

ELEMENTARY LEARNING FOUNDATION GRANTS

Awarded to **Washington Elementary School**

2000-2017

Year	Title	Description
2016	<i>Kindergarten Ready Set Work</i>	This project objective addresses the growing need to improve postural endurance and fine motor strength at an early age for all children. The project will provide each District 64 Kindergarten classroom an adjustable standing table that would be used during the Daily 5 instructional period and throughout the day. The standing table would allow an alternative option to sitting in the classroom
	Second Grade 21st Century Learning Environment	This project creates provide alternative seating and work areas in all 2nd grade Washington classrooms that enable flexible grouping and movement options for students, thus increasing their success rate and comfort. The objective is to promote active, engaged learning, and to promote health by strengthening their cores in the classroom environment where they spend the majority of their waking hours. This project also supports District 64's 202 Vision Strategic Plan Objective 5.
2015	Collaborate to Accelerate with Kindergarten Families	Helps incoming Washington Kindergarten families understand the Common Core academic expectations for D64 students. It provides resources prior to the new academic school year to help parents better prepare their children for this academically rigorous Kindergarten curriculum.
	Daily Guided Math Instruction	Provides differentiated math practice to meet second grade students' personal learning targets through the use of IXL software. After core instruction, students will be guided through their learning with teacher-directed small group instruction, problem-solving activities using math manipulatives, and in stations that include working independently with technology.
2014	<i>Social-Emotional Learning</i>	Sponsors community workshops on parenting emotionally intelligent children, led by Ed Dunkelblau, clinical psychologist and nationally known speaker on social-emotional intelligence, humor, and health.
2013	News Studio	This grant funds the creation of a news studio in which students can create video announcements, supporting creativity, civil behavior expectations, and added means of parent communication.
	<i>Nutrition Detectives</i>	This grant provides an enhancement to 2nd grade Health curriculum that gives students the tools to make the right food choices.
2011	<i>Imagination Playground</i>	This grant will be used to purchase a "Playground in a Cart" that will allow students to expand their creative thinking with giant foam blocks, mats, wagons, fabric and crates to build, play, dream and explore endless play opportunities. The Imagination Playground will be moved from school to school so all elementary children have the opportunity to experience this child directed free-play experience.
	iPad Art	This grant will be used to purchase iPads that will allow students in grades K-5 to create and practice art skills on a digital sketchbook. Students will also have the opportunity to save and share their artwork in virtual art galleries. This grant incorporates technology into the learning environment in a creative, expressive way.
	<i>Ukuleles</i>	This grant will be used to purchase 30 soprano ukuleles for students to play in music class. The ukulele is making a comeback in music education and will be used by fourth and fifth graders to play melody, harmony and rhythm all at once on a highly

		motivating instrument.
2010	Maine South Fine Arts Experience	All third grade classes in District 64 will be invited to collaborate with District 207's Fine Arts Department as they present "The Sideways Stories From the Wayside School". Third graders will participate in a variety of workshops to bring the drama to life!
2010	Study Island	In partnership with District 64, funds from this grant will be used to purchase a one-year subscription of a web-based instructional program - Study Island. This program will be used to assess and provide differentiated instruction in the key areas of reading and math. All students in District 64 in third through eighth grade will have access to this program at school and at home.
2009	Heart Adventure	An obstacle course where students physically move through a heart as oxygenated blood and go out as deoxygenated blood. The course has all anatomy marked. For all elementary schools as a week long activity.
	Physical Activity and Learning	Enhancing learning, memory, attention, and alertness through the use of specific physical activities drawn from such disciplines as yoga, Brain Gym, and development sequence. Students will incorporate specific movements twice a day. Additionally activities designed to enhance cardiovascular endurance and create brain/body connection as well as modifications to PE curriculum which will focus on endurance and postural strength. The effectiveness of these activities will be assessed through existing data collection.
	Smart Music	A music practice and assessment tool that will revolutionize the way students practice. Smart Music generates professional sounding accompaniments that help students learn how individual parts fit into context of composition, making practice more productive, enlightening, and enjoyable. It includes a built in assessment feature that provides students with immediate feedback.
	Social Skills Video	Filming students with autism demonstrating appropriate behavior and then having them watch themselves on film. Viewed in a natural setting within a familiar environment. Production and editing will be an interactive process with STRIVE students, staff, and regular education students (Best Buddies, peer models).
2008	Art Exhibit	Funding from this grant will allow forty works of art to be displayed in a new community exhibition at Le Peep restaurant. This project will create a sense of pride in our students, our community, and will also provide opportunities for children to learn and grow in the visual arts.
	Digital Photo Books	Funding from this grant will allow students, lead by teachers, to make digital photo books to align with curriculum. Each classroom teacher will utilize the digital books in a way to fit their class needs.
	Math Mania Event	This grant will establish a district wide math event, similar to the Science Olympiad for science. This math and logic experience will be for 3rd through 5th grade students from each of the five elementary schools.
	On the Write Track	Funding from this grant will be used to establish a 5th grade student writing conference with keynote speakers, breakouts, and a luncheon. This event will be set up like a business conference.
	Study Island	This grant will purchase a subscription computer diagnostic and instrumental program used as a way to assess, accelerate, and individualize curriculum. It provides opportunities for every student to monitor and become responsible for learning.
2007	Birdhouses	All 3rd, 4th and 5th graders in District 64 will work together with parents and teachers to create birdhouses that will be displayed in our community.
	Follett's Reading Program Services	This service will allow Lexile data to be added to our present library holdings.
	Project RIDE	Project RIDE is a software program and resource of supplemental materials to help educators and school teams address academic and behavioral challenges such as completing schoolwork, aggression, noncompliance, bullying, and other high frequency behavior

		and academic problems.
	<i>Starlab II</i>	Starlab, the much loved, blow up planetarium that can be set up in any classroom. Students enter the bubble then stars, planets, and constellations are projected onto the ceiling. This system allows teachers to instruct students on the night sky in the light of day. This is the second one funded by ELF for the district.
2006	<i>Gretchen Courtney</i>	A workshop to assist the District 64 Curriculum Department to work with the staff to improve writing instruction and reading comprehension skill development throughout the district.
	<i>Poetry Week</i>	A child's voice poetry week, co-funded with the generosity of Franklin and Washington's PTOs. Bill Buczunsky is a poet and performer who works with students to help them imagine, create and perform poetry. At the end of the week long interactive assemblies, the students will participate in an open-mic night in which they can perform their poetry to families and friends.
	<i>Sue Ellen Fried</i>	Further advancing the District's initiative to create a culture of civil behavior. International speaker, Sue Ellen Fried, specializing in bullying and conflict resolution will be returning to conduct a 2 1/2 day Train the Trainer Session with social workers and teachers from across the district. It will serve as a comprehensive plan to change the culture of our schools and community and to help students, staff and parents better understand and resolve conflict.
2005	<i>"Think Time" Math Problem Solving Manipulatives</i>	Funding from this grant will be used to purchase manipulatives used during Wednesday's "Think Time" so children can solve academic and non-academic problems.
	<i>Creating a Culture of Civil Behavior</i>	Funds from this grant were used to bring speaker to Roosevelt School. Sue Ellen Fried has spoken extensively and co-authored two books on bullying prevention. She presented to Roosevelt's students, Roosevelt's staff and district-wide lunch supervisors. In addition an interactive district-wide parents presentation was held.
	<i>Ocean Conservation Note Cards</i>	This grant will support an activity where students work in cooperative groups to research endangered ocean animals. The groups will design note cards featuring the animals, which will be printed and sold during Open House. All proceeds to be donated to the Shedd Aquarium. All second graders will participate.
	<i>Oral Reading/ Creating Books on Tape</i>	This grant allows students to raise money and purchase a soft cover copy of a story. Students then will practice reading the book to improve fluency, intonation, expression and appropriate speed. A professional audio engineer will then record each child reading. The children will subsequently design and create a CD label and write a summary of the story to be included in the CD jacket.
	<i>Scholastic Reading Counts!</i>	This grant will purchase a computerized reading program that supplies quizzes to test comprehension and vocabulary from books that students have chosen to read.
	<i>The Lindamood Auditory Conceptualization Test</i>	This grant will allow for the purchase of an assessment tool designed to identify children who have insufficient phonemic awareness, a key predictor of how well children will learn to read in the early years of school.
	<i>The Mind That's Mine Program Kits and Student Books for CFC</i>	This grant purchase a program designed to help students discover how their minds work and what they can do to make their minds work better.
2004	<i>Critical Friends Staff Development</i>	This grant will provide a professional development program for District teachers that facilitates collaborative teaching practices and the sharing of best practices.
	<i>Finger fun Kits for Occupational Therapy</i>	Money from this grant will be used to purchase lending library kits for home and classroom to improve students' fine motor skills.

	<i>Math Instruction Enhancement-Exploration of Societies</i>	Funds from this grant will be used to purchase materials and curriculum enhancement for Primary Challenge and 1st grade math instruction.
	<i>North Cook Consortium for Grant-Writing</i>	Funds from this grant will be used to support a consortium that will enable District 64 to join with 25 other districts in securing grant funds for Language Arts and Math initiatives.
	On the Write Track Conference	This grant will provide a day-long conference for 5th graders to enhance and encourage writing skills.
2003	Born to Read	Second grade students will write stories explaining the importance of reading to children (some stories will be translated into Spanish). The stories will be illustrated, "published," and then donated to ob/gyn floor at a local hospital for families with new babies.
	<i>Edutrac Web-Based Physical Education Assessment Software</i>	The purpose of this project is to utilize the Edutrac Software to allow PE teachers across the district to have individualized student physical fitness assessments. Students will set fitness goals and record them easily using this software.
	<i>Teaching Character Issues Workshop</i>	The purpose of this project is to bring Jim Garbarino, a nationally known author on the subject of bullying, civil behavior and teaching character issues in the classroom to the district to educate teachers/administrators in a staff development and parents at a workshop.
2001	<i>Pedometers</i>	These funds will purchase pedometers to enhance the physical education curriculum initially for elementary students at Carpenter and Washington Schools. The use of pedometers encourages students to take an active interest in performing at their individual best.
	<i>Puppetown</i>	This grant will purchase a variety of hand, finger, and full-body puppets to be used in numerous subjects throughout the District in grades K-5. It would also include a collection of books that contain information about puppet use, scripts, poems, plays and lessons.
	<i>Science Unit Libraries</i>	This project will fund the purchase of quality non-fiction books to enhance the District's science curriculum. Through reading, students are able to grow in their understanding of science concepts introduced through hands-on experience. The books selected will be at a range of reading levels to support the District's goal of differentiated instruction.
	Studio Experience in the Art Room	This grant will cover the purchase of weaving looms, a sewing machine and some potter wheels. It will allow students to take part in an independent "studio" experience in the art room.
	<i>The Bereaved Child</i>	This grant will fund workshops for staff at specific grade levels K-8 to assist them in working with a child dealing with grief or loss. The Good Mourning Program, part of Rainbow Hospice, will lead the sessions.
2000	<i>Starlab I</i>	Starlab is a portable teaching environment that can be moved from building to building. It consists of an inflatable dome, projector, and related projecting materials. Use of the StarLab will allow teachers to address seven of the Illinois State learning objectives in science. Unit modules can be purchased to cover Mythology, Earth Mapping, Weather, Plate Tectonics, Ocean Currents, and Cell Biology. It will primarily be used in third and sixth grade, although some available modules could be used to enhance the middle school curriculum.
	<i>Story Sacks</i>	Story Sacks are a unique and fun way of promoting literacy, math, and social studies in both school and at home. The "sack" is an innovative bag made of theme- designed material with a storybook puppet, or other manipulative, and an activity card for activities to be done at school and at home. This award will purchase 80 sacks and will allow the sacks to be available to all kindergarten classrooms throughout the district.
