th June, you will receive your personal offer and you will see how much you can save.
- You have until 4th July to accept the offer

Don't worry, if you have just signed a new contract with your current provider, you can still register and may still make a saving after paying any exit fees. If not, you can register again at the next auction in a few months' time.

## Extra Spends For Your Holiday

Need *extra* £££'s for your holiday?

Apply for a tax refund now and you could  
have your refund within 6 weeks!\*

\* Based on average refund time from HMRC.
