Homepage

Life is better with pets! At Country Companion Animal Hospital, we've provided quality pet care in Morgantown for over 20 years. We'll treat your pets like part of our family.

Our Team

Meet our experienced team of veterinarians and support staff.

Veterinarians

Lauren Jones, VMD

Dr. Jones is the proud owner of CCAH. She graduated from the University of Pennsylvania School of Veterinary Medicine and has been at CCAH since 2010. Dr. Jones provides medical and surgical services for dogs, cats, and exotic pets including rabbits, ferrets, pocket pets, reptiles, and amphibians. She especially enjoys reproduction and pediatrics, ultrasonography, wellness care, and preventative medicine. Dr. Jones is also the owner of the Animal Hospital of Chester County, our sister hospital located in West Chester, PA.

Morgan Agnew, VMD, DACT

Dr. Agnew graduated from the University of Pennsylvania School of Veterinary Medicine in 2013. Following graduation, she spent two years at Rood and Riddle Equine Hospital in the ambulatory department, spending a majority of her time managing pregnant mares, foals and yearlings. In July of 2017, she completed a two year residency in reproduction at the University of Pennsylvania and became board certified in theriogenology. Dr. Agnew joined CCAH in August of 2017. We are excited to welcome her to our family!

Casey Kurtz, VMD

Dr. Kurtz graduated from the University of Pennsylvania School of Veterinary Medicine and has been at CCAH since 2010. She is particularly interested in surgery and dermatology, and continues to explore non-surgical and supplemental treatments for common orthopedic and arthritic conditions through the use of stem cells, and platelet-rich plasma.

Carla Narducci, VMD

After successfully owning and operating CCAH until 2015, Dr. Narducci continues to practice on a part-time basis at CCAH. After graduating from the University of Pennsylvania in 1987, she began to pursue an interest in reproductive medicine. She then expanded into other services including freezing semen, semen storage, transcervical inseminations and fertility evaluations.

Amanda Wanner, DVM

Dr. Wanner graduated from the University of Illinois, College of Veterinary Medicine in 2014. After practicing medicine in an animal hospital in State College, PA last year, she is excited to be returning to her hometown to work at CCAH! She is most interested in exotic animals, internal medicine, and dentistry.

Scarlette Gotwals, DVM

Dr. Gotwals graduated from the Ohio State University School of Veterinary Medicine. She, in tandem with Dr. Narducci, developed CCAH's reproductive services, and continues to perform reproductive consults both nationally and internationally. See what Dr. Gotwals has been up to recently!

About Our Reproduction Services

For over 15 years, CCAH has worked with breeders all over the world to provide a full range of canine reproduction services, including:

- Ovulation Timing and Breeding
 - Physical exam
 - In-house progesterone tests
 - Vaginoscopy
 - LH testing
 - Breeding via artificial insemination, transcervical insemination, surgical insemination
- C-Sections
- On-site semen collection and frozen storage

The veterinarians at CCAH also perform reproduction consults, semen evaluation and help to manage other reproduction-specific conditions. We routinely freeze and store semen onsite that can be used months or even years later. Our experienced team of doctors, technicians, and support staff are hospital technicians are proud to assist with C-sections, whelping and perinatal care.

Dental Health

Dental health is one of the most important (and often ignored) parts of your pet's overall health. Dental problems can cause, or be caused by, other health problems. At CCAH, we recommend checkups of your pet's dental health at least once a year to check for early signs of a problem and to keep your pet's mouth healthy.

Learn more about maintaining your pet's dental health. <https://www.avma.org/public/PetCare/Pages/Pet-Dental-Care.aspx>

Our Friends and Family

We understand the special bond that our customers have with their pets, and strive to treat them as part of our family! (Gallery of pets).
