Custom Tool Box Can Be Added

Transportation Skid Options

Custom Transport Skid For Safe Hook Up and Storage

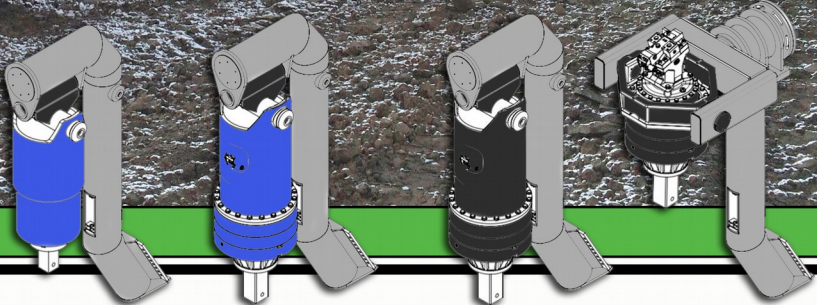

Hand Controller

- 2 Speed Drive
- Unlock
- Lock
- FWD
- REVERSE
- Speed Lock

Hand controller to operate proportional valve on machine.

Viper Series 35K - 115K ft Pds

The Viper Jib Series will accept all drive heads from 35k to 115k ft Pds - all on the same Jib with a different latch plate and wish bone.

Viper Jib has electric over hydraulic actuator to lock drive head to Jib controlled by provided hand controller.

King Cobra 115K - 150K ft Pds

The King Cobra Jib Series will accept all drive heads from 125k to 150k ft Pds all on the same Jib.

The top of the King Cobra Jib can be changed out from dangle head to U bracket set up to yield a longer pile.

The main Jib body can be extended with pin on sections.
