

STANDARD ROW STARTER FERTILIZER KIT FOR CORN PLANTERS & DRILLS

If you're looking for a way to put up to 11 gallons of seed-safe starter fertilizer or up to 5 gallons of regular starter in the row, this system will really help. By applying the fertilizer through KEETON SEED FIRMERS or TOTALLY TUBULAR TUBES, you will not have the expense of conventional fertilizer attachments.

KIT INCLUDES:

1. Red Ball Monitors
2. Row Orifices
3. Sureflow 12V Diaphragm Pumps
(Squeeze Pump, Variable Rate Diaphragm Pump or Piston Pump can be substituted)
4. 1/4" Air Line Hose for Row
5. Clamps, Gauge, Valves & Filters
6. Screens & Quick Change Orifice Bodies
7. Push Lock Fittings

The following kits have all components to go from the pump to the seed firmers. Tanks and wiring are not supplied due to variations between different planter makes. Additional hose may be necessary due to the way your planter folds or the number of tanks you have.
