

# Doll Upper Body

Print "Doll Upper Body" and "Doll Legs". Do NOT use the "Fit", "Scale" or any other print option that would reduce the pattern size. Use the scale on the right to check it printed correctly. Trim the patterns on the solid, cutting line. Overlap the "Overlap" sections and tape or glue together. 1/4" seam allowance is included.

As an alternate method, cut the pattern on the dashed, stitching line, mount the pattern on poster board then trace the pattern stitching line onto the fabric. Sew directly on the traced stitching line and then trim to 1/4" seam allowance.
