we've said it all a thousand times before been to the wall
and always found somewhere to turn. there was always more to learn.
we've reached the end and almost closed the door. and someone with in.
i ne-ver can re-mem-ber who. all i know is that we've found the strength to make it through
love always finds a way. when the clouds have no sil-ver li-ning, she comes thru shi-ning.
love always sees the light. through the dar-kest night, in a small way, love
always finds a way.
hol-ding you near. af-ter the storm has passed. it be-comes clear
when all our tears have fin-ally dried, that no mat-ter how we fools may try to turn the tide.
