

Micron Applied Technologies, Inc.
635 & 645 Hembry St.
Lewisville, TX 75057

Women Owned Small Business

Company Description

35 years of extensive experience in the programming and machining of complex parts. Micron specializes in Precision CNC Mill Machining of small to medium size machined parts. Our other strengths are attention to detail, quick turnaround and competitive pricing. Our company mission statement says it all "Done Right The First Time". Take a look at Micron's Customer Testimonials and see what some of our customers have to say: <https://youtu.be/e96qbfW2SvE>
