Maybe we can help...

Adult Children of Alcoholics is a recovery program for adults whose lives were affected as a result of being raised in an alcoholic or other dysfunctional family. We have found that adult children who attend our meetings, work the 12 Steps and find a Higher Power experience astonishing improvement in body, mind and spirit. Our group follows a program of recovery based on the 12 Steps and 12 Traditions of Alcoholics Anonymous. We have been helping people recover since 1988.
