YOUR IDEAS.

History.

The gamble paid off.

The W-Lamp brand was born in the US in 2013, and in July 2014 in Italy, for a bet almost impossible: design a pack to cover a box containing a bottle of wine, which could have a second life.

So here is the first prototype made of three elements: a cardboard base containing the electrical cable, the bottle of wine with its box and a paper box that can be used as lamp shade which becomes a vehicle of communication and design for the bottle of wine.

The gamble paid off and the rest is history. 80 different subjects, divided into categories. W-lamp paid a high attention to the lamp shade details.

The packing is made of recycled cardboard and the selection of the paper for the lights is done in a rigorous manner and in close cooperation with leading Italian most important paper manufactures.

The result is a product that combines the Italian creativity with advanced production technologies.

The products also have passed all laboratory tests necessary to obtain the safety certifications for both the European market (TUV in Germany) and the US market (UL, Underwriters Laboratories) obtaining eligibility for sale also outside Italy.

Packaging. with style.

The packaging structure is to carry thanks to its top handle.

Its shape has been specially designed to take a very little space, while its beauty is due the use of recycled paper and the care details.

Also the choice of the window on the front. It has been specially designed with the aim of allowing to recognize immediately the subject that contains, subject that has been also printed on the label hung on the packing.

Each pack contains a base, a lamp shade, an electric cable and the instructions for the assembling.

Assemble a W-Lamp is very easy and it takes about 15 seconds.

The W-Lamp are a perfect gift idea for everyone.

Creativity.

Do you enjoy unusual products?
Say it with a lamp

All subjects in the catalogue have been studied to combine geniality and originality. The SHADOW line, for example, once it's turned on, it will transport you to a parallel world. That you could not see previously thanks to its light games and shadows. You'll suddenly see appear magically dogs, cats, flower, and for children, fairies and dragons.

Made in Italy.

Each W-Lamp is entirely Made in Italy and assembled by hand, for which reason some imperfections are not to be considered a defect but a virtue, a symbol of uniqueness. W-lamp also has a social impact on productive aspects in terms of positive cooperation and integration the world of prisons. As the products are assembled inside the prisons of Turin and Verbania. In fact, we employ the collaboration of the cooperative EXTRALIBERI.

The cooperative was Born in 2007 in a wider project promoted by the City of Turin and named “The virtues of work” Social Cooperative is EXTRALIBERI

It aims to create opportunities for professional growth and work within prison system, developing new synergies and successful integration between prison and territory.

Band.

In our collection of shadows could not miss a reminder to the world of music. Small musical notes and a treble clef finely etched with small holes, almost imperceptible, are visible when the lamp is on. A band appears when the light goes on, and also the notes come to life, allowing us a glimpse the delicacy of the workmanship.

The card chosen is ivory, which is suitable for all types of environment, musical notes and scores are made with the laser cutting technology in order to allow the exit of the light.

Vespa.

Thinking about the icons of Italian design we could forget to make tribute to our Vespa.

Vespa is in fact one of the twelve objects that have characterized the world design in the last 100 years, it's internationally recognized as an idea that has marked the industrial creativity, one of the best and most significant creation of last century. The Vespa design is unisex and brilliant, it can be driven either with elegance, from a business man to a woman that wears a skirt. We have celebrate it in this way! The card selected is in ivory color, which is suitable for all types of ambient, the street light is always visible, while Vespa, our protagonist, appears only after turning the light on.
