News of the Church....

Upcoming Worship Services...

As we prepare for the worship services in the month of January, please remember that we are being doubly careful about meeting face-to-face in these weeks after Christmas. Our worship services, January 3 - 31, will be offered on Facebook only. -Elders and Trustees

Women's Fellowship

The Women's Fellowship Circles will not meet in January. If you would like to have a Bible/Mission Study book, you may pick up one at the church. They are located in a box under the mail cubbies. Also, Jane Jackson will be scheduling the Flower Calendar for this year. If anyone would like to place flowers in the church, please contact Jane. She will greatly appreciate it. Circle Leaders, please encourage your members to participate by placing flowers in the church. It doesn't have to be a special occasion.

Church Office News - Looking Ahead...

As we move forward into mid and late winter and beyond, please contact Cindy in the church office to share your bulletin or Gazette announcement. Also, contact her to ensure your upcoming meetings or events are on the church calendar.

Words of Thanksgiving...

Thank you from Tony Craddock: I would like to express a great thank you to our newly formed technical team. In November of last year, the Joint Boards identified a need for improvements to be made to our live streaming capabilities. We gathered a new team of people to work on this project for the betterment of our church. Thanks to Renee Martin, Heather Delp, and George Pingho for their dedication to this team and their efforts to move this project along so quickly. Thank you to Scott Rainey and his family for their continued support and to Erin Craddock for her added support in streaming each Sunday. And a special thank you to Adam Yarbrough and Josh MacCollum for dedicating their time to ensure that all the technical aspects are working efficiently. All of this would not have been possible (and would not have

happened so quickly) without the help that our technical team provided. The church has received a lot of positive feedback on both the video and audio quality of the new system. This work has allowed us to continue our outreach to members and the community, and we are all very grateful for that. These improvements that we have made will continue to strengthen our church both now and in the future.
