

School-Age After-School & Enrichment Programs at House of Children

The school-day is long, but if “After-School” is fun, it doesn’t feel like you’re still in school!

- At House of Children, we offer a fun, activity-filled afternoon for up to 43 students in three classrooms.
- Our students have a well-balanced daily schedule and predictable routines for snack, homework time, outdoor play-time and quiet activities.
- We emphasize Reading & Art as well as outdoor physical play to off-set hours of sitting in school.
- The Powerhouse Learning Enrichment Program is offered to all of our students ages six & up as well. Hosting a full-curriculum with school district 200’s collaboration and assessment for students whose families want them to have that extra “academic kick”!

Powerhouse Enrichment Program;

Learning Enrichment is ESSENTIAL for success in today's highly competitive academic and future employment environment.

With a low Teacher to Student Ratio (11:1), a highly qualified staff, and hands-on support from a dedicated support team, your student will be given the best opportunity for success!

Beginning with the 2013-2014 school-year, D200 will adoption the new Common Core Curriculum. Powerhouse staff will begin the academic year assessing students and preparing Individual Learning Plans for each child enrolled in the Enrichment Program.

Each Powerhouse student will not only enjoy the standard House of Children After-School Program, but will be given dedicated time in the "study room", to work on their enrichment activities. Every thirty hours of Powerhouse 'work-time' leads to another assessment so parents and teachers know progress is being made!

Consider your child's opportunities with Powerhouse Learning Enrichment Program. A small weekly fee covers the cost of this program.

School-Age Summer Camp!

It doesn't get any better than this!

House of Children's Summer Camp Program has exciting new adventures every year! Our summer focus is on nature, science, sports, ice cream, vacations, and just plain FUN!!
