Hi Everyone,

It is nice to see so many residents walking, riding bikes or working in their yards. Now that grass cutting season is upon us, I would like to remind everyone not to blow your grass clippings into your neighbors yard, their driveway, sidewalks or into the street and please clear the grass clipping off your sidewalk. I have seen grass clippings in the streets and on the sidewalks as I drive through the city and it is unsafe for motorcycles and people walking or children riding their bikes on the sidewalks. Grass clippings on the street end up in our sewers.

The city ordinances are in place for a reason. Please follow them. If you see someone blowing grass into the street or onto your property, take a picture or video as proof. Then send it to Sean in the Building Dept., or your councilperson so we can talk to the person. Without proof, it is your word against theirs and we cannot enforce ordinances with out proof that the person is not following them.

Reminder trash, recycle bins and yard waste are not to be placed at the curb before 4:00pm the day prior to your schedule collection day. Remove empty bins from the curb before 8:00am the following day. Please be patient with Kimble, they have a shortage of employees like most business.

If you want to read through the ordinance pertaining to grass clippings and trash go to: Ordinance 521.08 Littering and deposit or garage, rubbish junk etc. I would be happy to drop off a copy of this ordinance to you. This is the link to all the city ordinances and you can search for 521.08 or any others.

A lot of complaints have been coming in about residents letting their grass get too long. Not only do we have an ordinance for this but an unmaintained yard is very unsightly and can affect the whole neighborhood. Especially when all the other residents on the street are faithfully maintaining their yards. Ordinance 961.01 - states that ownersshall be required to maintain and cut all such grass..... to an average height that shall not exceed eight inches.

The two new retail buildings in front of Shoregate Plaza are coming along and hopefully will have tenants in them by July.

The parade is back! June 6th at 1 pm. Participants must be at Manry Park by 12:45. The route will go north on E305th street, turn right on Willowick Drive and end at St. Mary Magdalene Parish Festival.

The 2021 Summer Concert Series is back, too! Here is the schedule:

- June 20th - Ron Sluga Trio 6:30pm - 8:30pm
- June 27th - Eddie & the Edsels 6:30pm - 8:30pm
- July 11th - Funkology 6:30pm - 8:30pm
- July 18th - Joey Tomsick & the JTO

August 1st - Malt Shoppe Memories 6:30pm - 8:30pm

All concerts are at Lakefront Park.

The Big Screen Outdoor Movie will be July 24th at Dudley Park. Movie begins at dusk. The feature film will be SCOOB! - rated PG

Operation S.C.R.A.M. (Security Camera Registry and Mapping) is still available for homeowners and businesses who have security cameras and would like to register them with the Police Department. Well it's been a long road, but things are starting to open back up and folks are getting outside with family and friends. There are many activities for everyone to enjoy. Our city leagues are starting, come out and watch - grab a snack and support our teams. Don't forget to thank the sponsors as without them these kids wouldn't be able to get back out on the fields.

There are many other activities for the whole family to participate in, I'll list a few. Keep a lookout on the various facebook pages and the city website for more information. Our Willowick Senior Center coordinator has been getting the Center ready to re-open which is slated for June 1st.

St. Mary Magdalene Parish Festival is June 3rd - 6th with the Parade on June 6th.

We invite you to participate in the American Heart Association 3-Mile Heart Walk in honor of our own John Marn, survivor of Heart Disease. Join our "Team Marn" June 5th from 9am-12pm at Manry Park.

Lakeland Community College's 54th Commencement by the Numbers

Lakeland Community College held its 54th annual commencement with Ohio Governor Mike DeWine serving as the keynote speaker. The event was held virtually on the college's YouTube channel Saturday, May 8, at 10 a.m.

"Throughout this past academic year, our faculty, staff and students have demonstrated a tremendous amount of courage in the face of uncertainty. This is especially true of the more than 700 graduates whose accomplishments we

celebrated during our virtual commencement ceremony," said Lakeland President **Morris W. Beverage Jr.** "It couldn't be more fitting that we had our governor address graduates about the value of perseverance, strength and resolve when faced

with obstacles and unexpected challenges."

2021 commencement highlights include:

- A total of 761 students received degrees; 57 will earn multiple degrees.
- The oldest graduate is 65; the youngest is 15; seven graduates are 55 years of age and older.
- 63 College Credit Plus students (56 seniors, five juniors, two sophomores) representing 18 high schools graduated.
- 26 are military veterans.
- 124 are first generation college graduates.
- Holden University Center graduates from partner institutions number 108

undergraduate and 62 graduate students.

• Lakeland's highest honor, the Distinguished Service Award, for a member of the community was presented to Kenneth J. Quiggle (2020) and David A. Kalina (2021), for their years of service to the college as members of the board of trustees.

• An honorary Associate of Arts degree was awarded to Kenneth J. Quiggle for having made, and continuing to make, an enduring impact on Lakeland students.

Bankruptcy 101:

You are Not Your Credit Score

Question: What is your credit score and why do the lenders make such a big deal about it? How will it affect me in these times?

Answer: Back in the 1950's a company called the Fair Isaac Corp. (FICO) developed a formula which was marketed as a way for lenders to realistically evaluate their risk with regard to lending to a specific person. FICO assigned mathematical quantities to patterns of behavior (like how often one pays late, whether they have unsatisfied legal judgments, etc.) and computes those quantities

into a numerical risk factor which is known as our "credit rating." FICO sells people's credit ratings to lenders based on their FICO formula which is a trade secret and legally protected.

There are other companies like FICO which have come up with their own secret form of credit rating which they also sell to credit reporting agencies such as Equifax, Transunion and TRW. In my mind, these companies secrecy causes me to question their integrity and the efficacy of their formulas. FICO should willingly disclose the science behind their mathematical formula so it can be challenged and discussed. It only seems fair that a rating factor which affects so many people's

lives, whether it be for getting credit, a job, security clearance or the trust of another person, should be open to investigation. How do we really know its not complete voodoo?

There is a widely held belief that FICO and the entire individual credit rating system was developed by the elite to keep the middle class in their place. "Their place" is presumably in a constant state of fear over their financial rating willing to pay the banks any interest rate or penalty without question.

In our bankruptcy practice, we spend a large portion of our time helping people get back on financial track. I see people

regularly who enter my office in a state of hopelessness and are healthy, happy, laughing and spirited six months down the line. Bankruptcy stays on your credit for ten years. But my response to that is "So what?" Anybody who really wants to get credit and buy another house can do it in three years or better. Even with a very low credit rating. They will have to be creative nowadays. But that is a topic for a different day. So the focus should not be on your credit rating but on your ability to pay back a specific amount of a loan within a specific period of time. I tell our bankruptcy clients: "yes, try to get a loan you can afford as soon as possible

and pay it back early. This is the beginning of your life of financial responsibility."

The "fresh start" that one can receive, often times, through bankruptcy is extremely valuable in terms of peace of mind and freedom from stress. Do not put yourself or your family through unnecessary mental hardship. If you think bankruptcy can help, there is only one way to find out. Schedule a free consultation. Often times, we can do the consultation over the phone. The bottom line is that a bankruptcy will not make most people's credit rating much worse than it was already. And it is a new start for your credit rating also.

Medicare Myths You Need to Know

Many people have little experience with Medicare until the time comes for them to enroll. Many have some mistaken beliefs about the coverage it provides. Here are a few of the most common misconceptions.

Myth #1: Medicare covers 100% of your medical expenses

Original Medicare covers only a portion of your medical costs. Medicare coverage amounts to only about 80% of your Part B expenses. Prescription coverage is not included, and you will be responsible for premiums, deductibles, coinsurance, and copayments. In addition, Original Medicare does not set an annual out-of-pocket maximum on your share of covered medical expenses, so a major illness will mean major expenses for you. Medicare Supplements and Medicare Advantage Plans are two different types of coverage that can help keep your out-of-pocket costs in check.

Myth #2: All types of medical care are covered by Original

Medicare

Unfortunately, there are some big gaps in coverage provided by Original Medicare. In most cases, Original Medicare does not cover vision, hearing or dental costs. This is one of the reasons why many people choose Medicare Advantage plans. Most Advantage plans include coverage for prescriptions, vision, dental, hearing, and other services not covered by Original Medicare.

Myth #3: It is best to get the same coverage as your spouse

Not always true. Unlike health insurance provided by an employer, Medicare does not offer family coverage. Each person must apply Medicare on their own. Additionally, just because your spouse is satisfied with their coverage does not mean it is the right type of coverage for you. You need to consider your medical and prescription needs as well as your financial situation before making a choice.

Myth # 4: You are automatically enrolled in

Medicare

You do not automatically receive Original Medicare (Part A and B) once you become eligible. If you are not receiving Social Security retirement benefits or Railroad Retirement benefits, you will need to enroll through the Social Security office.

If you would like to learn more about Medicare, please contact me. I regularly present a class,

Getting Started with Medicare, at libraries and community centers where we cover all the basics of Medicare. You can also watch a video of Getting Started with Medicare available at www.mutskoinsurance.com.

DESTINATION BACKYARD...

Living in Northeast Ohio, we tend to neglect our outdoor living spaces. Then late May rolls around and the sun shines, temperatures rise and we emerge from our homes to find an outdoor space that's not so inviting. American Home and Energy Products in Painesville, has everything to create the outdoor living area you've been dreaming of all winter long.

Talking about all that American Home and Energy Products offers would take much more space than we have here. That's why you're encouraged to come out to the store, take a stroll around the grounds and discover for yourself what they can help you do with your home.

"When I opened the store in 1999, we mainly focused on patio pavers, natural stone, ponds and waterfalls," says owner Chris Bedrick. "Today we have indoor and outdoor fireplaces, patios, fire pits and retaining walls and outdoor kitchens including the best grills, smokers and kitchen accessories. We also have structures to create outdoor rooms and the very best outdoor furniture. All of these project ideas can be installed by most homeowners or we can assist you with finding a reputable installer."

With experience in landscaping and home construction, Chris is knowledgeable in all areas of the home. He makes it his mission to stay current on all of the latest trends.

"I travel to seminars all over the country so I know what's coming," says Chris. "My staff and I are extremely knowledgeable and ready to guide you through your project—no matter how big or small. And if it's too much for you, we'll recommend someone who can help. We deal with many contractors throughout Northeast Ohio who rely on us for quality products and knowledgeable service."

Walking through the shop and surrounding grounds at American Home and Energy Products is an experience. Several unique and elegant outdoor displays showcase

some of the exciting home improvements that can be made to increase the value of your home and upgrade living spaces for your family to enjoy for years to come.

Additions like outdoor cooking areas, fire pits, water gardens, pondless water features, decorative stones and lighting can take your backyard to a whole new level.

"No backyard is complete without a water feature," says Chris. "And it doesn't have to be elaborate. You can do a pondless feature where the water disappears into a basin underground, add some decorative stones, and even add a koi pond. It adds a new dimension to the home and creates a relaxing vibe that is very popular."

American Home and Energy Products is a destination spot for outdoor living inspiration. And to be really inspired stop by the store to see over 2000 square feet of displays and ten different departments of product.

"We want your outdoor areas to be a place to enjoy with family and friends," says Chris. "Why not have your most relaxing destination be your own backyard?"

American Home and Energy Products is located at 1270 Mentor Avenue in Painesville. Hours are: Monday-Friday 9:00 a.m. to 5:30 p.m., Saturday- 9:00 a.m. to 4:00 p.m.; closed on Sunday. For more information, call 440-358-5858, or visit American-Home.com.

Window Savings at Shoreline

Deciding who to call to get your best deal when it's time to replace your outdated windows & doors is easier than you realize.

Start by calling Shoreline Window and Remodeling Company. A company with a professional, experienced track record dating back to 1954. That's 65 years of total customer satisfaction made possible by all our past clients who trusted in our ability to meet or exceed their expectations on receiving the "real deal" for their remodeling projects.

We start by reviewing your project and listening to your goals and concerns and we welcome any recommendations you may have. Then together we establish a budget and work to stay within that cost.

Your materials selections are hands-on, not from pictures out of brochures and once all your selections have been made, we order any products that are not in stock.

After scheduling a start date and work begins, we stay on the project from start to finish. To make your remodeling experience as stress-

free as possible, we always keep you informed of the progress of the job.

Because Shoreline Window and Remodeling Company is a family owned business, you will always be dealing directly with the owner, no pushy salesman or inexperienced tradesmen. Our company is bonded and insured, and our workers are covered by workers compensation for your protection.

We have the highest ratings with the Better Business Bureau and Angie's List. We take pride in our workmanship so you will not only be current client, but in the future, we want to be "the one" contractor you call to take advantage of our other professional services including kitchen and bathroom remodeling. Plus, we also accept all major credit cards & special financing.

Let us show you how to make your next remodeling project a little easier by calling Shoreline Window and Remodeling Company at (440) 946-1495 or (440) 336-3300. You can also look us up at www.shorelinewindowandremodeling.com.

HEALTHY EATING TIPS FOR SENIORS

As people age, their diets may need to change. The American Dietetic Association offers these suggestions:

Prepare meals rich in these nutrients. These include:

• Omega 3 fatty acids

The acids have been proven to reduce inflammation, which can cause heart disease, cancer and arthritis. They can be found in many different types of fish and in flaxseed oil.

• Calcium and Vitamin D

The need for calcium and vitamin D increases as people age,

primarily to preserve bone health and lower blood pressure. Adults over the age of 50 need at least 1200 milligrams per day of the nutrient – equal to about four cups of milk per day.

Limit sodium content

One of the most important ways to reduce hypertension is to prepare foods with low sodium. This means avoiding frozen, processed or restaurant foods which are often extremely high in sodium. Fruits and vegetables have the lowest sodium content.

Hydrate

As people age, they do not get thirsty very often, even though their bodies still need the same amount of liquids. This is why it's important to drink plenty of fluids.

Incorporate changes gradually

Older people are usually skeptical of change. That's why it's best to make small changes gradually.

Sometimes a little outside help can make all the difference in the world. Give Taylor Made Home Care a call and let's talk about it!

The Fine Arts Association Hosts Premier Screening of Modern Warrior Live

The Fine Arts Association (FAA) is proud to host the premier screenings of Modern Warrior Live: the story and sound of a combat veteran's journey co-created by musician Dominick Farinacci and military veteran Jaymes Polling June 11-13, 2021.

There are five in-person screenings June 11th at 7:30 pm, June 12th and June 13th at 2:00 pm and 7:30 pm at The Fine Arts Association's Corning

Auditorium (social distancing is aligned to state health mandates). The film is FREE to veterans and \$15 for general admission. Tickets must be purchased in advance by calling 440-951-7500.

"Modern Warrior reminds veterans they are not victims and that they can use their experiences to grow and make significant contributions to society," added Anthony Principi, Secretary of Veterans

Affairs (2001 - 2005) and Vietnam Combat Veteran

Because of a generous National Endowment of the Arts award of \$10,000, FAA is presenting these 5 in-person screenings along with creating arts and music programs specifically designed by FAA's Creative Arts Therapies department along with input from local veterans and veterans organizations. These programs will be tailored to fit the needs

and interests of veterans, active military and military families.

The film is not only for veterans, active military, and their families. It also is for health professionals, caregivers, high school students, college students and faculty, and others interested in the health and well-being of our veteran populations. The purpose of the project is to encourage dialogue and broaden understanding of the challenges faced by veterans which helps to de-stigmatize veterans as victims by focusing on shared human experiences, providing hope and a deeper understanding across communities. After each screening, guests are welcome to stay to participate in 30-45 min. of dialogue with the co-producers.

Veteran Polling explains, "With the best of intentions, well-meaning individuals and organizations have crafted a dark narrative around veteran mental health. For those experiencing it, the recognition of post-traumatic stress can often feel insurmountable. Through entertainment, Modern Warrior LIVE provides an alternative

viewpoint. If we agree there is an opportunity for growth in adversity, then we have an obligation to ourselves and our loved ones to do everything in our power to define a new path and find what it means to be forged in combat."

Veteran support services and other community service agencies are encouraged to reach out to FAA (see contact information below) to host a resource table in the FAA gallery during and after the screenings. This is a great opportunity for veterans, services, mental health agencies, health centers, and other community agencies to share important resources and educational materials.

This project is supported in part by an award from the National Endowment for the Arts. To find out more about how National Endowment for the Arts grants impact individuals and communities, visit www.arts.gov." Also sponsored by Wickliffe Forever Foundation, Carnegie Investment Council, and FAA board member, Roy Smith.

Between the Lines Author Series: Jakob Guanzon

Jakob Guanzon is the author of *Abundance*, a wrenching debut about the causes and effects of poverty. Evicted from their trailer on New Year's Eve, Henry and his son, Junior, have been reduced to living out of a pickup truck. In an ingenious structural approach, Jakob Guanzon organizes *Abundance* by the amount of cash in Henry's pocket. A new chapter starts with each debit and credit, and the novel expands and contracts, revealing the extent to which the quality of our attention is altered by the abundance—or lack thereof—that surrounds us.

Between the Lines Author Series: Willy Vlautin

Willy Vlautin is the acclaimed, award-winning author of five novels. He is celebrated for his singular ability to fathom the lives, hopes, and fears of the dispossessed, the lonely, and the desperate; with uncommon compassion, he brings into stark relief the undercurrent of dread that, for many, is the constant companion of contemporary life. Willy Vlautin's novels are "clean as a bone, companionable, and profound" (Sarah Hall), and his new novel *The Night Always Comes* is no exception.

Join us on Zoom to discuss the amazing LEGO creations you have been working on. The Wednesday before the program, Miss Sarah will send you a video about what the theme is and an example of something she has been working on, as well as the Zoom link for the next day. At 2 pm on Saturday, you'll be able to join a Zoom call and show off your amazing creation. Be sure to have a name for the creation and a little story that explains it.
