

Fairfield Regional Fire School

Firefighter One Certification

2020 Firefighter I Certification

The Firefighter I/Hazardous Materials Awareness - Operational is designed to prepare the student for State of Connecticut certification. The course fee includes the practical and written exam. Due to the physical demands of this program candidates should be in good physical shape. Students are expect to attend all sessions.

*TEXTBOOK: This course will be based on the Jones and Bartlett Fundamentals of Fire Fighter Skills, however the edition has not yet been determined. The approximate cost of the text will be approximately \$150 per student. The Certification Division of the CT Fire Academy is still working to determine which edition the test bank will come from. Registered students will be informed in early December regarding which text and will be given the opportunity to buy it through the fire school or privately at that time.
