Word Math

If Saint + Shard + Thank + Geode + Posse =
 Shade, then what does Mourns + Father +
 Months + Coyote + Beauty + Tattoo = ??

Divine Materials

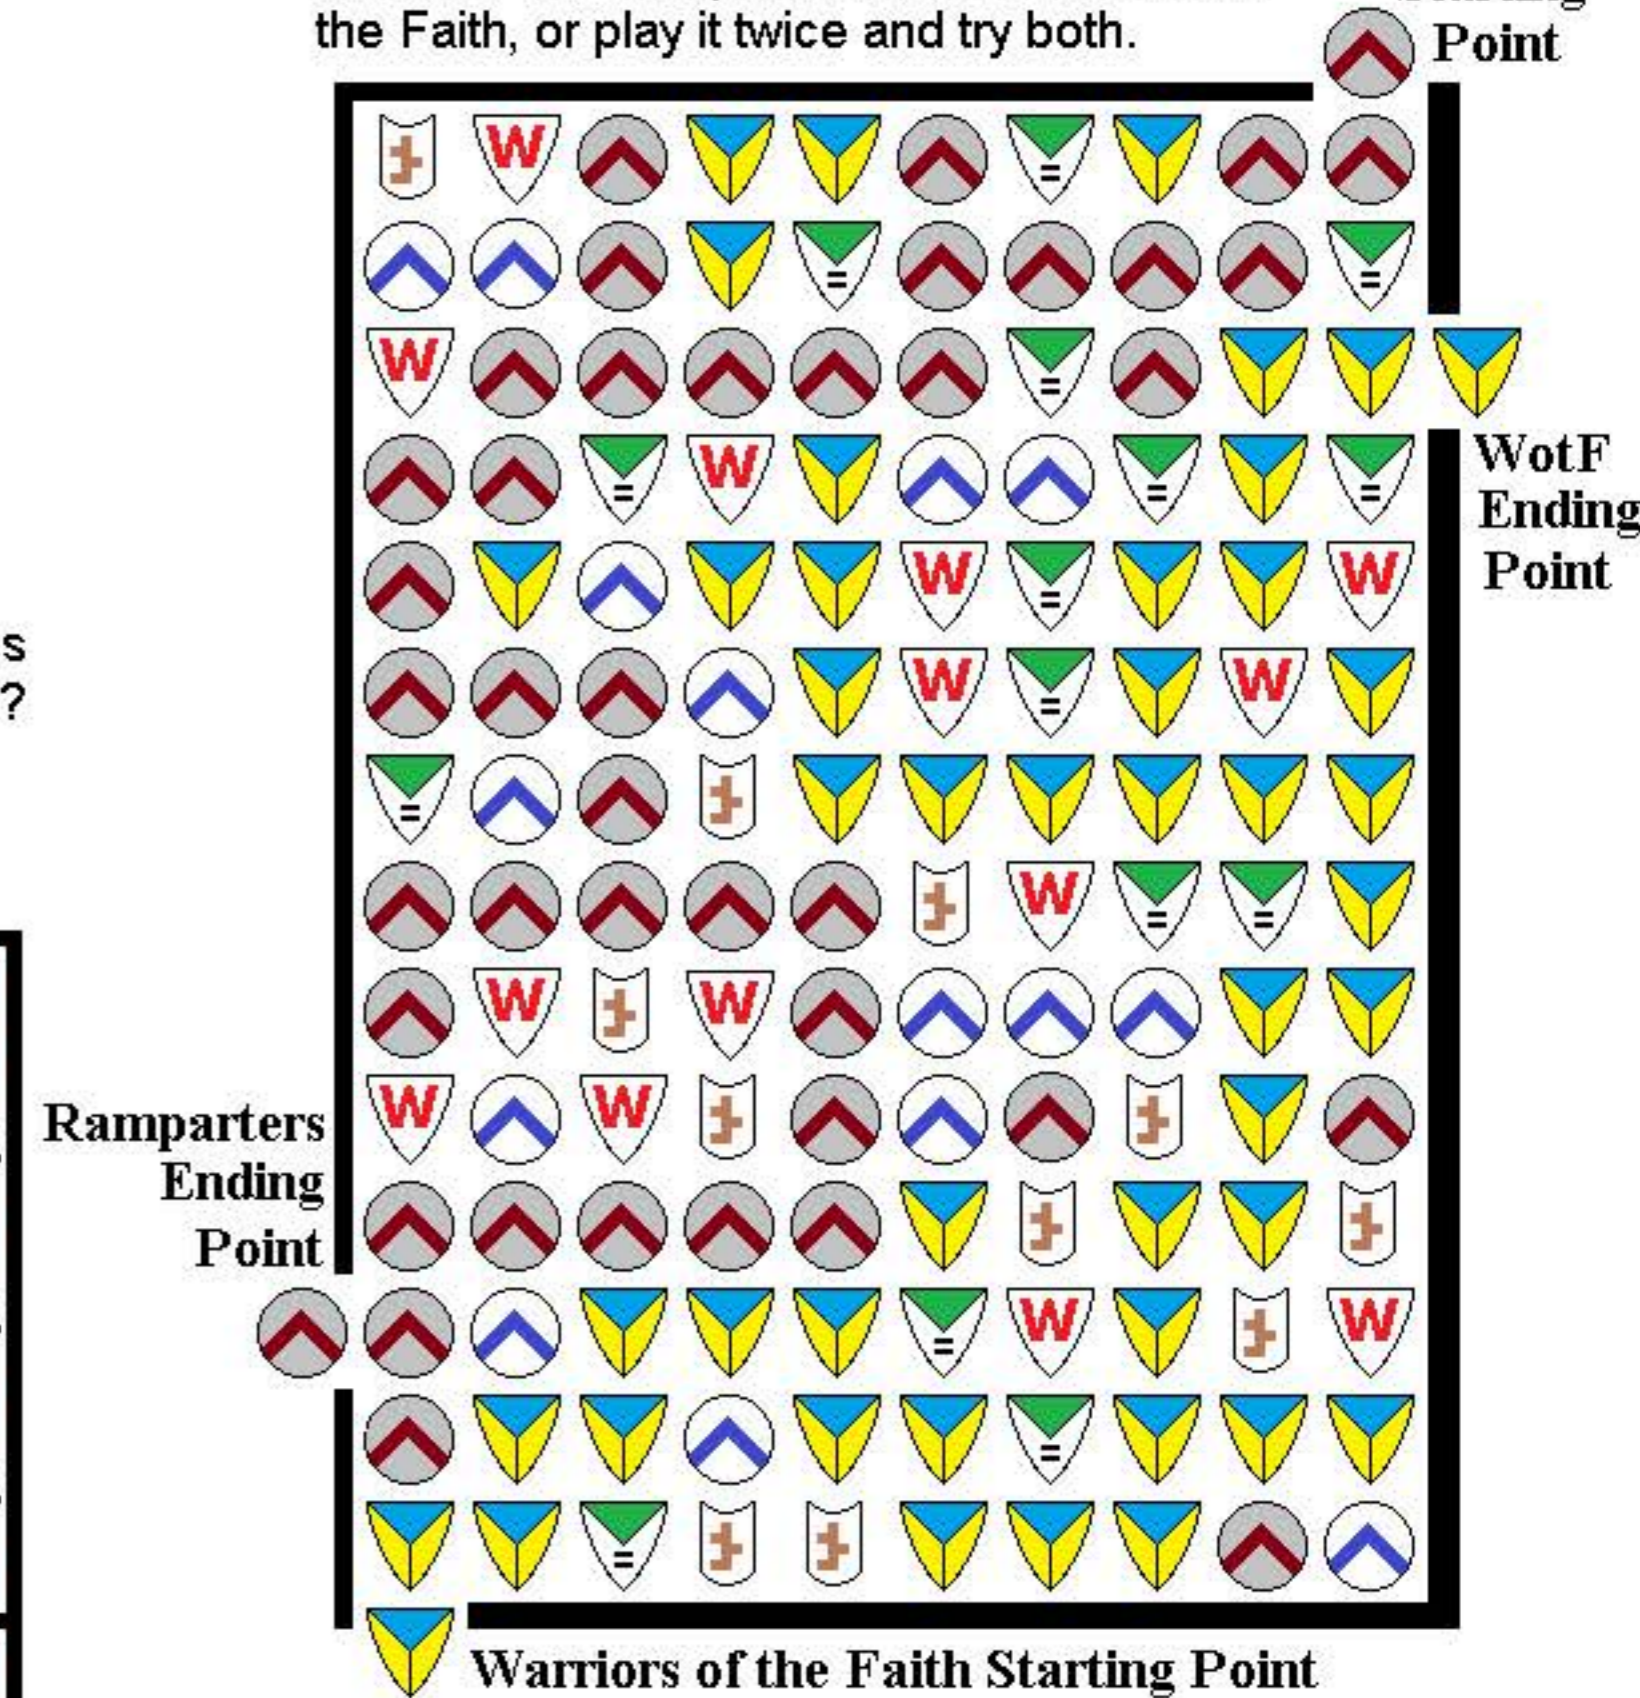

Tally up the number of shield shards and adamant ore pieces in each grid section. Which one has the most of each piece? If you can find three in a row (horizontal or vertical, but not diagonal), that is a huge piece and counts as five instead of three.

Now you know how your characters feel after sifting through the debris field all day looking at rubble.

Faction Maze

As in the campaign, you can play this maze as either the Ramparters of the Warriors of the Faith, or play it twice and try both.

I Want You !!
