

The Dharma Horses & their stories

Sage

Sage came to DH from a loving family who could not keep him. He was very sore and received much therapeutic massage. To heal his hooves, we pulled his shoes and let his hooves wear to their most comfortable, natural shape. Within a short time, he was able to compete in the Las Cruces Horse Trials with a student (the first CT competition for both of them) and they took second in their division. He had had colic surgery at age 3 years. We work hard to maintain his healthy digestion, keep his hooves and joints sound and keep him entertained!
