

## Common Drinking Water Tests

Contaminant	Which wells or homes should be tested	Recommended testing frequency	Price
<b>Coliform Bacteria</b> (includes E. coli)	Every well	Test once every year, or when there is a change in taste, color, or odor	<b>\$28.00</b>
<b>Nitrate</b>	Every well	Test annually	<b>\$22.00</b>
<b>Arsenic</b>	Every well	Test once and retest based upon level detected	<b>\$34.00</b>
<b>Lead &amp; Copper</b>	Homes with copper plumbing or brass fixtures installed before 1985	Consider a one time test	<b>\$46.00</b>
<b>Fluoride</b>	Wells used by infants and preschool-aged children	Test when infant is born	<b>\$20.00</b>

## Standard Inorganic Packages

Package	Description	Price
<b>Home Water Safety:</b> (Coliform Bacteria (includes E.coli) , Nitrate, Arsenic)	This package analyzes three common and important parameters for drinking water safety.	<b>\$74.00</b>
<b>Home Water Safety &amp; Quality:</b> (Coliform Bacteria (includes E.coli), Nitrate, Arsenic, pH, Alkalinity, Hardness, Chloride)	This package provides a general analysis of the water quality from inside your house and from outside groundwater influences.	<b>\$110.00</b>
<b>Primary Metal Contaminants:</b> (Antimony, Arsenic, Barium, Beryllium, Cadmium, Chromium, Copper, Lead, Mercury, Selenium, Thallium)	This package analyzes EPA established primary metal contaminants that may have potential adverse effects on your health.	<b>\$150.00</b>
<b>Secondary Drinking Water Contaminants:</b> (Aluminum, Chloride, Copper, Fluoride, Iron, Manganese, pH, Silver, Sulfate, Total Dissolved Solids, Zinc)	This package analyzes EPA established secondary contaminants that may have potential cosmetic or aesthetic impacts on home water.	<b>\$120.00</b>

## Organic & Radioactivity Packages

Package	Description	Price
<b>Volatile Organic Compounds:</b> (This package includes a scan of VOC's including Benzene, Ethene, Styrene, Toluene, Vinyl Chloride, Xylene and more)	This scan analyzes EPA established common industrial contaminants found near industrial areas, landfills, gas stations, junkyards, dumps, or dry cleaning operations. Recommended every 5-10 years.	<b>\$130.00</b>
<b>Pesticides:</b> (Alachlor, Aldrin, Atrazine, Butachlor, Chlordane, Dieldrin, Endrin, Heptachlor, Lindane, Methoxychlor, Metolachlor, Metribuzin, Propachlor, Simazine, Toxaphene)	This scan includes common organochlorine & N/P Pesticides. Recommended if near agricultural operations or if well contains high Nitrates.	<b>\$175.00</b>
<b>Herbicides:</b> (2,4-D, Dalapon, Dinoseb, Pentachlorophenol, Picloram, Silvex)	This scan includes common agricultural Herbicides. Recommended if near agricultural operations or if the well contains high Nitrates.	<b>\$200.00</b>
<b>Radioactivity:</b> (Radium 226, Radium 228, Uranium, Gross Alpha)	This package analyzes for a list of radionuclides potentially found in drinking water due to erosion of natural deposits.	<b>\$325.00</b>

\* Credit Card Transactions over \$75 will be charged a 3% processing fee.

\*Sampling kits may be ordered from our Neenah Headquarters at (800) 776-7196 or picked up at either of our locations in Neenah or Green Bay (920) 434-6741.
