

# Cannabis Extracts Quick Reference

## What is a Cannabis Extract?

## Types of Extracts

## Common Solvents

### Hydrocarbon Non-Hydrocarbon

butane  
hexane  
propane

CO2  
ethanol  
H2O  
isopropyl alcohol

## What's Live Resin?

fresh buds (i.e., not yet dried & cured) are harvested at their apex of maturity, flash frozen under very cold temps and then used as the extraction material to manufacture a 'live resin' product

live resin = more intense & complete terpenes experience
