

ROOF CLEANING NOTICE

(Work Begins Monday, June 10th)

Roofs are being chemically cleaned and will take most of the day.

Only one (1) building will be cleaned per day beginning at 8:30 each morning. Conroy Roofing will be on site at 7:30 each day.

The Day Your Building's Roof is to be Cleaned

In preparation, residents should do the following:

- Make sure all windows and doors in units are closed.
- Remove items outside the condo that cannot get wet until after cleaning is completed. Conroy will be glad to assist with moving larger items. Waterproof items may be left outside.
- Pull items on the lanai or patio at least 2 feet from the screen area so they are less likely to get wet.

Entering and Exiting Your Parking Area

When entering or exiting your parking area, please notify one of Conroy's technicians ahead of time so he can stop spraying so your vehicle will not get wet. Conroy will gladly stop spraying to allow you to come and go as needed.

Please be cautious and be aware your roof and building are being chemically cleaned. Because it is a chemical solution, it will stain if it gets on your clothing. Once the cleaning is complete, and everything is rinsed down, it is completely safe and no further caution is needed.

* * * * *

Please note: we take every precaution when we are cleaning. If you disregard these instructions and clothing is damaged, we are not responsible. The more cooperation we get, the faster we can go and not inconvenience you any longer than we need to.

We go out of our way to take great care and not disturb items left outside, but realize that we may and will move items as a precaution. Any items we move will be moved back into place upon completion of cleaning.

Thank you for your cooperation and understanding.
