

## CSG Smoke Screen examples

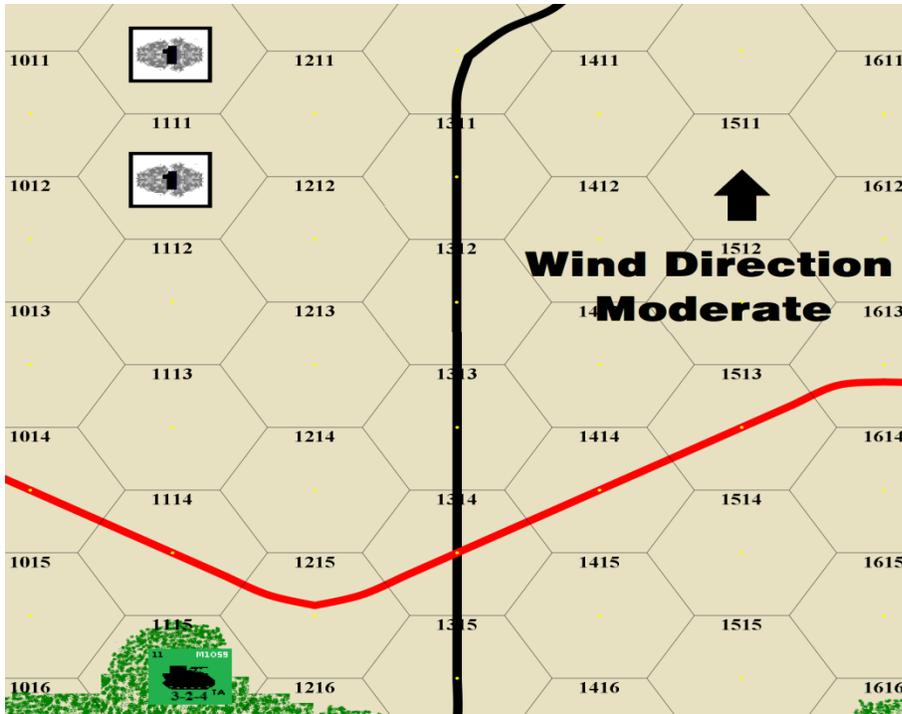

Stationary CSG Smoke Counter placement on 1<sup>st</sup> movement phase of smoke generation.

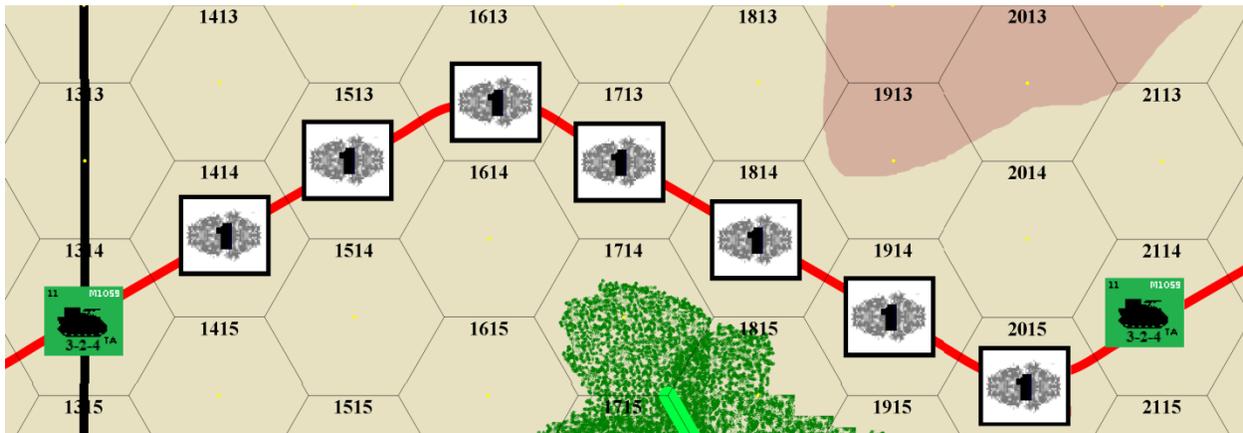

Stationary CSG Smoke counter placement on 2<sup>nd</sup> and subsequent movement phases of continued smoke generation.

## CSG Smoke Screen examples

Stationary CSG Smoke Counter placement, 2<sup>nd</sup> movement phase after cessation of smoke screen.

CSG moves from hex 1314 along primary road to hex 2114 at road speed. CSG Smoke 1 counter is placed in each hex that the CSG moves through. The smoke screen is removed at the beginning of the next friendly movement phase.
