

Washington County Emergency Medical Response Team Fund

On behalf of...

About Community Foundation of Washington County

In 2012 civic leaders formed *The Community Foundation of Washington County (CFWC)*, as a 501(c)(3) charitable, non-profit organization. The CFWC is able to receive tax deductible gifts to support non-profit organizations or charitable causes in Washington County and elsewhere. Like other community foundations, CFWC serves as a savings account for the community. The CFWC is governed by a strong 15 person Board of Directors and is one of 750 community foundations in the United States today.

The Community Foundation of Washington County accepts a wide variety of gifts, including: cash, stocks, life insurance, property, and bequests – all providing donors great flexibility and maximum tax benefits.

If you would like to donate to this FUND, please detach the section below and mail it to the Community Foundation of Washington County, or donate on-line at www.cfwashco.org and click on the "DONATE TODAY" button.

The Washington County Emergency Medical Response Team Fund was created in 2016 through an effort led by the Washington County Emergency Management Services in collaboration with Dr. Robert Corkern, Emergency Room Director at Delta Regional Medical Center.

The Washington County Emergency Medical Response Team is a volunteer team committed to the delivery of pre-hospital emergency medical care and the preservation of life through the delivery of pre-hospital emergency medical care and the prevention of injury through community education initiatives. This will greatly increase the response times throughout Washington County. The group has approved by-laws and medical protocols in place and will make a huge difference in the response times throughout our community, especially in the rural areas.

Providing a large county, with a busy ambulance service, volunteer service for medical care allows that professional provider to focus on the advanced life support techniques while the volunteer provides needed support, medical care and assistance. By having a system of county residents as medical volunteers --- the county is provided support to an intrinsic medical system that reaches every corner of the county.

Donors can contribute to this fund and play a significant role in the improvement of lives right here in Washington County, when they are faced with a medical emergency.
