

Intec has further enhanced our popular FORCE/2!

Simplified Power Requirements

Two easily accessible 15amp circuits

Increased Production

- 96 bags/hr cellulose; 2400 lbs/hr.
- 23 bags/hr fiberglass; 700 lbs/hr.
- 70 bags/hr rock wool; 2100 lbs/hr.

Wheel Kit Enhances Portability

Ratchet strap allows for quick assembly

Hopper Extension

Increases hopper capacity by over 40%.

System shown with standard wired remote & 2-100' heavy duty LED power cords

The **FORCE/2 Next Generation** still comes with these industry leading components on which it has built its reputation for durability and reliability:

- ✓ **Polyethylene construction:** rust-free, lightweight, and extremely durable.
- ✓ **Urethane seals:** last 2-3X longer than belted rubber providing higher pressures & production rates over time with less maintenance.
- ✓ **Stainless steel airlock plates:** provide long wear life vs. industry standard airlock construction.
- ✓ **Direct-drive transmission:** fewer moving parts provides longevity with little maintenance.

Specifications

- Weight: 283lbs (175kg)
- Hose outlet: 3 inches (7.6cm)
- Transmission: Durable direct drive – no chains
- Electrical: 115VAC – 2 -15amp circuits
 - twist lock power receptacles
 - two 12/3 100' Heavy Duty power cords included
 - circuit breakers for agitator and blower
- Blower: 115 VAC – 15 amp input, two-stage generates exceptionally high pressure; variable speed.
- Agitator motor: 1-½ HP 115VAC-15amp input
- Hopper: 9 cubic feet (13 with hopper extension)
- Warranty: 1 year, limited.

Machine Features

- ✓ Wired Remote standard with *Intec Exclusive* impact resistant Urethane head.

- ✓ Industrial Grade Wireless transmitter (optional) comes with four placement options.

Jacket for Wrist or Hose

Lanyard

Belt Clip

- ✓ Polyethylene construction: rust-free, lightweight, and extremely durable – will not dent.

- ✓ Urethane seals: last 2-3X longer than belted rubber providing higher pressures & production rates over time with less maintenance.

- ✓ Stainless steel airlock plates: provide long wear life vs. industry standard airlock construction.

- ✓ Direct-drive transmission: fewer moving parts provides longevity with little maintenance.
