

Session 2:

FAITE Board Meeting

Annual FAITE Board/ Membership meeting.

Presenter: Steven Roberts

Email: steven.roberts@marion.k12.fl.us

Making Computer Science Accessible for All

We will explore the concepts behind computer science while investigating a variety of methods used to make it accessible to all levels of learners as well as appealing to a variety of students.

Presenter: Michele Burke

Email: michele.burke@dixie.k12.fl.us

How to Train Your Proctors for Industry Certifications

Districts are required to create procedures and trainings for industry certification exam administration, including verification that each proctor has received training on test security. The presentation shows how proctor training can be developed in order to meet the state requirements, including an industry certification manual, a locally created Statement of Educational Integrity, and how to maintain the records for the trainings.

Presenter: Kristine Burr

FCCLA Advisor Academy

Are you interested in bringing Family Career and Community Leaders of America (FCCLA) to your FACS program but have no idea where or how to start? This presentation will introduce the steps necessary to be an FCCLA Advisor and show where and how to affiliate. We will introduce the category requirements, meeting ideas, recruiting, competition requirements and travel advice.

Presenter: Penny LaFountain

Email: penny.lafountain@polk-fl.net

Transforming Experts into Educators

Finding a needle in a haystack is easier than finding a new, qualified CTE Teacher in a specialized field. Once the candidate is hired, how can we ensure that they are delivering the best career-focused instruction possible? With retention at an all-time low, what layers of support are we giving our new teachers we worked so hard to recruit? This session will address the common challenges of assimilating new CTE teachers, and seeks to find solutions to these challenges through shared experiences and successes. You will leave this session with structures of support for new teachers, as well as resources to use when coaching your new hires.

Presenter: Daryl Cullipher

FLDOE State Supervisor Update – Arts, A/V Technology and Communication

Presenter: TBD

Apprenticeship Strand Presentation

Presenter: Richard “Ted” Norman, FLDOE

CAPE PART 1

This session will provide a comprehensive overview of Florida’s Career and Professional Education Act (aka CAPE Act), including major program and funding components. The session will also include information on accurate data reporting, test administration requirements, and the ethics of industry certification testing.

Presenters: Tara Goodman and Kathryn Frederick-Wheeler, FLDOE

Inspire the Fire within Students: The Top 10 tools for Your Students to Succeed in College and Beyond!

Learn how FloridaShines and MyCareerShines can help students succeed in school and life after graduation. FloridaShines, Florida's Student Hub of Innovative Educational Services, offers an array of free online tools including a progress check towards high school graduation and Bright Futures Scholarship eligibility. College students can register for online courses and apply to take a course at another school. MyCareerShines is Florida's comprehensive, online education and career planning system powered by a suite of age-appropriate online planning tools. With the new tools, students can assess their interests, explore colleges and careers, plan for education and prepare for work. Come learn how these online tools, plus additional resources, can help your students succeed.

Presenters: Heather Conley, Florida Department of Education and Nashla Dawahre, Florida Virtual Campus

Game Simulation and Coding

How can you develop and implement a successful Game Simulation and Coding program? New Smyrna Beach HS in Volusia County Florida School District offers a 4-year CTE program that starts with a strong Foundations course and extends through Game Design, 2D & 3D Animation, and Coding. How did we design and implement the curriculum, instructional design and classroom management? How do we offer a STEAM program that crosses gender and racial stereotypes? Come hear about one teacher's struggles between understanding Game Design and developing a cohesive program that is sustainable and scalable, producing a diverse group of students that are College and Career Ready, with 21st Century Skills. I will share methods I have used to reduce my grading and prep time, while increasing my student's learning and enjoyment.

Beyond the Lemonade Stand: Encouraging Young Entrepreneurs

According to a recent survey, 72% of high school students would like to start a business someday. This hands-on session provides tools and resources to help students prepare for success as they pursue their entrepreneurial dreams. All participants will receive lesson plans, a copy of the Everyday Economics Entrepreneurs publication and an infographic poster for the classroom.

Presenter: Lesley Mace

Lincoln Electric Company - Starting or Updating a Welding School

Lincoln Electric is the industry leader and world's largest welding manufacturer. We consult with schools on starting or renovating complete welding schools. There has been a tremendous amount of interest over the past couple of years for new welding programs in the state of Florida. Our presentation would cover school design/layout, welding booths, fume extraction, welding equipment, welding simulators, and CNC cutting tables. Basically everything needed to start a welding program.

Presenter: Richard Harrell

richard.harrell@lincolnelectric.com

Preparing Tomorrow's Entrepreneurs

BusinessU is an interactive, engaging business curriculum platform, with a bent towards entrepreneurship. Our program is comprised of project-based, standards-based courses that have an entrepreneurial context. Our goal is to prepare students to be "shark-tank-ready" by the time they graduate high school. All of our curriculum has been designed and vetted by industry professionals. Complete LMS, web-based, and compatible with all browsers and devices (PC's Macbooks, Chromebooks, IOS, Android).
