

To: The Shareholders of E-Debit Global Corporation

From: Coby Boyce

I was very pleased to be approached several months ago, by Doug Mac Donald, CEO and an original founder of E-Debit Global Corporation to take a look at what opportunities could be brought forward that could build on nearly twenty years of business operations within the financial service business sector.

I became introduced to E-Debit Global Corporation in the summer of 2007 at a consolidation meeting in Toronto and subsequent to that meeting became quite familiar with business structure of E-Debit. At that time I was the Founder/President of Arizona based ATM Legends Inc. creating and developing a full-service and multi-regional (concentrated mainly in Central and Western Continental United State) ATM Network integrated with a transaction processing platform through US based Accel/Exchange, MasterCard (Cirrus), Visa (Plus), Pulse and Star Networks (including AMEX, Discover and EBT).

As a result of this initial introduction to E-Debit contact was maintained and ultimately resulted in the call from Doug and our meeting in Las Angeles last December. During our meeting we discussed my availability to take on an overseer role in the corporate re-organization of E-Debit and its status being currently listed for trading on the Pink Sheets of the "Over the Counter" board listed under the Symbol "WSHE". Since then I have been in constant contact with senior executives of E-Debit and agreed to take on the role of a Director and to take the position of President and CEO subject to approval by the Shareholders at their meeting on March 27th which I was happy to introduce myself to the meeting.

Since the meeting and in conjunction with Doug and other members of the historic Board of Directors, me and our other new Board Member Denver, Colorado based Robby Eskanos have begun initiating the proposals approved at the Shareholder Meeting. Over the next 30 to 45 days we will be reviewing how we can re-format the trading status of WSHE and vet the numerous interested parties which have presented themselves as interested in the Corporation and its status as an OTC listed company.

I can advise the initial business focus which has attracted my attention is towards being a major provider of Technology, Goods, Services, Capitalization, Management Service, Equipment Rentals and Property Leases to the authorized medical marijuana Industry centered in California and expanding into other jurisdictions which have licensed and regulated medical marijuana industries throughout the United States. We are at the very start of our review but based on initial interest there appears to significant potential in this business sector.

I view my role and in my discussion with the members of the Board (old and new) I am to supply oversight and to bring to the shareholders of E-Debit the best opportunity as set out in PROPOSAL NUMBER FOUR presented at the shareholder meeting for: "CONTINUED CORPORATE REORGANIZATION" in order to facilitate a change of control (potentially via reverse takeover) of the company by US based companies which the Management and Board believe holds potential for the benefit of shareholders with particular attention to value recovery related to the current non-capital loss carried forward in excess of \$5,000,000 USD reflected on the Corporations financial statements.

While there is no denying that there will be many challenges to meet expectations I am more than pleased to join E-Debit at a time of such meaningful opportunity to implement a profitable change of direction. I look forward to keeping all the shareholders up to date on our progress.

Coby Boyce, President and CEO
E-Debit Global Corporation
