Thursday, October 11th
Hosted by Mack Canada
Details to follow

GENERAL MEETING – June 14th

Our two hosts for the evening treated us to very informative, well researched & thorough presentations. We wish to thank our hosts dearly for their due diligence & efforts. (In contrast, the poor turn out by our ATSSA membership was all the more distressing-(see more under 'Viability Matters').

Dave Singer, General Manager of RustKote in Mississauga, commenced

proceedings by outlining the corrosion protection products and services available through RustKote. Dave reviewed their two unique products along with how the process enables them to offer the clean process that maximizes the protection of electrical components & harnesses. RustKote also conveniently provides an on-site mobile corrosion protection service to facilitate their advanced protection applications.

Dave can be reached at 716-553-0629.

Dave Embury, Territory Manager for Eaton out of Brampton-ably assisted by Ted

Vandenheuvel, Territory Service Manager- then introduced their 'Procision' automatic transmission, the first dual-clutch transmission for Class 6 and 7 commercial trucks and school buses. Dave went on to analyze this 7-speed transmission, explaining all the latest technology largely permitted by the dual-clutch aspect, resulting in more efficient and productive trucks and buses, for example smooth delivery of power and optimizing shift points. This transmission incorporates many innovations including a programable 'Urge To Move and Creep Mode' that provides best-in-class low speed maneuverability, and prevents roll-forward or backwards for up to three seconds. Dave can be reached at 647-262-4397.

Thanks again to Dave & Dave & Ted- and to RustKote and Eaton - for their very informative and rewarding evening.

Remember to favour those who support us!

50/50 Draw: Won by John Dixon (our very own Secretary), in aid of our ATSSA sponsored MAP apprenticeship scholarship fund.

Participation is vital for the wellbeing of our ATSSA!

VIABILITY MATTERS

The poor turn out for our General Meeting on June 14th signals a disappointing & unsustainable trend. We, the ATSSA membership, really have to be taking a good hard look at ourselves. We need to reevaluate what our aims & objectives & expectations should be in order to survive as a viable, & influential industry recognized & supported networking entity. We-our members-need to design a viable organization wherein we-our members-look forward to participating wholeheartedly; & wherein our industry colleagues find it so rewarding as to want to bid to utilize our meeting platform to up-date & to promote.

Each & every member is requested to give this matter careful consideration & then contact & provide your comments to:

President Mark Halliday at mhalliday@rogers.com;...416-550-7933 &/or
Vice President Ed Roeder at droeder@sympatico.ca;....647-462-7336.

This is a critical moment in time for our ATSSA so please give this matter all due diligence.

Thanks.

PARTICIPATION is vital for the wellbeing of our ATSSA!
