

4-Hour Asbestos Operations & Maintenance Refresher Course

Course Director/Instructors

John M. Fernandez, CIH, CSP, CMC - Industrial Hygiene Professionals, Inc. (Course Director/Instructor)

Jim J. Brandt, CSP, CHST, CET - Industrial Hygiene Professionals, Inc. (Instructor)

Benefits

A combination of lectures, video presentations, case studies, and hands on activities provides students with the refresher training annually required for all employees involved in Class III operations. Course participants will gain knowledge in: new regulations and recent changes in existing regulations; and a review of major topics from the 16-hour initial training. Class III asbestos work is repair and maintenance operations where asbestos-containing material (ACM) including thermal system insulation (TSI) and surfacing ACM are likely to be disturbed. Each student will receive a student manual, supplemental handouts, and course completion certificate.

Who Should Attend

This one-half day refresher course is required for all accredited operations & maintenance workers who wish to extend their accreditation for a one-year period.

Selected Course Topics

- ❖ Review federal and state regulations
- ❖ Review decontamination systems
- ❖ Case studies
