

Welcome to Club Joy

Our Maintenance and Wellness Club

When you have completed the Acute and Corrective Phases of your Treatment Plan you might think, great, I'm done and all better.

You are better but think again about the long term. Regular monthly treatments are necessary to keep up your hard won progress and handle any minor issues as they come up so they won't get worse.

By joining Club Joy you are making a commitment to make your health a priority, and we want to support you. We think the maintenance and wellness phase of treatment is by far the most important. And it is where Chinese Medicine shines!

It's simple, you will pay \$60USD for one treatment a month. That's all! If you need more treatments you will receive up to 2 more at \$50USD each. Wow!

Ask Dr. Joy if she thinks you are ready for Club Joy and check out the rest of the details at www.joyacupuncture.com.
