To Whom It May Concern:

Baird Construction submitted a competitive bid with three other contractors and was ultimately awarded the contract to build our new hair salon in the La Encantada Mall.

Throughout construction, which was 4 months, we found Baird Construction employees and Mike Baird undertook their duties with the utmost professionalism and care.

One of Mike's strongest assets was the open communication. Mike and the onsite supervisor, continually kept us informed of the construction progress without inundating us with irrelevant questions and concerns instead, they would just handle these directly. They were always readily available whenever we had concerns or questions and those concerns were always handled in a courteous, expeditious manner.

Lastly, the construction was completed on time and on budget. In addition, any minor issues revealed from the final punch list were taken care of efficiently and expeditiously.

Our salon has been open for 6 months and any time we have had questions concerning construction related matters, Mike is always available to offer assistance. All in all, the perfect contractor.

Should you require any other information, please do not hesitate to contact us at (760) 770-1299.

Sincerely,

A handwritten signature in blue ink, appearing to read "Peter", is written over a light blue circular stamp.
