

Homeshare Program

**WANT TO AGE IN YOUR OWN HOME?
HAVE AN EXTRA BEDROOM?**

Check out our Homeshare Program

Sage Generation's Homeshare program supports seniors who want to stay in their homes by partnering them with potential housemates.

Homesharing is simply two or more unrelated people sharing a home, where the renter agrees to provide services in exchange for a reduced rent.

It is NOT having a live-in nurse. It IS having another person in the home who might provide any of the following:

- Running errands or doing grocery shopping
- Taking on heavier household and yard chores
- Driving to doctor appointments or meetings
- Helping with pets
- Sharing an occasional meal and companionship
- Someone being there just in case

Sage Generation provides coordination and ongoing support for homeshare participants:

- Screening homeowners and renters
- Thorough "matching" process
- Two-week trial living
- Ongoing contact, coordination and active support of matches

One person in the match must be 60 or older.
