

EASY ICONS - explanation

Note that the Easy Icons chart has a small image of our ‘Major Keys’ chart in the center.

This is to remind you that the *Icons on this chart* are referring to the *letter names of the 15 Major keys*, as they appear on the Major Keys chart.

Read the top ICONS from LEFT to RIGHT ~ Note that they increase from 1 to 6. Each Icon indicates the number of *sharps* (#’s) in that key.

The keys of C, C#, and C_b are in the center because they are so easy to remember. These keys are ‘all or nothing at all.’
 C has no sharps or flats
 C# has all sharped tones (7)
 C_b has all flatted tones (7)

Read the bottom ICONS from RIGHT to LEFT !! They also increase from 1 to 6 but in the other direction! Each ICON indicates the number of *flats* (b’s) in that key.

The word descriptions will help you get started ~ but you won’t need them for long. These colorful images imprint quickly and deeply, and are surprisingly easy to recall.

You can now *easily* master the number of sharps and flats in ALL the Major Keys ~ and have fun doing it !
