

**LEAD & COPPER RULE MONITORING AND REPORTING VIOLATION
MANDATORY LANGUAGE - TIER III**

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Greenwood Water System has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing (or did) to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During 1/1/18-6/30/18 we did not test with TCEQ approved field measurement equipment by an approved sample collector for pH and temperature and therefore cannot be sure of the quality of your drinking water during that time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for pH and temperature, how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which the follow-up samples were [or will be] taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were or will be taken
<i>Water quality parameters</i>	2 every 6 months	1	1/1/18-6/30/18	11/12/18

What is being done?

We are working to correct the problem. For more information, please contact Greenwood Water Corporation at (432) 687-2070 or 7107 FM307, Midland, Texas, 79706.

Proper sampling equipment has been purchased by the Water System and we have attained approval by the TCEQ for testing pH and temperature.

Please share this information with all other people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by Greenwood Water Corporation. Public Water System Number: 1650078.

Date Distributed: December 19, 2018
